Report of Audit

Louisville Kentucky, July 10, 1963

Mr. Theodore A. Sanford, Secretary & Treasurer
Kentucky High School Athletic Association
Lexington, Kentucky

Sir:

We have examined the Statements of Receipts and Disbursements of the Kentucky High School Athletic Association for the year ended June 30, 1963. Cash in Banks, Savings Accounts and Bond Investments were verified by direct communication with depositories. Buildings and equipment are reflected at estimated values without appraisal by us.

In our opinion the accompanying statements present fairly the financial position of the Kentucky High School Athletic Association at June 30, 1963, and the results of its operations for the year then ended, subject to the estimated value of buildings and equipment, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Respectfully submitted

New Football Film

THIS IS FOOTBALL is the newest addition to the Official Sports Film Service family of official rules films. THIS IS FOOTBALL was produced under the sanction and supervision of the National Federation of State High School Athletic Associations and allied groups. The film is the twenty-second in the series of official films and the ninth football film. Wheaties Sports Federation and Wilson Sporting Goods Co. are again serving as co-sponsors of the film as they have for the previous twenty-one films.

The theme of the film is centered around the four S's of football. They are science, speed, skill and safety. Demonstrations cover a panorama of basic rules that will aid the official, coach, player and fan in better understanding and appreciating the intricacies of football. Play situations are used to establish standards that can further aid the official in those difficult judgment decisions.

The K.H.S.A.A. has secured two prints of the film and has placed them on loan with the Film Library at the University of Kentucky. The films are available for use in schools and by officials' organizations upon request. Booking dates for the film may be secured from the Film Library, Bureau of School Service, University of Kentucky, Lexington.

Football Clinics

The 1963 clinics for football officials and coaches will be conducted by Athletic Director Edgar McNabb, Assistant Principal of the Beechwood High School, South Fort Mitchell. Mr. McNabb has been the K.H.S.A.A. representative on the National Federation Football Committee for several years.

The dates and sites of the clinics are as follows: August 12, Kentucky Power Company, Ashland, 7:30 P.M.; August 13, Prestonsburg High School, 7:30 P.M.; August 14, Bell County High School, Pineville, 7:30 P.M.; August 19, Bowling Green High School, 7:30 P.M.; August 20, Mayfield High School, 7:30 P.M.; August 21, Henderson High School, 7:30 P.M.; August 26, Newport High School, 7:30 P.M.; August 27, University High School, Lexington, 7:30 P.M.; August 28, Kentucky Hotel, Louisville, 7:30 P.M.

Registration of Officials

Football and basketball officials previously registered have received their renewal application cards for the 1963-64 school year. One hundred thirty-six officials failed to file their 1962-63 reports on or before the deadline set by the Board of Control for the submitting of reports, and it was necessary to impose fines on these officials who failed to comply with Association rules. It is an Association requirement that each registered official attend the clinic in the sport in which he is registered. Eleven football officials and eighty-nine basketball officials were suspended in 1962-63 for failure to attend clinics.

New Officers

On July 27, 1963, the Board of Control was to elect a new President and Vice-President. The magazine deadline was prior to this date. Writups of the new officers will appear in the September issue of the ATHLETE.

Medical Clinics

The Kentucky High School Athletic Association and the Kentucky State Medical Association will again co-operate in conducting a series of medical clinics for school administrators and coaches. Three clinics will be held in 1963, two of them following football clinics for officials and coaches and one following a basketball clinic. The Hardin County Medical Society, working with the School Health Committee of the State Medical Association, will also sponsor an Athletic Injuries Clinic. The dates and sites of the clinics are as follows: Elizabethtown High School, August 13; Newport High School, August 26; Kentucky Hotel, Louisville, August 28; Paducah Tilghman High School, September 30.

The Flying Dutchman

Attention, coaches and recreation leaders! They are playing a fascinating game in Canada called "Lawn Bowls" or "Bowling on the Green." This game is going to be introduced to Kentucky. After the Dutchman returns from London, Ontario, where he will study the game while watching the Canadian National Championship, he will make all information on "Bowling on the Green" available to Kentuckians who write him at his new offices in Jeffersontown, Kentucky.

The Jefferson County Playground and Recreation Board has moved from downtown Louisville to its own office building at Colonial Manor, Jeffersontown, Kentucky. Write the Dutchman at this address.

Here are some summer notes: Ashland's Courtney Clark was in Louisville for the Kentucky-Indiana All Star Game; Paducah consolidated all recreational activities under Art Seelye, Superintendent and well-known basketball official; a 160-acre park was opened on an island twelve miles north of Louisville with one half in Oldham County and the other in Jefferson. The south end of the island is already being unofficially called "Ruby's Point" after the Courier-Journal Sports Editor. It was Earl Ruby who interested Kentucky and Jefferson County authorities in making Twelve Mile Island a "Boaters' Paradise" and a "Beachcomber's Dream."

A lady is the winner of the Corn Cob Pipe of Honor for August. She is Audrea McDowell. Her husband, Robert Emmett McDowell, wrote the play "Home Is The Hunter," now showing in Harrodsburg. This is one production worth driving miles to see. Audrea's unselfish service to Kentuckians was in evidence as the play was produced. This made her a winner.

The season is now open for your recommendations for (1) The Corn Cob Pipe of Honor, (2) The Abou Ben Adhem, (3) The Game Guy. People get a real "lift" from a little recognition. Any Kentuckian may make recommendations to The Flying Dutchman. Make them today.

The Fifteenth Annual School of Mechanics for basketball officials will be presented by the Kentucky High School Athletic Association at the Phoenix Hotel in Lexington on August 11 and 12, 1963. This School has attracted wide attention across the Country and much favorable comment

has been received relative to this method of teaching mechanics to basketball officials. When this session in August is followed up with the fifteen regional basketball clinics scattered over Kentucky in September and October, a comprehensive program of training for basketball officials is completed.

Anyone interested is invited to attend the basketball school in Lexington. The Association brings in one official from each of the sixteen regions of the state to be trained in officiating mechanics. These men then go back to their regions, teaching the officials in their areas as they were taught. This helps bring about a uniform interpretation of the Mechanics of Officiating.

The Dutchman completed his first year of a three-year term on the National Basketball Rules Committee in March. This year the Rules Makers met in Louisville, in 1964 the Committee will gather in Kansas City, and in 1965 the rules will be written in Portland, Oregon. The following organizations are represented as follows on the National Basketball Rules Committee: The National Collegiate Athletic Association, 8 Representatives; The National Federation of State High School Athletic Associations, 4 Representatives; The Young Men's Christian Association, 2 Representatives; The Canadian Intercollegiate Athletic Union, 1 Representative; The Canadian Amateur Basketball Association, 1 Representative; The Amateur Athletic Union, 2 Representatives.

Besides conducting the Kentucky Clinics for basketball officials, the Dutchman will be on loan from the K. H. S. A. A. to Indianapolis on September 28 and Columbus on November 17 to conduct the rules sessions for the Indiana and Ohio High School Athletic Associations.

At each training session this year, we are striving for a large attendance of timers and scorers. Each year, the work of these assistants to the floor officials becomes increasingly important. We must not treat the work of the timers and scorers lightly. Games are sometimes won or lost at the table, depending on the accuracy with which these officials discharge their duties. There should be as many scorers and timers in attendance this year as the officials themselves.

Will you help make this column interesting this year by sending items to The Dutchman which you would like to see in this column?

PERFECTION IN PRINCIPALS

Some of my best friends are school principals. I enjoy being with them.

Here are some odd conclusions I heard at one of their conferences.

If principals work hard, they are eager beavers. If they relax a minute, they're loafers.

If principals work well with parents, they're politicians. If they don't, they're dictators.

If principals love children, they're sentimentalists. If they are strict, they're insensitive brutes.

If principals try to change things in their schools, they're nasty "progressives." If they cling to the tried and true they're stick-in-the-muds.

If principals visit the classes in their schools, they're snoopers spying on teachers. If they don't they're lazy and unworthy of their jobs.

If principals stay at their desks to get their paper work done, they're officebound nincompoops. If they circulate around the school, they're poor managers.

If principals back up their teachers, they're puppets, dancing when their faculties pull the strings. If they don't, they are blankety-blankety-blankety-blanks!

Get the idea? You and I would not agree, of course. We know principals deal with many people. We're sure they will never please everybody. Criticism is part of their job. It is something to shrug off. The principals I know are wonderful men and women. They are doing a good work in a tricky assignment. Thank you, principals, thank you very much!—Anonymous.

K. H. S. A. A. LEADERS

Cecil A. Thornton
President

Oran C. Teater
Vice-President

Cecil A. Thornton, Assistant Superintendent of the Harlan County Schools and K. H. S. A. A. Board of Control member for the past seven years, was elected President of the Board at the summer meeting of the directors, held on July 27. Supt. Oran C. Teater of the Paintsville City Schools was elected Board Vice-President. The two men represent respectively Sections 7 and 8.

The new president is a graduate of Union College, and he is currently a member of the Alumni Association Board of that institution. He attended the University of Kentucky where he received his M.A. degree in Education Administration. He is married to the former Gertrude Cawood. They have one son, Fred Lee, who is in college.

Mr. Thornton lettered in high school and college major sports, and officiated in football and basketball for several years. He taught Science and Physical Education, and served as assistant coach for three years at the Evarts High School. His educational experience also includes service as assistant high school principal, pupil personnel director, and supervisor. Mr. Thornton is an active member of the Harlan Methodist Church, where he served for five years as chairman of the Board of Stewards. For a long period of time he has taught the Senior Men's Bible class. He has for many years

participated in Boy Scout work and has served for over sixteen years on the Harlan County 4-H Club Council. He is a member of the Harlan County Association of Social Agencies. He holds membership in educational associations at all levels.

Vice-President Oran C. Teater, who has been a Board member for the past three years, is a graduate of Centre College and has a M.A. degree from Morehead State College. He competed in all major sports at Centre. In his senior year, he coached the line at Danville High School, which won the Central Kentucky Conference football title.

In the years that followed his college graduation, Mr. Teater returned to Paintsville High School, his alma mater, to coach the Tigers to three Big Sandy Conference titles in five years. His over-all football record was 34-11-3. His basketball teams won 64, lost 13. His baseball team won three state district titles. Largely through his efforts the present four-sport, ten-team Eastern Kentucky Mountain Conference was formed in 1952. In the late forties, when he was President of the Old Big Sandy Conference for three terms, he felt that many of the schools in Eastern Kentucky strongly overemphasized one sport. He was instrumental in spearheading a successful drive for a new four-sport league that required participation in football, baseball, basketball and track. He headed the league in its early days. In 1950 Mr. Teater was elevated to the principalship of the Paintsville High School, a position he held until he assumed the superintendency of Paintsville City Schools in 1959.

Aside from his school duties the new Board vice-president is active in local affairs and state organizations. He is a member of the Masons, Christian Church (deacon), Shrine, and the Paintsville Kiwanis Club (past president); and has served two terms on the Centre College Board of Overseers. He is a member of six other school fraternities, honorary and social. He is currently President of the E. K. E. A. Superintendents organization, and a member of the K. E. A. Planning Board. His wife is the former Mary Evelyn VanHoose of Paintsville. They have one daughter, Dianna Louise, who is in college.

Football Examination

Part II of the National Federation Football Examination for officials will be given in Kentucky on Monday, September 30. An official who has been registered for at least one year prior to the current season is eligible to take the examination and work for a higher rating. Officials who hold the "approved" rating in football are required to make a minimum percentage grade of 80 in order to maintain this rating from year to year. Officials who hold the "certified" rating keep this rating by attending one or more clinics each year. Eligible officials who wish to take the test should write the State Office.

Use of Registered Officials

A list of registered football officials appears in this issue of the ATHLETE. Principals and coaches should study the current list to determine whether or not all officials with whom contracts have been signed have registered this fall. Supplementary lists of officials will appear in subsequent issues of the magazine. By-Law 22 provides that member schools shall use registered officials in all football and basketball games, and that failure to comply with this regulation makes the home school liable for suspension. If there is any question about registration, the

official should be asked to present his card.

Football District Changes

To be added to the list of football schools printed in the August issue of the ATHLETE are the following: Henry County-Class AA, Region II, District 1; Fulton County-Class A, Region I, District 1; Owen County-Class A, Region II, District 2. Removed from the list should be the names of Buckhorn and Dilce Combs (Class A, Region IV, District 2). These schools will not field football teams during the forthcoming season.

School for Basketball Officials

The Fifteenth Annual School for Basketball Officials was held at the Phoenix Hotel, Lexington, on August 11-12, 1963. Basketball Clinic Director Charlie Vettiner directed the school.

The aim of the school was uniformity in officiating. Topics which were discussed during the three sessions were: rules changes and interpretations; general study of the rules; a signal drill to secure uniform signaling of violations, fouls, etc.; floor technique on jump balls, fouls, and field goals; how to determine primary responsibility in charging and blocking situations; post play, screens, guarding the dribbler, switching, no action game, a study of the floor, throw-ins, three circles, foul lanes, and the twenty basketball fundamentals.

The services of the regional representatives who attended the school will be available to Association member schools throughout the forthcoming basketball season. The men will conduct additional clinics for officials, coaches, and players, and will assist beginning officials in registration.

1963-64 Insurance Subsidy

As reported in the Board of Control meeting minutes which appeared in the May issue of the ATHLETE, the Board voted in its April meeting that the insurance subsidy of each Kentucky member school in 1963-64 shall be the basic amount of \$40.00, with an additional subsidy of \$60.00 for schools maintaining football. School administrators wishing to take advantage of the subsidy may write to the State Office for reimbursement forms. Some of the companies with which Kentucky schools place their insurance business give the schools credit for the amounts due and bill the Association for these amounts. The reimbursement plan and the credit plan are both satisfactory.

Attention, Officials!

The attention of all registered K.H.S.A.A. football and basketball officials is called to By-Law 29, Section 9, which provides that the official shall be supplied with an emblem which he shall wear on his shirt or sweater. This rule in 1963-64 will be strictly enforced. The emblem is to be worn on the left shoulder shirt sleeve, approximately one and one-half inches below the shoulder seam. Failure to wear the emblem will make an official liable for suspension from the Officials' Division of the Association.

Recommended uniforms are as follows:

Football—black and white striped shirt (long or short sleeves), black baseball cap with white piping, white knee pants, black belt, black stockings, black shoes and laces;

Basketball—black and white striped shirt (short sleeves, long sleeves by special permission), black trousers, black belt, black shoes and laces.

MINUTES OF BOARD MEETING

The Board of Control of the Kentucky High School Athletic Association met at Kenlake Hotel, Kentucky Lake State Park, on Saturday morning, July 27, 1963. The meeting was called to order by retiring President K. G. Gillaspie at 9:00, with Board members, Don Davis, Ralph C. Dorsey, Sherman Gish, Preston Holland, Don R. Rawlings, Oran C. Teater, and Cecil A. Thornton; Commissioner Theo. A. Sanford, and Assistant Commissioner J. B. Mansfield present.

Preston Holland moved, seconded by Don Davis, that the reading of the minutes of the April 19th meeting be waived, since the members of the Board had received copies of these minutes. The motion was carried unanimously.

Mr. Gillaspie stated that the next order of business was the election of the president and vice-president of the Board of Control. Oran C. Teater nominated Cecil A. Thornton for the presidency of the Board of Control. Preston Holland moved, seconded by Don Davis, that the nominations cease, and that Mr. Thornton be elected by acclamation. The motion was carried, with Mr. Thornton not voting.

Don R. Rawlings nominated Oran C. Teater for the Board Vice-Presidency. Don Davis moved, seconded by Ralph C. Dorsey, that the nominations cease and that Mr. Teater be elected by acclamation. The motion was carried, with Mr. Teater not voting.

Preston Holland stated that the outgoing officers had served the Association well, and were to be complimented on their work. Sherman Gish echoed these sentiments, as did other members of the Board. Mr. Gillaspie, the one retiring Board member, responded with statements concerning his pleasure at having the opportunity to serve the K.H.S.A.A. for eight years and to work with the various directors with whom he had been associated during that time. President Thornton welcomed to the Board Assistant Superintendent Don Davis of the Kenton County Schools.

The Commissioner made a report to the Board on the receipts and disbursements of the K.H.S.A.A. during the year 1962-63. Copies of the audit, recently prepared by Johnson and Lusk of Louisville, Certified Public Accountants, had been mailed to members of the Board. Total funds on hand June 30, 1963, were reported as being \$139,052.80. The Commissioner stated that the complete breakdown on receipts and expenses appearing in the audit, would be printed in a forthcoming issue of the magazine. Oran C. Teater moved, seconded by Preston Holland, that the audit report of the Commissioner be accepted. The motion was carried unanimously.

The Commissioner presented a suggested K.H.S.A.A. budget for the 1963-64 school year, with estimated receipts of \$125,700.00, and estimated disbursements of \$128,775.00. Sherman Gish moved, seconded by Ralph C. Dorsey, that the 1963-64 K.H.S.A.A. budget be adopted as presented by the Commissioner. The motion was carried unanimously.

Ralph C. Dorsey, speaking for the Calendar Committee, reported to the Board that his Committee had made several changes in the 1963-64 calendar of athletic activities, compared with previous calendars, endeavoring to schedule more spring district, regional, and state tournaments and meets on weekends and later in the school year in line with recommendations made by numerous school administrators throughout the state.

Sherman Gish gave a report on the recent National Federation Annual Meeting, held at the Lake Placid Club, New York State.

Ralph C. Dorsey moved, seconded by Don R. Rawlings, that the fall meeting of the Board of Control be held in Lexington on September 28. The motion

was carried unanimously.

The Commissioner reported that the expenses of conducting the K.H.S.A.A. swimming program continued each year to be considerably in excess of the budgeted item. He stated that the State Swimming Committee to date had been unable to set up regional meets in swimming, with qualifying swimmers from these meets advancing to the state finals and having their expenses paid as is true in the other sports sponsored by the Association. Don Davis moved, seconded by Sherman Gish, that the expenses of swimmers representing their schools in the state meets for Class A boys, Class B boys, and girls, be reimbursed on a fifty percent basis. The motion was carried unanimously.

The Commissioner reported that out-of-season basketball and football scrimmages and games appear to be on the increase in Kentucky. Members of the Board asked the Commissioner to give his interpretation of Association regulations with respect to possible violations of these regulations by member school principals allowing their athletes to take part in these contests. The Commissioner stated that the football season is defined as being on the opening date of school and ending with the playing of the last regularly scheduled game, and the basketball season is defined as beginning on the opening date of school and ending on the final day of the State Tournament. He further stated that all out-of-season games should be considered post-season games, that out-of-season scrimmages between teams representing K.H.S.A.A. member schools should be considered games, and that only the Board of Control has the authority to sanction out-of-season games and scrimmages. He said that this interpretation would probably result in a tightening of the Board of Control sanction policy, and he asked for an opinion from each Board member concerning whether or not this interpretation should be established. It was the opinion of the Board members that this rules interpretation by the Commissioner was entirely correct. Oran C. Teater moved, seconded by Sherman Gish, that the Board adopt a policy in line with the interpretation concerning out-of-season football and basketball contests given by the Commissioner, and that the administrators of K.H.S.A.A. member schools be notified immediately concerning this policy in order that the information might be passed on to their football and basketball coaches. The motion was carried unanimously.

The Commissioner reported that certain members of the Shelby County High School and Henry County High School basketball squads had engaged in a scrimmage on July 5, 1963, and it was his opinion that the boys involved had engaged in a non-sanctioned post-season basketball game, thus making themselves ineligible for high school competition. It was the opinion of the Board members that the players had made themselves ineligible by taking part in the practice session mentioned. The Commissioner stated that he did not believe that the principals or coaches of the two schools involved were in any way attempting to break the rules of the K.H.S.A.A. It was his opinion that they had misinterpreted Association regulations and previous Board policy. He recommended that the eligibility of the Shelby County High School and Henry County High School players involved in the basketball practice session conducted on July 5, 1963, be restored by the Board, under authority given the Board in Article IV, Section 3-d-7, of the K.H.S.A.A. Constitution. Sherman Gish moved, seconded by Don Davis, that the eligibility of the Shelby County and Henry County players be restored.

The Flying Dutchman

In last month's *ATHLETE* the Dutchman told of a fascinating game being played in Canada called "Bowling on the Green." At the time, your Dutch Recreation enthusiast offered to pass on information about this sport to other Kentuckians after returning from his Canadian study trip.

In Bowling Green, Kentucky, a College President opened his August copy of the *KENTUCKY HIGH SCHOOL ATHLETE* and the wheels of his fine imagination started to turn. Dr. Kelly Thompson saw the possibilities of "Bowling on the Green" in the City of Bowling Green. When the Dutchman was a student at Western Kentucky State College, he was an ardent admirer of President H. H. Cherry who possessed an imagination so keen that few thought that there would ever be another "on the hill" who could dream like him and make realities out of his visions.

Kelly Thompson can and does. He "out-cherries Cherry."

This progressive College President, whose imagination has brought undreamed of progress to the College on Bowling Green's highest hill, realized immediately that here is a brand new sport which Kentuckians, ages nine through ninety may enjoy—and his town, like that of Bowling Green, Ohio, got its name from the sport. So there should be "Bowling on the Green" in Bowling Green! Now Kelly is studying the possibility of another "first" in the introduction of the sport on an area close to the fabulous new building on Western's Campus which houses the E. A. Diddle Arena.

Prestonburg's E. B. May was the only Freshman in attendance at the Fifteenth Annual School for Basketball Officials in Lexington on August 11 and 12, 1963. Everybody missed Pikeville's Dick Looney who represented Region 15 for fourteen consecutive years but all were enthusiastic about the work done in the officiating classes by "Whistler" May. Dick has passed the "torch" on to an able young man.

On the subject of the training of officials by the Kentucky High School Athletic Association, we point out that Edgar McNabb, who teaches the football officials, is pictured in the column with the chap who does the same chore in Basketball. Many requests come to the Dutchman each year to praise Mac's Football Clinic work. These commendations are richly deserved and could not come to a finer Kentuckian.

There is another great Kentuckian climbing the mountains in and around Hazard.

Mention here is made to the "Fabulous Willie" Dawahare, the Mayor of the town.

Because of his love for kids, and his work for them "Fabulous Willie" has been nominated for one of Kentucky's greatest honors, namely "Mr. Recreation of Kentucky for 1963." This honor, conferred annually on the Kentuckian who has done the most for Recreation in this State was won by Commissioner Ted Sanford, in 1962; 1961 Henry Ward; 1960 Joe Mitchell; 1959 B. C. Van Arsdale; 1958 C. W. Lampkin; 1957 Dr. James T. Fuller; 1956 Lawrence Wetherby; 1955 Buss Kirchdorfer; 1954 Don Campbell, and 1953 L. Max Sanders. Send your nomination immediately to The Flying Dutchman, Post Office Box 36, Colonial Manor, Jefferson-town, Kentucky.

Willie Dawahare transported 40 Hazard kids, many of whom had never been out of Perry County, to Cincinnati to see the Los Angeles Dodgers play the Cincinnati Redlegs. Besides this Willie bedded the youngsters down in the plush Netherland Plaza Hotel and gave each lad a fist full of pictures of George Washington to exchange for hotdogs and other "belly aches" at Coney Island after the game. The Cincinnati management called the occasion Hazard Day. Johnny Podres, Dodger Pitcher who formerly played for Hazard, helped Willie open the ball park and the City of Cincinnati to the Hazard youngsters.

It is a safe prediction that, if the kids had looked around the ball park, they would have found South Portsmouth's Sid Meade somewhere. Sid's idea of fun is to fill a basket with sandwiches, chocolate bars and buttermilk, and get fatter and fatter as his beloved Redlegs entertain him like the royalty he personifies when he puts his referee's whistle between his teeth.

When a fine River Recreation Area was developed this Summer in the middle of the Ohio River twelve miles North of Louisville in Oldham County, Mrs. Mildred Hunter of Belknap Beach in Prospect, Kentucky, won the Corncob Pipe of Honor for unselfish ser-

vice. Many people helped make Belle Island Park become a reality but this lady stands out because she opened her home for temporary offices for the Dutchman's Recreation Supervisors, and gave of her time and effort to help make a dream of a "Boaters Paradise" come true. This gal is terrific!

The Basketball Clinics start this month. Check the schedule in this ATHLETE so you are correct as to time and place. The times listed coincide with the time zone in which the Clinic town is located.

BE SURE TO BRING ALL SCORERS AND TIMERS TO THIS YEAR'S CLINIC, AND BE SURE THAT EVERY BASKETBALL OFFICIAL WEARS HIS REFEREE'S EMBLEM.

MINUTES OF BOARD MEETING

(Continued from Page Three)

ed. The motion was carried unanimously.

The Commissioner reported that a basketball redistricting problem had developed in District 40, since it now appeared that there would be only three schools in this district for 1963-64 due to consolidation. Don Davis moved, seconded by Don R. Rawlings, that Millersburg Military Institute be moved from District 37 to District 40, and that the Bryan Station High School be moved from District 43 to District 37. The motion was carried unanimously.

Ralph C. Dorsey discussed some of the problems of junior high athletics in Kentucky. He stated that it was his opinion that at some time in the near future state-wide regulations for athletics in this area of education will be necessary.

Don R. Rawlings moved, seconded by Oran C. Teater, that all bills of the Association for the period beginning April 19, 1963, and ending July 19, 1963, be allowed. The motion was carried unanimously.

There being no further business, the meeting adjourned.

K. H. S. A. A. FOOTBALL CHAMPIONSHIPS RULES AND REGULATIONS

I. Classification

Sec. A. The Board of Control has divided the schools into three groups as follows:

1. Class AAA includes the schools in Jefferson County except Aquinas, Louisville Country Day, and Kentucky Military Institute.

2. Class AA includes the schools with enrollments of 327 or more in grades 10-12.

3. Class A includes the schools with enrollments of less than 327 in grades 10-12.

Sec. B. The basis for determining the schools of Classes AA and A will be the total enrollment in grades 10-12 of a co-educational school. The Board may make an upward enrollment adjustment for a school with less than a full high school course, and for schools enrolling boys only.

Sec. C. Classification is for a period of two years. Classification for 1963 and 1964 is based on the 1961-62 enrollment. A school on application of the principal to the Commissioner, may be permitted to move from a lower into a higher classification. Any school placed in a higher classification must remain in this classification until all schools are classified.

II. District and Regional Championships

Sec. A. The state is divided into two regions for Class AAA and four regions each for Classes AA and A. Each region may be divided into two districts.

Sec. B. The championship of a district, or a region, if there are no districts, will be determined by the Dickinson Rating System, as adopted by the Board of Control. In the event of a tie under the Dickinson System, the following plan will be applied for breaking the tie: for winning a game, ten points; for tying a game, five points; for each game won by a defeated opponent, one point; for each game won by a tied opponent, one-half point; for each game tied by a defeated opponent, one-half point; for each game tied by a tied opponent, one-fourth point. Only games played within the region will be counted. If a tie results after a team's highest points for four games have been counted, an additional game will be counted until the tie is broken.

Sec. C. To qualify for a district or regional championship, a team shall play a minimum of four games in its class within the region. In Region II of Class AAA, only games played between teams in the district shall count toward the district championship.

Sec. D. In any case where two teams have

played each other more than once, the first game only shall count in the standings.

III. Play-offs

Sec. A. In Class AAA the district winners will play on Friday or Saturday two weeks prior to Thanksgiving. The regional winners will play the following weekend for the championship.

Sec. B. In classes AA and A the district winners will play on Friday and Saturday two weeks prior to Thanksgiving. The following weekend the winners of Region 1 and Region 2 will play, and the winners of Region 3 and 4 will play. Winners of these games (semi-finals) will play for the championship of each class the following week.

Sec. C. If a championship game results in a tied score, the teams will be declared co-champions.

Sec. D. If a game between district winners or regional winners results in a tied score, the following point system will determine the winner: 1) one point for most penetrations of the opponent's twenty-yard line, 2) one point for the greater number of first downs, 3) one point for the greater net yardage. If the teams are still tied after the point system mentioned is applied, then the winner will be the team with the greater net yardage. The Commissioner will appoint statisticians for each game.

Sec. E. In Classes AAA and AA the site, date and starting time of the game will be determined by the winners of the even numbered districts and regions in the even numbered years. Odd numbered district and regional winners will determine the site, date and starting time of the game in odd numbered years.

In Class A the site, date and starting time of the game will be determined by the winner of the odd numbered districts and regions in the even numbered years. The even numbered district and regional winners will determine the site, date, and starting time of the game in odd numbered years.

The site, date, and starting time of the final game in each class will be determined by the Board of Control.

IV. Finances

Sec. A. The proceeds of the games, except the finals, will be used to defray the expenses of the visiting team, officials, trophies for the district and regional winners, and other necessary expenses.

The team transportation allowance shall be 50¢ per mile round trip. If no agreement can be reached on lodging and meals expenses, actual expenses for these items, not to exceed the following maximum, shall be allowed: seven meals for 38 persons at \$1.50 per meal, and two nights lodging for 38

persons at \$3.00 each. Net profit or loss shall be shared by the competing schools.

Sec. B. A representative of the host school, designated by the principal, will manage the games. The game managers shall agree on all matters pertaining to the game; such as officials, admission charges, expenses, and allocation of reserved seat tickets. Disagreement on any of these items shall be referred to the Commissioner, and his decision shall be final.

Sec. C. The proceeds of the final games in each class shall accrue to the K.H.S.A.A. after the necessary expenses have been paid. Actual expenses, not to exceed those given above, shall be paid. A team not requiring transportation, meals or lodging shall receive a minimum of \$100.00 for miscellaneous expenses.

THE DICKINSON FOOTBALL RATING SYSTEM

(As modified and adopted by the Board of Control)

Section I

1. First division includes all teams that have won more games than they have lost during the season. Others are second division teams.

2. For each victory of a first division team over a first division team the winner gets 30 points and the loser 15 points.

3. For a tie between first division teams each team gets 22½ points.

4. For each victory of a first division team over a second division team the first division team gets 20 points and the second division team gets 10 points.

5. For each victory of a second division team over a first division team the winner gets 30 points and the loser gets 10 points.

6. For each victory of a second division team over a second division team the winner gets 20 points and the loser gets 10 points.

7. For each tie between second division teams each team gets 15 points.

8. For each tie between a first division team and a second division team the first division team gets 15 points and the second division team gets 20 points.

Section II

1. No team shall be penalized for a victory in an extra game. To avoid this, the extra game shall be omitted from calculation.

2. If two second division teams have won the same number of victories over first or second division teams, but have lost a different number of games to first division teams, the extra defeats shall be omitted from the calculations.

Section III

1. An undefeated team shall always be

ranked above every team it has defeated, even though the average number of "points" in the season's ratings may indicate otherwise.

2. A team with a percentage of .500 is in the second division. It will be considered to be in the first division if one third of its games have been with first division teams and have resulted in at least one tie and one victory.

3. If, in a game having a bearing on the championship, a first division team should profit by tying another team in the first division, when defeating it would lower the defeated team into the second division, the place of the teams in their divisions shall be determined without considering the game.

4. A team undefeated in its district, which has played at least three games with teams in its district, shall rank above all teams in its district which it has defeated.

Section IV

1. If the foregoing directions have been accurately followed, the final standing may be determined by getting the average number of points.

2. If two teams have the same average points for the entire season, the victor in the game played between them during the regular season shall be ranked above the loser.

3. If three teams have the same number of "points" for the entire season, and two of them have played each other, the lower in this game shall be ranked third and the other two tied for the highest rank.

(Do not attempt to apply this system until all of the games of the season have been played.)

BULLETIN!

The following bulletin from the Commissioner to administrators of K.H.S.A.A. member schools was mailed on August 5, 1963:

Due to the fact that out-of-season basketball and football scrimmages and games appear to be on the increase, the Board of Control of the Kentucky High School Athletic Association in a recent meeting asked the Commissioner to give his interpretation of Association regulations with respect to possible violations of these regulations by member school principals allowing their athletes to take part in these contests.

The Commissioner stated that the football season is defined as beginning on the opening date of school and ending with the playing of the last regularly scheduled game, and the basketball season is defined as beginning on the opening date of school and ending on the final day of the State Tournament. He further stated that all out-of-sea-

son games should be considered post-season games, that out-of-season scrimmages between teams representing K.H.S.A.A. member schools should be considered games, and that only the Board of Control has the authority to sanction out-of-season games and scrimmages.

The Commissioner said that this interpretation would probably result in a tightening of the Board of Control sanction policy, and he asked for an opinion from each Board member concerning whether or not this interpretation should be established. It was the unanimous opinion of the Board members that this rules interpretation by the Commissioner was entirely correct, that the policy involved should be established as a Board policy, and that the administrators of K.H.S.A.A. member schools should be notified immediately concerning this policy in order that the information might be passed on to their football and basketball coaches.

Players competing in non-sanctioned out-of-season games and scrimmages lose their high school eligibility. In-season football scrimmages between teams representing K.H.S.A.A. member schools are to be considered games, and in-season basketball scrimmages between teams representing member schools must be counted against the game limit mentioned in K.H.S.A.A. By-Law 21.

On April 18, 1963, the first annual basketball clinic of the Kentucky High School Coaches Association was held at the Hideaway Room in the Student Union Building on the University of Louisville campus. The clinic began at 9:30 A.M., with the following coaches presenting the program: Robert Mulcahy (Seneca H.S.), coach of the 1963 state champions; John Lykins (Frankfort H.S.), coach of a 1973 C.K.C. co-championship team; Jock Sutherland (Harrison H.S.), coach of the champions of the Mid-States Conference; and Jim Bazzell (Allen County H.S.), coach of a 1963 regional winner.

Approximately forty-five coaches were present for the program which had been arranged by Coach Bob Wright of Ashland and his committee. Given below is a resume of one of the talks which were presented.

MAD DOG DEFENSE

by Jock Sutherland

This is the name we call the defense used at Harrison County High School. It is a half-court pressure-press type of defense, and is for the school with average size, average speed, average ability, but a great deal of desire. The name makes our defense something special to our people and they respect it.

The principle is to meet the opposition at the center line and to make every effort to prevent them from entering into the offensive area. After this penetration is made the defense must adjust to the situation which may be to a normal man-to-man defense or some variety of the zone.

The young basketball players today are such outstanding shooters that you can not allow them to enter the area they want to enter. make the pass they want to make, or get the screen. Therefore, it

is necessary that the defense you employ be a type of multiple defense such as the "Mad Dog" defense. In this defense we get: (1) double team situations, (2) pressure on the ball at all times, (3) over-play on strong side receiver, (4) zone at particular points, (5) a great deal of ball or pass anticipation.

These points mentioned tend to force the opposition into mistakes, take the bad shot, lose confidence, and above all they will tend to make the opponents careless and play a runaway type of game completely different from their normal pattern of play.

The defense must also be versatile. When the pressure at the line fails, there has to be an adjustment made. Naturally the closer the ball gets to the scoring area, the more cautious the defense must be. This adjustment from the gambling line play to a basic well disciplined type of defense is the hardest part of a half-court press, but can be accomplished with a great deal of organized drill.

Since the basic principle of the defense is to obtain the ball in a hectic flurry of arms and bodies, it is essential that some type of offensive attack from the steal be planned. This we accomplished by charting the errors and determining the area where the big percentage of these errors occur. At these points we establish definite lane filling assignments with the ball always having the right-of-way. If this fast break situation does not materialize, it is important that the ball be held up and a regular offensive pattern be put into action. This is another part of the defense that is hard to teach. The wild "Mad Dog" type of defense tends to force our own people into the same type of offensive play but it can be controlled with constant drilling.

The defense itself will stimulate your people to be aggressive and take a little pride in their defense. To our opponents and to other people, the "Mad Dog" defense means a mass of confusion. To the boys here at Harrison County High School, the "Mad Dog" defense means organized confusion.

Football

BALL HANDLING IN FOOTBALL, j-s-c-a, 1 reel, \$1.50.

Fundamentals of ball handling are stressed; stance, grip, "feel" of the ball, finer-tip control, adjustment before throwing or kicking, receiving passes from center or from a back, catching passes and punts, ways of carrying ball, and changing from one hand to another. Game shots are presented, using slow motion and stop action techniques, and superimposed animation to illustrate principles.

BLOCKING IN FOOTBALL, j-s-c-a, 1 reel, \$1.50.

Fundamentals of good blocking are taught in this film: position, speed, drive, follow-through, timing, and body control. Describes shoulder and body blocks, demonstrating several varieties of these. Importance of good physical condition, practice, and experience are emphasized. Special photography used to illustrate different points.

FOOTBALL FOR MILLIONS, j-s-c-a, 3 reels, color, \$.75.

FOOTBALL GAMES OF UK, j-s-c-a, 3 reels each, \$75.

Several old football films showing University of Kentucky in such games as Cotton Bowl, Sugar Bowl, etc., have been placed in the library for those who wish to use them.

GAME OF GAMES, j-s-c-a, 1½ reels, \$2.50

The highlights of the 1946 Army-Navy football game are presented in slow motion. It is filmed by "official" photographer of the Athletic Association of the U. S. Naval Academy.

OFFICIAL FOOTBALL, j-s-c-a, 3 reels, \$75.

This film portrays the play situations covering the basic rules of football as played under the National Alliance Code. The theme is centered around the official interpretations of the rules as they apply to the three teams always present on the field, the home team, the visiting team and that all important third team, the officials.

TACKLING IN FOOTBALL, j-s-c, 1 reel, \$1.50.

Tackling properly is shown as the result of application of certain fundamentals: good physical condition, speed, body placement, drive, sure grip, timing, and body control. Shoulder and cross body tackles are demonstrated in various ways, with special instructions for safety and means of a reducing shock.

that will aid the official, coach, player, and fan. Play situations are used to establish standards.

A Creed For Athletic Officials

Believing that mine is an important part in the nation-wide school athletic program, I pledge myself to act in accordance with these principles.

1. To know fully the rules and accepted officiating procedures for each sport in which I serve as arbiter.

2. To build my game schedule through my accepted worth, potential possibilities and inherent character rather than through transitory acquaintance or trading of favors or tempted pressures.

3. To honor every contract, even though this may occasionally result in financial loss or loss of opportunity to work for a larger school or one involving less travel.

4. To keep myself physically and mentally fit.

5. To be systematic, prompt, and business-like in all my dealings with those I serve.

6. To wear the accepted Official's attire and to maintain a neat and creditable appearance.

7. To act in such a way as to be a worthy example to those under my supervision.

8. To remember that my responsibility also extends to my fellow officials and that I must work as one member of the team.

9. To make my decisions promptly but without snap judgment, firmly but without arrogance, fairly but without officiousness; and to base them on the rules regardless of the type of school, the closeness of the score or the opinions of partisan spectators.

10. To keep in mind that my first charge is the safety and general welfare of those under my supervision.

PUMA for PERFORMANCE and more TOUCHDOWNS!

THE ALL SPORTS SHOE

HUNTS,

Here's the story on PUMA shoes for football and other sports. Sweeping the country in a big way! You should buy some of these OXFORDS and try them NOW!

It's down right sensational to get all these advantages in a football shoe for less than \$12.95 to \$15.95 but the price is only

\$8.75 pr.

1. Tested and proved by major league and professional football players.
2. Outstanding for backs and ends on a dry field. (Not so good in the mud.)
3. An exceptional shoe for Jayvee and Jr. High teams.
4. Little League and elementary school boys really love them.

PUMA LASTIC

EXTRA LIGHT, about half the weight of a regular shoe. It's SHOCK-PROOF sole and cleats are PUMA-LASTIC which will outwear the shoe.

TWICE the usual number of cleats! 14 on each shoe, giving more traction, more lateral stability.

All cleats but 2 on each shoe are near the outer edge of the sole which means better body balance. This and the universal last makes a better fitting shoe which feels better on the foot, avoids blisters, affords great comfort.

CLEAT AND SOLE TROUBLE ELIMINATED! The cleats are molded to the sole. No cleats to get loose, give trouble. No post trouble. No steel plate to crack . . . and this means greater flexibility. Not a shoe for muddy field, but for normal conditions, it's great. While some schools have bought 50 pairs, we suggest you only buy a few and try them on backs, fast ends and see what happens.

The Sportsman's Creed

The Player...

1. He lives clean and plays hard. He plays for the love of the game.
2. He wins without boasting, he loses without excuses, and he never quits.
3. He respects officials and accepts their decisions without question.
4. He never forgets that he represents his school.

The Coach...

1. He inspires in his boys a love for the game and the desire to win.
2. He teaches them that it is better to lose fairly than to win unfairly.
3. He leads players and spectators to respect officials by setting them a good example.
4. He is the type man he wants his boys to be.

The Official...

1. He knows the rules.
2. He is fair and firm in all decisions. He calls them as he sees them.
3. He treats players and coaches courteously and demands the same treatment for himself.
4. He knows the game is for the boys, and lets them have the spotlight.

The Spectator...

1. He never boos a player or official.
2. He appreciates a good play, no matter who makes it.
3. He knows the school gets the blame or the praise for his conduct.
4. He recognizes the need for more sportsmen and fewer "sports."

TWELVE TYPES

"If high school athletics are ever 'killed' it will be caused by the improper conduct of adults and not high school students" is a statement that this writer has made many times. Athletics conducted in the proper fashion are so valuable and educational that it is unthinkable that they should not be included in our high school curricular program, yet we have a few adults whose actions give support to those few people who would like to see the inter-school program destroyed.

Those people whose acts are doing a disservice to our inter-high school athletic program fall under the following twelve general categories:

1. Those adults who insist on gambling on high school athletic events. This group is composed largely of local people who bet on each game, and want a win, plus a specific number of points scored to insure the collection of their bet.

2. Those few people who insist on drinking at high school athletic events. Football games are a part of the school curriculum, and the athletic field is merely an extension of the classroom, therefore such improper conduct cannot be condoned.

3. Those few people who use loud and profane language. These people should not be allowed to disturb others. In no way can such conduct be justified in an educational program.

Winning Only Goal

4. Those few adults who insist on a winning team regardless of how it is done. These people adopt the pragmatic view that "anything which succeeds is good," and reject the ill effects which result to any educational program which has as its goal "win at all cost."

5. Those few adults who insist on giving items of material value to high school athletes. The secondary school athletic program must be amateur if it is to be justified, and any philosophy based on economic gain from participation will, and rightly so, eventually kill the program.

6. Those few adults who try to commercialize high school athletics. This group consists of individuals or firms who try

to utilize the reputation of the high school athletes for advertising their own products or services.

Well Balanced Program

7. Those few adults who insist on a one-sport inter-school program. A well-balanced athletic program is essential to meet the needs of all students and any person who insists on a one-sport program and neglects all other activities is guilty of depriving other students of their just rights.

8. Those few adults who insist on promoting all-star games. There is not a single professional educational organization that endorses all-star athletic events.

9. Those few adults who object to state association rules because they affect local high school situations. Such adults do not realize that without rules to go by we would revert to the old "outlaw" days which were untenable and would destroy the secondary athletic program.

Penny Wise Fans

10. Those few adults who contend that gate receipts should finance the entire athletic program. Athletics are a part of the school curriculum and should be partially or wholly supported by tax funds. Any other view places undue emphasis on "winning."

11. Those few adults who are poor sports. This group blames the coach, officials or players for all losses. This group is guilty of improper conduct which creates dissension between schools and communities.

12. Those few adults who insist that the athletic teams be given all support to the detriment of the physical education and intramural program. There should be a place in the school curriculum for a broad base of physical education and intramurals for all, with an inter-school program for those with superior ability. Any other type of organization is dishonest as it grants rights to a few at the expense of the majority.

Those few adults who fit into one or more of the twelve categories listed above are contributing indirectly to making problems of conducting athletics.

Fortunately, most adults do not fall into these groupings. Their support will insure the continuance of an educational athletic program. We need to work constantly on changing the attitudes of those adults who are harrasing secondary athletic programs. Constant vigilance is essential to maintain inter-school athletics on an educational basis.

Early Season Football Questions

EDITOR'S NOTE: These rulings do not set aside or modify any rule. They are interpretations on some of the early season situations which have been presented.

1. Play: Specialized punter, K1, enters as a substitute. The kick is made and the ball is recovered by Team R. K1 assumes that team possession will change and immediately leaves the field. He is replaced by K2. It then develops that a foul occurred during the kick, and the penalty is accepted so that the anticipated change of team possession does not develop. Is it permissible for punter K1 to re-enter and to participate in the down to be replayed?

Ruling: If the situation is such that K1 did not have a reasonable opportunity to know that a foul had occurred, the officials are authorized to permit K1 to participate in the down to be replayed on the assumption that the substitution was not completed. Some elasticity on the part of the official is necessary in this situation, since the intent of the prohibition against withdrawal and re-entry during the same dead ball is to avoid the practice of using a substitute to bring in signals or information and then withdraw without participating. In order to avoid confusion, it is recommended that coaches instruct their substitutes to determine whether any foul has occurred before they commit themselves by entering the field.

2. Play: On a try-for-point, the holder of the ball who has one knee on the ground catches it and then fumbles. K1 recovers the ball and drop kicks it through the goal.

Ruling: The ball became dead when it was fumbled by the intended holder for the place-kick. K1 kicked a dead ball through the goal.

3. Play: B1 touches a forward pass and A2 catches it while he is behind the line. A2 then throws a second forward pass to interal lineman A8 who is beyond the line.

Ruling: Forward pass interference by A8. If there is more than one legal forward pass, ineligible A is restricted during the second pass to the same extent that he was during the first pass.

4. Play: After advancing five yards, A1 fumbles the ball on B's 2 yardline and it rolls into B's end zone. B2 bats the ball over the end line.

Ruling: If A accepts the penalty, they will next put the ball in play on B's 1 yardline, the penalty being one half the distance to the goal measured from the spot where the run of A1 ended (2 yardline). If the penalty is declined, it is a touchback.

5. Play: After a fair catch, Team A puts the ball in play at the inbounds line by a snap. Team B commits a personal foul during the down. (a) Before the referee has placed the ball ready-for-play, captain A1 requests it be placed midway between the inbounds lines for a free-kick, or (b) after the referee has placed the ball at the inbounds mark on the proper yardline Team A huddles and subsequently takes time-out. During or after the time-out they request the referee to place the ball midway between the inbounds lines.

Ruling: In (a) the request is granted. In (b) the request is denied. A request for a special placement of the ball when the privilege is available to the snapping or free-kicking team must be made prior to any charged time-out granted during that dead ball period.

6. Play: May a 2-inch kicking tee be used for point after touchdown kicks?

Ruling: Yes. A 2-inch kicking tee is legal for use for any place-kick, including free kicks, scrimmage-kicks and point-after-touchdown kicks. The 2-inch tee is not mandatory and place-kicks may be made with the ball being placed directly on the ground, or with the traditional 1-inch tee being used. The rule specifically requires that any tee which is used must be made of pliable material.

7. Play: During a legal forward pass which ends behind the line, B1, while on A's side of the line of scrimmage, uses his hands on A2. Is this forward pass interference?

Ruling: No. If B1 is attempting to get at the ball and he does so without committing a personal foul, the use of his hands is legal. If B1 holds, or is not attempting to get to the ball, the use of his hands in his situation is illegal. The distance penalty for illegal use of hands is the same as that for pass interference, i.e., 15 yards, but there is no loss of down.

8. Play: B1 intercepts a forward pass or catches a punt on his 30 yardline and he (a) uses a punt to return-kick, or (b) advances 20 yards and uses a punt to return-kick, or (c) advances 50 yards and drop kicks the ball through the goal posts.

Ruling: Legal in (a), (b) and (c). In (c) a field goal has been scored.

9. Play: R1 bats a free-kick (a) out-of bounds, or (b) R2 recovers and advances.

Ruling: The bat of R1 is illegal and the clock will not start in (a). In (b) the clock will be started when R2 touches the kick and it will continue to run until the down ends. Then it will be stopped in order to give the offended captain an opportunity to accept or decline the penalty.

10. Play: A1 is offside during a legal forward pass which is intercepted by B1. While B1 is advancing, B2 clips.

Ruling: Double foul. The down is replayed.

11. Play: During the entire game, until well into the 4th quarter, Team A has been using the T formation. With a limited time to play (approximately 4 minutes) Team A has the ball on B's 10 yardline. Team A players take T formation positions after which the backfield shifts to another formation, and then the ball is snapped. Has Team A committed an infraction?

Ruling: Merely using a shift is not an illegal act. The only way this could be an infraction is if the movement were in the nature of a false start which is used for the purpose of drawing the opponent into encroachment or offside. The defensive team is expected to be on the alert for an additional shift at any time during the game and should charge into

KAPOS News

ATTENTION!

Principals, Sponsors, Cheerleaders!

The Kentucky Association of Pep Organization Sponsors and the University of Kentucky Extended Programs will sponsor a one day clinic for sponsors and cheerleaders on the University campus November 9, 1963.

K. A. P. O. S. is proud to announce that the Mr. Lawrence Herkimer will conduct this clinic. Mr. Herkimer is Executive Director of the National Cheerleaders Association and is known throughout the country as "Mr. Cheerleader." He was featured in the March issue of Sports Illustrated, and this spring he toured the South American countries conducting clinics.

SPONSORS make your plans now to bring your entire squad to this fall clinic. A highlight of the day will be the luncheon for sponsors where you can share your ideas and problems with other sponsors. New KAPOs officers will be elected at this time. Details concerning the clinic will be sent to you in care of your PRINCIPAL . . . you should get the information in early October if your PRINCIPAL puts the letter in your mail box.

MEMBERSHIP . . . IS YOUR SCHOOL A 1963-64 MEMBER OF K.A.P.O.S.? If not, send your \$2.00 to Mrs. Stella S. Gilb, University of Kentucky and make the check payable to K. A. P. O. S. Membership cards will be mailed upon receipt of the \$2.00.

MINUTES KHSAA SWIMMING COMMITTEE August 10, 1963

The Swimming Committee, an advisory group to the Board of Control of the Kentucky High School Athletic Association, met in the Association's building on Rose Street in Lexington at 2:00 p.m. Saturday, August 10, 1963. (The usual meeting time in the calendar year followed the Class B Championships in April. Due to certain conditions underlying the nature of the problems before the committee, this meeting was postponed to the above-mentioned time.)

The following members of the committee were present: Mr. E. W. Craik, Louisville; Mr. Marshall Beard, Louisville; Mr. Jack Thompson, Louisville; Mr. Frank Ogden, Lexington; Mr. Donald Davis, Bellevue; Mrs. Wilma Bell, Cynthia; Commissioner Ted Sanford, Lexington; and Chairman Algine Reece, Lexington.

The chairman called meeting to order. Mr. Cecil A. Thornton, newly elected president of the Board of Control, was a welcome visitor. He was introduced to the committee. Mr. Davis, newly appointed to the committee as Board of Control representative, was also introduced and most cordially welcomed.

The chairman reviewed the problems which confronted the committee at the end of the 1962-63 season. This was necessary since there was no possibility of their being acted upon in the Spring for lack of information. These problems were based on the fact that the participation of High School Swimming has increased to the point that the program was costly . . . more so than it should be, both in time and money, when compared to other sports sponsored by the Association. At the end of the season some committee members felt that the oncoming season would be the time to enter regional meets for swimming. Also the question of conducting both Class A and Class B meets at the University of Kentucky pool was doubtful, due to the conflicts in the pool program at the University.

A summary report of the meets conducted for the 62-63 season at the University was distributed to each member in mimeographed form. The meet manager, Mr. Reece, also reported on the following participation statistics:

1. Class A meet, February 22-23, 1963 at Coliseum Pool, University of Kentucky-10 teams with 158 individual contestants

2. Class B meet, and Girls' meet, March 30, 1963, at the Coliseum Pool, University of Kentucky-12 Class B boys' teams with 145 individuals, 16 Girls' teams with 125 individuals

Commissioner Sanford reported that the expenses for swimming amounted to \$5,176.39. He reported that, in view of this increase (due to practice of some schools sending more team members than necessary because their expense was borne by the Association), the Board of Control, in its recent meeting had decided to reimburse State Swimming Meet expenses for participants and coaches on a fifty percent basis.

The Flying Dutchman

Westport High School in Jefferson County is engaging in football for the first time this year. What is equally important is that Westport's community spirit has won for Principal "Mike" Brucchieri's School the first Abou Ben Adhem Award of the K. H. S. A. A. Athletic Year.

The citizens of that area decided only a year ago that their youngsters should have a lighted Football Field when they opened their varsity competition. The project would cost money—lots of money which had to be raised locally. That was the time the community called on Orville Schmied to show them how—and how Orville showed them!

Schmied's ability to organize had "White Collar Citizens" with their sleeves rolled up working. Then Westport's students "Caught fire" and went to work to raise money, with the result that in its first year of football Westport boasts one of the best-lighted fields in Kentucky—and all because adults cared enough for their kids to work for and with them. THE DUTCHMAN salutes Westport's community spirit. "May Your Tribe Increase!"

Right now THE DUTCHMAN is heading the nose of his worn-out "gas-burner" toward Elizabethtown and Bowling Green for the first two Basketball Clinics of the 1963-1964 season. Howard Gardner will have a big Sunday dinner ready at Elizabethtown. That Officials' Association at E'Town is "On the Ball." Kentucky should develop many more like the one in Hardin County.

This year marks our twenty-second consecutive annual trip over Kentucky, working with coaches, officials, timers and scorers for the K. H. S. A. A. On our first sashay in 1942 we had a total attendance of ninety-six. It's a safe prediction that three-

thousand will make their voices heard this year.

Kenny Blankenbaker, a prominent Southern Indiana Official, emphasized at a meeting this month the tremendous increase of the popularity of the clinics as is evidenced by the increase of from 96 to 3000. He asked how we could account for this. It's easy. In 1942 attendance was optional; now you've "gotta" come or you can't officiate or coach. Nuff Sed!

A lot of interesting events characterize each year's basketball study sessions. Expect to find the same officials attending one, two and even three clinics. Beechmont's Jerry Kimmel attended four last year.

Athletic Director Bill Clark of Somerset started a fine custom several years ago. This consisted of setting up a steak dinner on the night of the clinic for your hungry interpreter. This custom has now swept the Commonwealth—happily.

This year Citizens of one town alone, Hazard, have sent a half-dozen invitations to T-Bone Steak affairs. Ernie Chatten of Ashland, who claims to be the best steak Chef of them all, will charcoal a few for the DUTCH BOY in his back yard before we head for Ashland's session.

Sure, I've got a "Pot." You can't do these clinics and not get one. The Clinic Director should fast a week before starting out.

Kentucky has long claimed the title of "Sportsmanship Capitol" of the Nation. Now its citizens want the "Hospitality Championship" also. For my money, they've already got it.

Ashland's Courtney Clark is high in his praise of Football Official Kermit Blosser. Courtney thinks that Kermit is a fine example for young athletes to pattern from. THE DUTCHMAN agrees. This chap is an Ohio product who does many things besides officiate football. When Ashland citizens saw him officiate, they would have appreciated him more had they known something about his record.

Kermit is a winner. The golf teams he coaches at Ohio University are fabulous. He personally won the National Collegiate Wrestling Championship in 1932, and has coached football, basketball and track champions all over Ohio. Because of his work for boys and the example he has set for them, Kermit wins the Corn Cob Pipe of Honor for the month of September. When THE DUTCHMAN conducts the Ohio State-Wide Basketball Clinic in Columbus on November 17, 1963, Kermit will be one of the first chaps he will look up.

Spent some time in Chicago chatting about the new rules with Cliff Fagan this month. A session with Cliff is the equivalent of a month's study with anybody else. We hope to pass on his "Rules Tips" to you at our clinics.

FOOTBALL QUESTIONS

(Continued from Page One)

the natural zone or across the line of scrimmage only at the snap. In the circumstances which are outlined in the play above, Team A is expected to execute the second shift so that it will comply with the rules and so that the shift will not be a false start. If the shift consists of a quick charging motion, similar to that usually used at the time the ball is snapped, it is a false start. However, if the backfield moves into its second, or new positions with deliberation, there is nothing in the rules to prevent their doing so. Obviously, some judgment on the part of the official is necessary in borderline cases.

12. Play: If a fair catch is made during the last play of a quarter, is the quarter extended to permit a free-kick during the same quarter?

Ruling: No. However, if there should be fair catch interference and if R should choose an awarded fair catch, it has the privilege of having the quarter extended to permit an additional untimed down, or, it may choose to start the new quarter (if the interference occurred during the last down of the first or third quarter) with either a free kick or a snap.

13. Play: Visiting coach protests the intended use of a field clock.

Ruling: A field clock may be used as the official timepiece without the agreement of coaches. The rules provide that this (a timing device) "may be a scoreboard electric clock" and Rule 3—Time Factors in sections 4 and 5 respectively refer to starting and stopping the clock. Nowhere do the rules require an agreement when a field clock is used. Whenever an agreement is necessary to use a piece of equipment, the rules so specify. It is therefore obvious that a field clock must be accepted as the official timepiece when it is in good working order. Whether the operator of a scoreboard electric clock shall be a registered official is a decision of the state association. Most progressive state associations consider an electric clock operator as a game official, and therefore, require that he be a fully qualified and registered official.

14. Play: Competing teams agree to hold the coin toss in a dressing room, a minimum of 15 minutes before the game starting time.

Ruling: Legal. Rule coverage does not determine where, or when the coin toss shall take place, except that it shall be before the starting time of the game. Regardless of where the toss is held, each team should have only one representative at the toss. Co-captains, other players and coaches, and other representatives of either team are not to participate in the toss and should not be in the vicinity while it is made.

15. Play: (a) Several members of Team A appear on the field ready to participate with tape or badages on their hands, or (b) B1 attempts to start or enter the game wearing a well padded hand, wrist or arm cast, or a well padded guard made of sole leather, plastic, or other unyielding or hard substance.

Ruling: In (a) it is illegal for a player to wear tape or bandage on a hand unless it is sanctioned by the umpire as being necessary to protect an injury.

It is customary for the umpire to notify the coaches of participating teams, upon arrival at the game site, that he wishes to be in attendance when any hands are taped or bandaged and that he will permit such taping or bandaging only when it is necessary to do so for the protection of an injury. If several members of a team appear ready to play with hands taped, it is a suspicious situation and umpires are justified to have evidence presented that such bandaging or taping was necessary. In (b) the equipment is illegal and may not be worn. The umpire under no conditions is authorized to permit its use, even when there is evidence that the wearer has an injury.

16. Play: K1 asks his team manager for his kicking shoe which he attempts to change during the between downs period. (a) He makes the change and tosses the replaced shoe off the field within the 25 seconds ready-for-play period, or (b) he makes the change and leaves the replaced shoe on the field, or (c) he changes to a ballet type shoe, or (d) he cannot complete the change within the 25 seconds ready-for-play period.

Ruling: In (a) the action is legal. In (b) the official will remove the replaced shoe from the field because it is a safety hazard and will then penalize Team K for delay of game. Ballet type shoes are not acceptable for football and in (c) if K1 or a substitute for him is not properly equipped at the time the ball is to be snapped, there is delay. In (d) Team K will require a charged time-out if it is available, or a penalty for delay must be assessed. The 25 second official's time-out for replacement of required equipment, or for correction of equipment which has become illegal through use is not to be granted for situations described in (b), (c) and (d).

17. Play: After the clock has been stopped for a measurement and there has been no charged time-out during that dead ball period, when does the clock start?

Ruling: When the referee gives the ready-for-play signal. This is an official's time-out and unless the clock stoppage is followed by a charged time-out, the clock starts when the ball is placed ready-for-play.

18. Play: Have any errors or omissions been discovered in the 1963 Football Rules Book?

Ruling: The last sentence in 1-3-4 (page 7) should have been expanded so as to read in the entirety as follows: "This may be a scoreboard electric clock or a stop watch carried by the umpire of a 3-man crew, or by the field judge of a 4 or 5-man crew." 3-4-2 (page 19) should provide that "After a touchdown the clock shall not be started until the ball is legally touched after the kick-off follow the try-for-point." In 4-2-2j (page 23) the word should be "inadvertently". In the Comments on the 1963 Rules Changes (page 50 and 51) the reference 3-5-1 should properly be 3-4-1 and the reference 4-1-7 should be 4-3-4.

ATTENTION, COACHES!

Mrs. Kitty Baird, president of the Kentucky Association of Health, Physical Education and Recreation, announced that the fall meeting of this group will be held at Cumberland Falls on October 25-27, 1963. Coaches are urged to attend the Men's Athletic Division of this Conference.

SWIMMING COMMITTEE MINUTES

(Continued from Page Three)

After some lengthy discussion the committee unanimously voted the following recommendations:

1. The Girls' competition should be classified in the same manner as the boys. Schools with 750 or more enrollment in the upper four grades would be placed in the Class A category. In case of an all-male or all-female school, the enrollment should be 375 students or more. Class B schools would be those having an enrollment less than 750 in the upper four grades, or the equivalent.

2. The dates and sites of the 1963-64 meets were recommended as:

Class A meets . . . both boys' and girls' . . . to be held in Louisville (Since majority of schools in this class are in this area, considerable reduction in expenses is anticipated). Dates: February 21, 22, in 1964. Mr. Craik and Mr. Thompson were given the responsibility to select the pool (either University of Louisville, where pool is under construction, or at the Plantation Swim Club pool).

Class B meets . . . both boys' and girls' . . . to be held in Lexington at the University of Kentucky Coliseum Pool. Dates: April 3 and 4, 1964.

3. The events for all classifications and competitions shall be the same. Order and list of events are in the current (1964) Swimming Guide of the NCAA. This means that there are 11 events.

The matter of charging admission for the championships was introduced by Mr. Thompson. Though there was favorable reaction it was tabled. The regional plan for conducting championships was also tabled. It was felt generally that another year could tell the committee better of the advisability of using the regional plan. The problem lay in the fact that pool locations and the distribution geographically of participating teams are not in harmony.

The Cavana award was next discussed. Mr. Sanford explained some of the problems in reporting. An individual record card system was again discussed. Action was taken on the period of grading. The motion was made that this period should range from June 1 to March 31 of the following year. Seconded. Motion passed. Motion made and seconded that a school winning Cavana trophy for two successive years would be ineligible for the award during the next two years. Passed. Adjournment. —Algie Reece

How To Survive A Bad Year

By John Lykins

Editor's Note: Given below is a resume of one of the talks presented at the first annual basketball clinic of the K.H.S.C.A., held in Louisville on April 18, 1963.

I. ORGANIZE PRACTICE TIME.

A. Make out practice schedules at the beginning of each week.

B. Specify time practice is to end. Encourage boys to work so practice can end on time.

C. Use clock to time drills.

D. Keep practice schedules for reference.

II. KEEP TREMENDOUS STATISTICS

A. Locate cause of bad year. Use valid test. Don't guess.

B. Organize practice schedules according to weaknesses.

III. FUNDAMENTALS YOU MUST WORK ON EVERY DAY

A. Shooting: (1) lay-up, (2) jump shot

B. Passing: (1) two hand, (2) one hand, (3) accuracy

C. Tipping: (1) position, (2) leg spring

D. Rebounding: (1) blocking out, (2) position offense (follow shot)

E. Maneuvering: (1) with ball (various steps), (2) without ball (fakes-act), (3) pivots and turns (position)

F. Defense: (1) individual work, (2) Freshmen and "B" team press all time (practice and game)—(a) increases endurance, (b) quickens reflexes, (c) enables better team defensive play in future years.

IV. Encourage each boy to improve in his specific area of strength. This is no time to be a Jack-of-all-Trades.

V. The practice schedule must double. Hard work is the only substitute for talent.

VI. When no talent is available, a team must play aggressive, rough-and-tumble basketball and not allow their opponents to play.

VII. Give an award to boy who does the following things the most:

A. Hits the floor in an effort to recover a loose ball,

B. Draws the most step-in-front fouls.

VIII. General Hints

A. Keep the play simple

B. Work hard to control jump ball situations

C. Work on attitude (1) winning and losing (2) offensive and defensive

D. Talk over game situations frequently so your players will know what is going on at all times.

E. Don't let practice get routine. It's the change-of-pace that creates enthusiasm.

F. Most games are won or lost in practice.

G. Have squad members carry a basketball to class until they reach some goal that the coach has established for them. This is just another way to create interest in the game.

Back Pain In Athletes

Serious, disabling injuries of the back are unusual in sports among persons who have a sound spine to begin with. Contusions of the muscles, strains of the ligaments and even fractures of various aspects of the lumbar vertebrae ordinarily heal with no persistent disability in from two to six weeks. If disability persists beyond six weeks, the physician will search for some underlying defect in the spine or its juncture with the sacrum.

Congenital defects of the spine which do not produce obvious external signs are not ordinarily recognized during childhood. During adolescence heavier stresses are placed on the spine by the greater size and weight and possibly more strenuous activities of the individual. When the boy or girl becomes active in athletics, pain in the back or spasm of the back muscles may appear for the first time. Unless there has been a history of injury these difficulties are often discounted as "back strain" or "growing pains." Continuation of athletic activities, especially in the contact sports, may then result in an injury which becomes chronically disabling because of the underlying defect.

Coaches and trainers as well as team physicians should be wary of the athlete who seems to be having continual or recurring back pains, even if not disabling. Such an athlete may spend more time out of competition than in action, and will be a liability to the team as well as to himself. Serious injury to such an athlete often results in long disability and heavy medical expense. Such cases have an unfavorable effect on the athletic insurance program as well as the individual concerned.

The only way to prevent serious chronically disabling back conditions in young athletes is by rigidly excluding those who have serious congenital anomalies of the spines from sports which have a high risk of injury to the back. This can be done, first, by taking a careful history from all candidates for these sports. Any history of frequent back symptoms demands a careful evaluation, including x-rays before the candidate is admitted. On medical examination any obvious or apparent spinal abnormalities or muscle spasm should call for x-ray examination. Significant limitation of

Points of Special Emphasis

Sports are a vital, cultural expression of America. They are as expressive of the American way of life as are our freedom of speech, the right to vote, our schools and our choice of church. Participation is neither compulsory nor mandatory. Sports portray the true character of America and they are filled with vitality, with ideals and opportunities. The type of sports having the greatest impact on the public is in the field of athletics. Athletics are prominent in our school and college programs. They are conducted by the schools because they make a definite contribution to the fundamental purposes of education and democracy. Therefore, activities in the interscholastic program must be selected on the basis of their potential contribution to the purposes of education. Mere participation in the interscholastic sports program is no guaranty that educational outcomes will accrue. If the sport is to make its proper contribution to the education of the participant and spectator, it must be conducted on a high plane by leaders who clearly understand its goals and who seek intelligently to attain them.

Traditionally football has played a prominent part in the interscholastic athletic program of schools because it provides unique experiences which contribute to the democratic way of life and to the development of desirable character and personality traits. Participation in and practice for interscholastic competition provides boys with the opportunity to learn how to cooperate and to sacrifice one's personal selfish interests for the greater welfare of the group. Boys learn to cooperate as members of a team by actually doing so, not by reading or listening to lectures about it.

Competitive experience also enhances the respect for differences in people. Respect for differences in people. Respect for an individual because he is a human being, not because his father has money, or his family is listed in the social register, are lessons which can be and are being learned on the football field. Participation in the game establishes the principles of sportsmanship, fortitude and fair play, and, at the same time, puts a premium on stamina.

Interscholastic athletics have been likened to atomic energy in that they possess tremendous power either for good or evil, depending upon the way in which they are conducted. They may develop health or they weaken it. They may produce the good citizen or the thug. They may fulfill their true function as a great medium of education for youth, or they may be misused to glorify a coach, a school, a faculty, or to entertain the public.

The opportunities for a student to benefit from participation in interscholastic football has expanded greatly during the last decade and a half, and continue to do so. 13,758 schools now provide football experience for 748,990 boys. 12,360 schools sponsor 11-man teams, 1,096 schools support 8-man teams, 302 schools continue to include 6-man football in their program.

The National Alliance Football Rules Committee has written a code of rules for the game which permits the competition to be conducted in an interesting and equitable manner and, at the same time, specifically prohibit unnecessary roughness, unfair tactics and unsportsmanlike conduct. If the potential of game experience is to be attained, it is necessary that those administering the game see to it that it is played in accordance with the letter and spirit of the rule. The action of the players must be in conformity to the rules and the officials must accept the responsibility for enforcing the rules promptly and with consistency.

The responsibility for making certain that the game is played in conformance with the letter and the spirit of the rule is that of the coach and the officials. A coach must teach skills and strategy which are in accordance with the rules. When there are infractions, it is the responsibility of the officials to penalize promptly and with consistency. Vigilant administration of the game rules permits no tolerance for infractions, violations or fouls. The football player who intentionally violates a rule is guilty of unfair play and unsportsmanlike conduct, and, whether or not he escapes being penalized, he brings discredit to the good name of the game, which it is his duty as a player to uphold.

National Federation Basketball Test

Part II of the National Federation basketball examination will be given all over Kentucky on Monday, December 2, to officials who wish to work for the Approved and Certified ratings. Officials registered with the K.H.S.A.A. for the first time this year and who have not been registered previously in any other state association, are not eligible to take the test. Those interested should advise the State Office immediately in order that necessary arrangements can be made with the school administrators who will supervise the taking of the exam. Officials living in Kentucky need not suggest the name of an examiner. The Approved rating does not carry forward from year to year, but must be earned each year. After an official has received the Certified rating, he keeps this rating by attending clinics without having to continue to take the exam each year.

MINUTES OF BOARD MEETING

The Board of Control of the Kentucky High School Athletic Association met at the Phoenix Hotel, Lexington, on Saturday morning, September 28, 1963. The meeting was called to order by President Cecil A. Thornton at 11:00, with Board members Don Davis, Ralph C. Dorsey, Sherman Gish, Preston Holland, Don R. Rawlings, Foster J. Sanders and Oran C. Teater; and Assistant Commissioner J. B. Mansfield present. Commissioner Theo. A. Sanford was absent due to the illness of his father.

Preston Holland moved, seconded by Ralph Dorsey, that the reading of the minutes of the July 27th meeting be waived, since the members of the Board had received copies of these minutes. The motion was carried unanimously.

The Assistant Commissioner gave a report on the progress of the football season in regard to the playoffs. Interest in the playoffs is on the increase. Only a very few of the schools do not have schedules to be eligible for a championship. Eleven schools are playing eleven-man football for the first time. Three schools discontinued the sport this season.

President Cecil A. Thornton appointed the following men members of the State Wrestling Committee: Chairman Orville Williams, Louisville (Seneca); Will D. Evans, Louisville (Ky. School for the Blind); Bro. Leopold, C.F.X., Bardstown (St. Joseph Prep.).

J. B. Mansfield, reported on two cases in which Commissioner Sanford had taken action recently. Hazard High School was suspended for a period of one week and three football games were forfeited for using an ineligible player, Charles Pankey, after he became twenty years of age. Waggener High School was placed on probation until December 1, 1963, and J. V. Coach Vernon O'Dell was relieved of his coaching duties for a period of thirty days for removing his football team from the field before the end of the Thomas Jefferson-Waggener game played September 13, 1963.

Don R. Rawlings moved, seconded by Oran C. Teater, that the Board go on record advocating that corresponding dates for football games be determined by taking dates from Thanksgiving Day back. This was to begin in 1965. The motion was carried unanimously.

Don Davis read a letter from Prin. Joe Anderson, Harrison County High School, concerning recent action taken by the Board in re-districting the basketball teams in Region 10. The Board discussed the matter

PENNSYLVANIA CHAMPIONS

at length and agreed to look into the district and regional set-up throughout the state a future meeting.

President Cecil A. Thornton read a copy of a letter written to Commissioner Sanford from Prin. W. D. Bruce, Jr., Principal of Thomas Jefferson High School. The copy was presented by Foster J. Sanders. Foster J. Sanders moved, seconded by Ralph C. Dorsey, that the Board of Control recommend to the Commissioner, as a matter of new policy, the following interpretation of K.H.S.A.A. regulations: "Junior varsity teams competing against teams representing two-year high schools shall not have these games count, for the junior varsity team's school, against the game limit mentioned in K.H.S.A.A. By-Law 21." The motion was carried unanimously.

Oran C. Teater moved, seconded by Don R. Rawlings, that the next meeting of the Board of Control be held in Lexington on December 21, 1963. The motion was carried unanimously.

Sherman Gish moved, seconded by Don R. Rawlings, that all bills of the Association for the period beginning July 20, 1963, and ending September 27, 1963, be allowed. The motion was carried unanimously.

In an executive session, the Budget Committee recommended that the salary of the Commissioner and Assistant Commissioner be increased by five percent, retroactive to July 1, 1963; and that the trip mileage allowance for members of the Board of Control, the Commissioner, and the Assistant Commissioner be set at ten cents

(10¢) per mile. Upon motion made by Don R. Rawlings, seconded by Oran C. Teater, the recommendations of the Budget Committee were approved unanimously.

There being no further business, the meeting adjourned.

Approved Officials

Two additional officials have qualified for the Approved rating in football since the list of these higher rated officials appeared in the October issue of the ATHLETE. They are: James E. Kallaher and Stanley Washer.

CORRECTIONS 1963-64 BASKETBALL RULES PUBLICATIONS

I. RULES BOOK:

(A) Inside front cover: RULES DIFFERENCES FROM LAST EDITION—7-5: near end of first line following the word violation—add "or player control foul" . . .

(B) Page 36: The words "player control" should be inserted right after "following violation or a" in the middle of the second line of the paragraph headed DEAD BALL GOES THROUGH BASKET.

II. CASE BOOK:

(A) P.S. 6: Delete in fifth line of ruling "or when ball is dead because of a violation and." Replace with "if".

(B) P.S. 136B: Revise Ruling so it is as follows: "Yes for (a), (b), (c) and (d). In (e) A6 may not enter, however, if the clock is stopped for a charged time-out or some other reason, A6 should be beckoned. If A6 should be erroneously beckoned in (e), he may participate."

(C) P.S. 136H: Add the phrase "following a field goal" to item (b) of the Play so that it reads in the entirety: "before a throw-in following a field goal." Delete the last sentence of the ruling.

(D) P.S. 232D: Revise the last sentence of the Ruling by deleting "at the spot nearest the violation" and replacing it with "opposite nearer free throw line extended."

(E) P.S. 250C: Delete from the second line of item (a) the following: "is not certain whistle is for a foul or for a violation and."

(F) P.S. 259A: Revise item (c) of Play to read, "(c) that A2 who is in the game changed his number without reporting the change." Insert the word "or" between (a), (b). Delete "or (c)." Add to last line "and two free throws for a flagrant foul are awarded."

(G) P.S. 301C: Delete entire last sentence of Ruling beginning with "If clock . . ."

(H) P.S. 360A: In (c) of the Ruling

delete "B's end line near B's basket" and replace with "at spot of throw-in." Add to the first sentence in (d) the following "and touches or is touched by another player."

(I) P.S. 422A: Ruling — Change "legal" to "illegal."

(J) P.S. 483P: Delete entire play. P.S. 22 on page 10 gives the correct ruling for the situation described.

III. MEETING FOLDER:

(A) Page 3, Topic Assignment 2: Delete in the middle of line 14 "it becomes dead" and replace with "there is a violation or foul."

(B) Page 3, Topic Assignment 3, Fundamental 17: Reference in third line should be "defense" instead of "offense."

The Flying Dutchman

Ernie Chatten charcoals the best steak in Kentucky, and Helen, his wife, bakes the best apple pie. Ask Rex Alexander what Alex Groza did to Helen Chatten's garlic bread when they tried out one of Ernie's steaks. The clinic trip just completed was a gourmet's delight.

Somerset's Bill Clark, Jim Williams and Doug Hines; Hopkinsville's Bernard Johnson; E'Town's Howard Gardner; Beechmont's Jerry Kimmel; Bowling Green's Donnie Schmied; Hazard's Reverend John Nagele and Paul Townes; and Morehead's Bobby Laughlin get the Dutchman's nod for Kentucky's largest athletic appetites. If all of these Kentuckians dropped in on Ernie and Helen, even those two couldn't charcoal and bake fast enough.

"Corky" Withrow, who will replace Stan "The Man" Musial on the St. Louis Baseball Team, had dinner with the Dutchman at Beaver Dam. The Central City "fence buster" attended the clinic so he could qualify for basketball officiating this winter. "Corky" has confidence, ability and determination. St. Louis fans will like him.

Picked up a couple of country hams at Murray for two grand Hoosiers, Phil Eskew and Herman Keller. Nothing like a Kentucky ham to properly nourish Phil and Herman!

When George Maines and Stanley Arnzen opened the doors for the Newport Clinic, Tom Ellis, Ed McNabb and Bob Miller led a crowd of more than two hundred into the gym. Stanley is looking for a larger space for 1964. Louisville had the largest crowd of four hundred which was a tribute to Claude Ricketts' promotional ability.

This doesn't happen often. John Dotson of Vincennes, Indiana, wrote the following

after receiving a Corn Cob Pipe of Honor Award: "Thanks for the Corn Cob Pipe Award, but I don't understand the three-legged horse." Every horse has "gotta" have four legs. If your horse doesn't, he had one broken off or else he isn't a Kentucky thoroughbred.

Two Cob Pipes for unselfish service go to Cleophus Pursifull, 808 Dorchester Avenue, Middlesboro, and Albert McLane of Stephensburg. Cleophus is to the mountains of Eastern Kentucky what Irvin S. Cobb was to the Purchase. Cleophus is a combination of fun and service. Albert McLane of West Hardin High School should have been honored years ago for his unselfish service for young people. His record as a coach is spotless and now that he is retiring he will be missed. You are one of "Nature's Noblemen", Albert.

The Dutchman has a brand new plaque on his office wall. At Indianapolis Don McBride, Muncie, presented it on behalf of the Eastern Indiana Officials' Association for outstanding contribution to basketball officiating in the Hoosier state. Jack Small of Lafayette followed up this presentation with an engraved cigar lighter. Our cup runneth over.

Jerry Gilbert, South Central Officials' Association located at Elizabethtown writes, "Howard Gardner deserves a Corn Cob Pipe of Honor for his impartial handling of Sixth Region officials and for his dedication to the instruction of young officials". Howard is one of the greatest in the Dutchman's book. The award is on its way.

THINGS I LEARNED FROM SEVENTEEN CLINICS

1. There is this advantage to the official raising his hand when his whistle sounds on violations: If there is pandemonium in the gymnasium and the whistle is not heard by the timer, the official's raised hand could be seen and the clock could be stopped.

2. Play Situation 451 S (a) and Rule 2-9 state that the official must hand the ball for throw-ins unless the throw-in is from outside and end line following a score. Because basket interference is a violation, the official is to hand the ball for this throw-in even though points are scored. The Dutchman ruled incorrectly on this in the clinics. After more than forty (correction, fifty) years on this planet, it has finally happened—I made a mistake. Don't ever let this happen to you.

Play Situation 15 in your Case Book is correct.

3. A1 runs and passes off to A2 who throws the ball in the basket. A1 traveled

near the division line. Ruling: Ball is awarded to B out of bounds nearest the spot of the violation.

Bulletin to Ohio officials—The Dutchman will see you at the Green Meadows Inn in Columbus on November 17th.

Basketball

ASHLAND VS. ST. XAVIER (1962 K.H.S. BASKETBALL TOURNAMENT FINALS), e-j-s-c-a, 3 reels, Silent, \$.75

The Ashland Tomcats gave a valiant performance in trying to capture their second consecutive championship but the Tigers of St. Xavier were the winners in the final game by 62-58. The Tigers were led by Mike Siliiman and the Tomcats by Larry Conley.

BALL HANDLING IN BASKETBALL, j-s-c, 1 reel, \$.150

Teaches fundamentals of basketball handling including stance, grip, control, adjustment, before shooting, catching the ball, and other points. Presets game shots, using special photographic techniques to illustrate principles.

BASKETBALL BY RUPP, j-s-c-a, 2 reels, \$.250

Animated play diagrams, slow motion photography, and action shots are combined in this new film prepared under the personal direction of Mr. Rupp especially for coaching use. Among the drills and plays covered in this film are: pivot man's slide into the basket; Play No. 6, the famous Kentucky Basket Maker; legal screening; penetrating zone defense; and the Kentucky fast break.

BASKETBALL FOR MILLIONS, j-s-c-a, 3 reels, \$.75

This is the film for 1958-59, produced by the Official Sports Film Service under the sanction of the National Federation. A fantastic dream sequence where impossible and nightmarish situations can and do arise is the continuity thread used throughout the film to depict: Accepted officiating procedures—problems created by double fouls and false double fouls—tricky situations connected with front and back court—jump ball infractions and procedures—little understood distinction between player and team control—and a panorama of basic rule fundamentals.

BASKETBALL FUNDAMENTALS — INDIVIDUAL TECHNIQUES, j-s-c-a, 1½ reels, \$.250

Branch McCracken, Indiana University basketball coach, used his team to demonstrate the fundamentals of basketball. Slow motion photography is used to break the various court techniques down into easily grasped essentials.

BASKETBALL KENTUCKY STYLE, j-s-c-a, 2 reels, \$.250 (in state), \$.500 (out of state)

This is the revised edition of the film "Basketball By Rupp" prepared under the personal direction of Mr. Rupp especially for coaching use.

BASKETBALL STRATEGY FOR GIRLS, j-s-c-a, 1 reel, \$.150

The basic strategy of offense play (fakes, rolls, cutting, screening, varying pace) and defense play (player to player, basic zone, shifting zone, triangle,

and diagonal) is demonstrated and explained in this film.

BASKETBALL TECHNIQUES FOR GIRLS, j-s-c-a, 1 reel, \$.150

Basic movement skills (running, starting, stopping, turning) passing (finger control, movement with the pass, leading the receiver, choice of the right pass), catching (side pass, high pass), shooting (finger control, arm extension, wrist flip, choice of the right shot), dribbling, making, and pivoting are demonstrated and explained in this film.

BASKETBALL FOR GIRLS: FUNDAMENTAL TECHNIQUES, j-s-c-a, 1 reel (11 min.), \$.150

Fast action, slow-motion photography, and skillful players combine to show fundamental techniques of ball handling, passing and shooting.

BASKETBALL FOR GIRLS: GAME PLAY, j-s-c-a, 1 reel (11 min.), \$.150

Individual player techniques in offense and defense are demonstrated—pivoting, feinting, passing, screening, shooting and handling rebounds.

BETTER BASKETBALL, j-s-c-a, 3 reels, color, \$.75

This film is produced by the Official Sports Film Service under the sanction of the National Federation of State High School Athletic Associations. It demonstrates current rules and good officiating procedure with colorful action by skilled players.

CHAMPIONSHIP BASKETBALL — TEAM TECHNIQUES, j-s, 1 reel, \$.150

Man-to-man defense is shown, with the means best used under varying conditions.

DEFENSIVE FOOTWORK IN BASKETBALL, j-s-c, 1 reel, \$.150

Striding with an opponent, checking, maneuvering him out of position and other basic skills are illustrated, using special photography to demonstrate points. Rebounding, pivoting, and correlated arm action are taught also.

DUNBAR VS. ASHLAND (1961) Finals, e-j-s-c-a, 3 reels (33 min.), color, silent, \$.75

The Tomcats from Ashland High School won the final game of the tournament by defeating Dunbar High School of Lexington 69-50. The Ashland team won the tournament after eliminating William Grant, Seneca and Wheelwright to reach the final game.

MONTICELLO VS. FLAGET (1960 K. H. S. A. STATE BASKETBALL TOURNAMENT FINALS), e-j-s-c-a, 2 reels, color, silent, \$.75

Flaget High School of Louisville defeated Monticello High School in the final game of the tournament to win the championship. The Braves came from behind in the last half to overtake the Trojans and win by a score of 65-56.

NORTH MARSHALL VS. DUPONT MANUAL (1959) K.H.S. BASKETBALL TOURNAMENT FINALS, e-j-s-c-a, 3 reels, silent, \$.75

The Indians of North Marshall High School proved too much for the Reds of duPont Manual in the final game, winning by a score of 64-63. All-State players, Doyle and Lampley, were best for the winners, while Melcar and Siers led the Reds.

OFFICIAL BASKETBALL, e-j-s-c-a, 4 reels (40 min.), color, \$.75

Demonstrates the official rules interpretations covering screening, traveling, jump ball, front and back court, throw-ins, free throws, personal and technical fouls, rebounding, and unusual and often misunderstood play situations.

RUPP'S FUNDAMENTALS OF BASKETBALL, j-s-c-a, 1 reel, silent, \$.25

Coach Rupp's University of Kentucky Wildcats (1949-50) demonstrate ten different plays in such a clear manner that it is easy to follow and learn each play.

RUPPS PARADE TO THE NATIONAL CHAMPIONSHIP OF 1958, j-s-c-a, 4 reels, \$3.50

This film presents the high lights of all the games, both regular season and tournament games, which led up to the U of K's Wildcats winning the NCAA basketball crown.

SENECA VS. LEXINGTON DUNBAR, j-s-c-a, 4 reels, silent, color, \$7.5

The Seneca Indians defeated the Lexington Dunbar Bearcats by the score of 72-66 to win the forty-sixth annual state championship. Redd and Unselled led Seneca while Wilson and Smith were best for Dunbar.

SHOOTING IN BASKETBALL, j-s-c, 1 reel, \$1.50

Concentrating on the set shot, this film pictures the action of the throw, stance, aim, trajectory, and fingertip control. Special attention is given total body coordination, especially inward rotation of the hand and arm making the throw.

ST. XAVIER VS. DAVIESS CO. (1958) K. H. S. BASKETBALL TOURNAMENT FINALS, e-j-s-c-a, 3 reels, \$7.5

St. Xavier High School of Louisville won the 1958 State Basketball Tournament by defeating Daviess County of Owensboro, 60-49, in the final game of the tournament at the University of Kentucky Coliseum.

BACK PAIN IN ATHLETES

(Continued from Inside Cover)

forward or side bending or pain produced on straight leg-raising provide functional evidence of possible disorders.

Excluding such individuals from sports with a high risk factor may seem harsh when the player is able. But counting on such a player for continuing service can have disastrous results. Just when the player is needed most he may become incapacitated and an untried player will have to be substituted. Far better to guide the person with this potential into less hazardous activities.

—National Federation and A.M.A.

POINTS OF SPECIAL EMPHASIS

(Continued from Page One)

When an official accepts a game assignment, his responsibility is definite and well defined. The protection and welfare of the players is paramount and with this there can be no compromise. Any official who fails to promptly discharge his responsibility of penalizing for an infraction is delinquent and unqualified to officiate interscholastic and intercollegiate contests.

—1963 National Alliance Football Rules

Ethics Versus the Rules

Through a continuing process of refinement, the football rules have been improved and perfected each year to make the game safer, easier to administer and more exciting to watch. This we feel is progress. Unfortunately, some restrictions have been adopted in the football code as the result of some rather questionable, if not outright unethical, practices by a small minority of coaches who thought of ways to "beat the rules." These restrictions, and further restrictions that are sure to follow, cannot be termed progress in any sense of the word.

"In teaching the game of football, the coach must realize that there are certain rules designed to protect the player and provide common standards for determining a winner and loser. Any attempts to beat these rules, to take unfair advantage of an opponent or to teach deliberate unsportsmanlike conduct, have no place in the game of football, nor has any coach guilty of such teaching any right to call himself a coach. (Take from Art. I American Football Coaches "CODE OF ETHICS")

Rule 1-5-3e regarding illegal player equipment states that "equipment that shall always be declared illegal includes . . . Tape or bandage on a hand unless, after full report by the player's coach, it is sanctioned by the umpire as being necessary to protect an injury." It is pretty generally agreed that a player can strike quite a punishing "blow" with a hand or forearm that has been "protected" and hardened by layers of tape. When all the interior linemen and defensive linebackers appear on the field with both hands taped to the knuckles, and the coach tells the umpire that all the boys are wearing tape "to protect an injury," the official has little recourse other than to accept the coach's word, even though he, as well as the players, the opposing coach, and the fans know it is not the truth. If this practice is continued, it won't be long before the rules committee will be entertaining a motion to rule as illegal "any tape on the hands." This will be a sad day for the many fine coaches who have maintained a high standard of ethics, and have abided by both the letter and the spirit of the rules. It is hoped that those coaches who have condoned this practice, will do some soul searching and see if they feel they are not taking something away from a great game.

The Desire To Win

Our society is a jungle; a jungle of steel and concrete, machinery and electronic brains, and guided missiles and cold wars—all of which are constantly changing with atomic speed. The ominousness of this environment bears down on man with such force as to cause hypertension, high blood pressure, insomnia, and other assorted psychosomatic disorders.

Today, man is just as subject to the ancient law of nature—survival of the fittest—as his oldest ancestors. Distasteful as this truth may be to some, the mental institutions and hospitals are overflowing with supportive evidence in the form of those who have not “survived.” Ancient man needed to be fit to survive literally, and for this he needed primarily physical fitness. Today, in our so-called civilized society, and with all modern medicines can offer, man need not be greatly anxious about literal survival. Man today must conquer his own mental anguish in order to survive, and for this task he needs total fitness. He must be physically, mentally, emotionally, and socially fit. The number of things for which he must be fit is stupendous. However, if we were to single out just one of these things—the one which is probably most important—it would be fitness to compete.

Man must be fit to compete because our society in the United States has the spirit of competition, competition to win so to speak, deeply ingrained. Take for instance our economic system which is based on free enterprise of capitalism. The economic system of a country or society is its backbone and ours is such that nearly everything we do as producers and consumers is a reflection of its unique characteristics. Our society with all of its freedoms thrives on competition. It was founded on competition, and, in fact, has its future freedom from Communism totally dependent on this same competition to win. There is competition everywhere; for sales, jobs, and nearly everything else of importance to us, and all of this competition is toward one goal—winning. The desire to be on top, ahead, first, or to win, as referred to here, is with us from the time we can first conceive it: meaning until the day we are too old to care.

However, such a desire must be accompanied by the proper attitudes to be truly valuable. In view of this need to develop a desire to win, it is evident that it is a worthy goal of education, and physical edu-

cation is the best place to build this desire. By having striving to win as an educational goal, we can also facilitate the fullest realization of other related educational objectives of physical education. These objectives are integrity, loyalty, sportsmanship, responsibility, self-discipline, courage, etc. The man who has developed a self image through realization of these objectives and can function through it with relative freedom from the inner anxiety of threat to the Self has an adequate degree of fitness to compete.

An illustrative analogy can be made between the “ideal” citizen in our society and the “ideal” athlete in interscholastic athletics. In interscholastic athletics for instance, the ideal athlete plays to win with honesty and his best possible effort, and with respect for the officials, rules opponents, teammates, and himself. He helps the cause of winning by doing his job to the best of his ability, be he first team, second team, water boy, or manager. He does this by working hard in practice and obeying all training rules, and by never quitting on the field. If the game is won, he wins graciously and modestly; if it is lost, he loses courageously without excuses and with an increased desire to work harder, correct his mistakes and weaknesses, and try again next week. Playing to win, “get-ahead,” or succeed provides a reason for hard work and a basis on which the coach can help his pupils seek and realize the educational objectives of interscholastic sports. To facilitate the development of this “ideal athlete,” it is suggested that striving to win be a major objective of interscholastic competition. A boy or a team should never be sent into a game without the express purpose of winning. These same principles are incorporated in “fitness to compete” and are applicable to the living of life itself in our society.

As man presses forward in his efforts to better his life, he must protect himself from that which he creates—the never ending maze of environment complication. A man ill-equipped to confront the “maze” is soon rendered useless to himself and his society—he has not survived. To survive man needs “fitness to compete.” As man learns all other things, he must learn to compete. Certainly teaching the skills needed to compete—compete to win, be on top, get ahead, or succeed—is one of education’s most important objectives today.

The State Office has received complimentary copies of the latest DGWS publications. Quantity orders for these books are given special discounts. Since orders are filled outside the AAHPER office by NEA Publications-Sales, a note on each order should state "Subject to special 30% discount."

The books which have been received are as follows: Selected Soccer and Speedball Articles; Selected Hockey and Lacrosse Articles; Recreational Games and Sports, Rev.; Gymnastics Guide, 1963-65; Outing Activities and Winter Sports Guide, 1963-65; Aquatics Guide, 1963-65; Volleyball Guide 1963-65; Basketball Guide 1963-65; Basketball Rules Reprint.

The Gymnastics Guide is a new title in the AAHPER Sport Library for Girls and Women. These guides are the official rule books for girls' and women's sports. They are developed and sanctioned by AAHPER's Division on Girls and Women's Sports, which is made up of women physical educators, coaches, officials, and recreation leaders in schools, colleges and community centers all over the country.

What Is Physical Education?

Athletic Competition in American high schools and colleges is both a tradition and an institution. Traditionally, it came into the schools from the outside when its educational implications and values were realized. As an institution, athletic competition is a reality in that today it is a part of the educational programs in over 21,000 American high schools and 1,800 American colleges and universities. That there is a close relationship between physical education and athletics is an accepted fact. In reality, they are so closely interwoven that each is a phase of the other. Balance is the important consideration, since it affects the student participant, the school program, and the community.

It is not to be inferred that, at any time or in any way, athletics should be the sole program or substitute for physical education. Such inference would be illogical and indefensible because the right kind of physical education program begins before there is athletic competition and extends far beyond the segment of game duration.

Physical education's first responsibility is to teach youngsters to play and work together. It gives them opportunities to learn and improve skills before the "game

becomes the thing." Accepted social traits are an early part of physical education training and must be fundamental to intramural or interschool games, rhythms, dance, or any phase of a good physical education program.

Competition is an American heritage and its control is one of physical education's important responsibilities. Along with it, however, attention must be paid to good sportsmanship, instruction for the many who are not proficient enough to "make" the school team and education for those in President Kennedy's newly coined word group "spectation". Good physical education can teach sports, dance, and games appreciation as well as provide activities. Objectives in each instance, however, should be well understood.

Physical education has the opportunity of contacting more students in a school system than any other phase of the curriculum. It deals with them in many manners and many moods. The physical development of the youngster and his relationship with those about him should be among physical education's greatest concerns.

Athletics and the Peace Corps

Much has been written about a place of sports and athletics in the American culture and about the use of such activities, that is, sports and athletics, in establishing relationships with foreign peoples. All too often, these writings and statements are read without much thought being given to them. However, a study of the Peace Corps program gives evidence that the contention that sports and athletics do play a prominent part in our culture is true. Here are devices with which America can and does open many doors in foreign lands. In a recent issue of the PEACE CORPS VOLUNTEER, there are three separate pictures depicting athletic instruction, contests and activity which are included as part of the program. There is a picture of basketball being played in Tunisia, of instruction in track, baseball and volleyball in Ethiopia. In fact, there are more pictures and space devoted to athletics in the Volunteer than to any other group of activities. This, in itself, should indicate the emphasis which is placed on this program and the important part athletics are playing. A varied program of activities has been introduced by the Peace Corps and a great deal of inter-community competition is sponsored. For

example, the ministry of sports in Tunisia conducts nationwide leagues of competition for both interscholastic and civilian teams, but "licenses all players and divides competition according to age group". In many respects, the arrangement for competition is as it is in the United States. The program includes cross country, volleyball, handball and basketball. The seasons run concurrently. Baseball is a popular sport and American football is also very popular. The matter of eligibility, which in any league or organization means the establishment of standards to preserve the quality of competition, is important in Tunisia. Eligibility isn't a matter which concerns only amateur athletic competition in the United States for there are already violations of the standards even in these countries in which the games have just been introduced. For example, one situation was reported in which a player shaved off his mustache so he could compete with the 15 and 16-year old. During the Christmas vacation, one of the groups took a six hundred mile barnstorming trip in two cars to demonstrate basketball techniques in six

Bourgwiba villages. The skills of shooting, passing, dribbling and the basic defenses were shown and explained. The group divided itself into two teams for demonstration games. One of the problems was the division of the squad for game purposes. One group suggested the good men should play on one team in order to give the students an idea what a good team could do. The other group wanted to divide the talent on the grounds that what the boys really wanted was to see a close y matched game. The division of talent idea predominated and the resulting competition was rather strenuous. One of the players twisted an ankle, another one suffered an injury to the mouth, and a third broke his nose. Both participants and spectators enjoyed it immensely and the name "Peace Trotters" was suggested for the team but was not considered suitable because "our violence betrayed us." This is an example of where athletics serve a purpose other than entertainment only. The athletic activities are successfully used here to attract and win the confidence of a foreign people.

The 1963 Cross Country

The St. Xavier High School of Louisville won the eleventh official K.A.A.A. Cross Country Run, which was held in Lexington on November 16. The team score was 102 with the score of second place Louisville Flaget being 104. The individual winner was Pat Earier of Louisville Atherton. Earier's time was 9:15. The distance was short of the usual two miles. Skip Poole of Waggener was second with the time of 9:24, and Jim Schmidt of Trinity was third with 9:25.

Scores of the first ten teams in the state run were as follows: St. Xavier, 102; Flaget, 104; Trinity, 134; Atherton, 236; Newport Catholic, 268; Lafayette, 274; Eastern, 280; Somerset, 285; Taylor County, 286; Caneyville, 335.

The State Cross Country Run was held at Bluegrass Park, and was managed by Coach Bob Johnson, Track Coach at the University of Kentucky. Mr. Johnson was assisted by Assistant Coach Press Whelan and by members of the U. K. Varsity and Freshman track teams.

Nine regional runs had been held for the purpose of qualifying teams and individuals for the state event. These runs were held at Paducah, Clarkson, Bardston, Louisville, Jefferson County (2), Bellevue, Lexington, and Paintsville. In addition to the teams, several individual runners qualified as entrants for the state affair.

The order in which the first fifty runners finished is given below, including the times of the first twenty-five.

1-Pat Earier, Atherton (9:15); 2-Skip Poole, Waggener (9:24); 3-Jim Schmidt, Trinity (9:25); 4-Dan Dusch, Flaget (9:27); 5-Art Greene, Newport Catholic (9:29); 6-David Mitchell, Henderson County (9:29); 7-Joe Warren, Taylor County (9:29); 8-Lloyd Wimberly, Durrett (9:29); 9-Mike Stout, Owensboro (9:29.1); 10-Steve Mays, Lafayette (9:29.1); 11-Mike Kelly, St. Xavier (9:29.2); 12-Chuck Roberts, St. Xavier (9:34); 13-Bob Ulrich, Flaget (9:34); 14-Lee Boyd, Valley (9:34.1); 15-Ron Singer, St. Xavier (9:38); 16-Lynn Irwin, Ft. In Memoriam

John Fitzgerald Kennedy, who throughout his active life enjoyed many happy days of swimming, sailing, hunting, hiking and playing games and sports, left the youth of America a legacy of health-building gifts which should be of everlasting benefit to mankind.

To good fathers and mothers, in trust for their children, he left a growing recognition that the American sport of football is much more than a mere test of brute strength; that there are character factors so great as to be overlooked, or unrecognized, by some smirking, blanket-wrapped persons in the stands. He challenged these parents to encourage participation within reason, to applaud generously the long hours of self-denial endured by boys to improve their bodies for this test of physical strength and mental agility.

To boys jointly he left a Council of Youth Fitness, through which all useful playgrounds and commons may be utilized, ball may be played, where tennis and biking and hiking may be enjoyed . . . He left a gratifying new conception of the sport of swimming, and an almost universal desire to master this most useful art early in childhood—that any who find themselves cast in deep water far from land, as he once was, may survive to rejoin loved ones . . . He left millions of new acres of impounded waters and countless new farm ponds where young Americans may go to fish and, when winter comes, to skate . . . He left thousands of additional acres of forest lands forever protected from destruction, where a boy and his dog may in season pursue rabbits and quail; where deer and wild turkey may multiply and provide food and sport.

He left a deeper interest in the winter

sport of skiing and encouraged more kids to enjoy the age-old sport of coasting on America's inviting, snow-clad hills.

To young men jointly he left an increased love and appreciation of all boisterous sports of rivalry, such as are featured in the world Olympics. And he left a truce between the Amateur Athletic Union and the National Collegiate Athletic Association which, nurtured by his gallant effort, may grow into a lasting peace—that America may retain her high position in athletics, and that our young men may disdain weakness and maintain confidence in themselves and their country.

1963-64 Swimming Rules Changes

Rule II, Section 2-c: The fulcrum should be adjustable at least two feet forward from a point 5 feet, 6 inches from the rear end of the board, where applicable.

Rule III, Section 1-c-4: At the starter's discretion, he may order the contestants to "stand up" any time prior to the discharge of the pistol.

Rule III, 1-c-5: Any contestant charged with two (2) false starts shall be disqualified and may not swim the event. False starts shall be charged only against individual.

Rule III, Sections 3-e and 4-d: The following sentence is deleted from each of these sections. "There shall be no anticipation of the turn."

Rule III, Section 10-a (new): One counter shall be allowed each contestant for all individual races of 200 yards or longer.

b (new): Counters shall be stationed at the opposite end of the pool from the start.

c (new): The count shall be given in ascending order of lengths; for example: 1, 3, 5, etc.

Rule V, Section 3-a: The starter shall have control over the contestants after they have been assigned to him by the referee, and a fair start has been achieved.

c: In interscholastic competition, the starter shall discharge the pistol when the leading swimmer has two (2) lengths to swim in the 200 and 400-Yard freestyle events.

Rule V, Section 5-a: The following statement in parentheses will precede Section 5-a. (If the ballot system or automatic timing and/or judging device is not used, the following procedure shall be used for dual meets). The new Section 5-a will provide that judges of the finish shall be designated as first, second and third place judges and shall determine the order in which contestants finish. The minimum number shall be two judges for first place and one for each of the other places.

b: The chief finish judge shall check the individual decisions of the judges, indicated independently in writing on cards supplied for that purpose, before announcement of the final result of the event is made. If there is disagreement among the judges, the precedence in decision shall follow numerical order. For example: if first and second place judges both select contestant A, the decision of the first place judge is final. The same procedure shall apply in the selection of other places.

Rule V, Section 6-a: The following sentence in parentheses will precede this section. (If the ballot system or automatic timing and/or judging device is not used, the following procedure shall be used for dual meets).

Rule VI, Section 1-b: Each team shall be allowed a maximum of eight contestants in each relay, any

four of whom may compete in the time trials and/or finals. (This applies to State Swimming Meet only.)

Rule VI, Section 2-c: Being designated as a relay contestant shall count as an event.

Rule VIII, Section 1-a: If rule infractions in a swim-off leave less than a full complement of finalists, subsequent swim-offs shall be held among those having committed any infraction in the swim-off.

b. The swim-off may be held at any time set by the referee not later than forty-five minutes after the last heat of any event in which any one of those contestants is competing in that session. A contestant involved in the swim-off shall not be required to swim with less than twenty-five minutes rest between that swim-off and any of his regularly scheduled races.

Rule IX, Section 1: Only the performance of the first place winner (with the fastest time in case of a tie) will be recognized as the record time.

Rule X, Section 1-i: If the home team fails to provide springboard diving facilities, the visiting team shall be awarded 8 points. No points shall be awarded to the home team.

Rule X, Section 4: In interscholastic dual meets there shall be six dives, one required and five optional. The required dive (which must be done first) shall be drawn by the referee from dives Nos. 101, 201, 301, 401 and 510 before the start of the meet.

After the draw, any of the four remaining dives listed above may be included in the list of the five optional dives.

The five optional dives must be selected to include at least four of the five groups. These optional dives may be performed in any order.

Rule X, Section 5: In interscholastic championship meets the diving competition shall consist of five required dives, Nos. 101, 201, 301, 401 and 510, and five optional dives, one from each of the five groups. The contest shall consist of preliminaries, semi-finals and finals. In the preliminaries, all contestants shall perform in order dives Nos. 101, 510 and two optional dives. After the preliminary round, only the 15 highest scores will qualify for the semi-finals. The semi-finals will start immediately after the semi-finalists have been announced.

In the semi-final round, the 15 qualifiers will each perform in order dives Nos. 201, 401 and one optional. After the semi-final round, the seven highest scores will qualify for the finals.

The seven finalists will each perform in order dive No. 301 and their two remaining optional dives. The winner shall be the contestant with the greatest number of points after the performance of ten dives of different numbers.

If no more than 15 contestants are entered in the contest, all contestants will perform both preliminary and semi-final dives and the highest seven scores will qualify for the finals.

Rule XII, Section 1-i: In somersaults, (other than flying somersaults), the turn must commence as soon as the contestant leaves the board. In flying somersaults, the layout position must be maintained from the take-off until the body has rotated one-half somersault before the diver assumes the spinning position.

State Tournament Information

The 1964 State High School Basketball Tournament will be held in the University of Kentucky Coliseum, Lexington, on March 18-21. The first session is scheduled for Wednesday night. Three sessions will be held on Thursday, two on Friday and two on Saturday.

At some time in the month of December the Commissioner will send K.H.S.A.A. member schools forms which may be used in requesting passes to the tournament. These forms may be returned on and after January 2.

Complete sets of tickets are priced at \$10.00 (end seats, balcony), \$16.00 (chair back seats and bleacher seats below the ramps), and \$20.00 (box seats). The general sale of tickets (not school orders) will be conducted by State Tournament Ticket Sales, P. O. Box 1173, Lexington. These orders should not be placed before February 1. The amount of 25c should be added to each remittance (not school orders) to pay for postage and insurance charges. Orders mailed prior to February 1 will receive a lower priority than those mailed on that date.

K.H.S.A.A. WRESTLING COMMITTEE

November 2, 1963

Committee Members: Chairman Orville Williams, Louisville; Mr. Will D. Evans, Louisville; Brother Leopold, C.F.X., Bardstown.

Mr. Sanford opened the meeting by telling the Committee members that he is behind them and gives them full authority to do whatever is necessary to further the sport of wrestling in Kentucky. Mr. Sanford gave the Committee a list of schools now interested in wrestling.

Mr. Williams spoke of his trip to Chicago where he attended a wrestling convention. He mentioned some holds such as the "chicken-wing" and certain "take-downs" that need clarification.

Mr. Williams said that we had two chief problems at this time:

1. Publicity—Mr. Sanford made it clear that wrestling is sanctioned by the Association and that the papers should give wrestling publicity. He thought, however, that our problem was not publicity but the lack of properly trained coaches and officials to carry out the wrestling program.

2. Training of officials—It was suggested that a clinic be held for coaches and officials. Mr. Sanford said that he hoped to register wrestling officials in the future.

Recommendations:

1. A clinic to be held in Louisville-Kentucky School for the Blind-November 16, 1963, from 12 noon to 6 p.m. ('Officials' fees were mentioned. They ranged from \$7.50 to \$15.00. It was suggested that officials not be forced to attend clinic at this time.)

2. Committee should have picture taken and put in state newspapers.

3. Coaches from Ashland, Danville, etc., should be invited to a meeting at Louisville to discuss some of the points brought up at Committee meeting.

4. Weight classes should be set up.

5. Brother Leopold was asked to find out if Flagg High School is going to wrestle this year.

STATE TOURNAMENT:

Mr. Sanford said that the Association would supply the following trophies: (1) winner, (2) runner-up, (3) outstanding wrestler, (4) medals for 1st, 2nd, 3rd.

It was suggested that the State Tournament be held on the second Saturday after the first Friday

in February or a week before the swimming tournament.

The weigh-in is to be held on the day of the tournament.

Rules on weight: Boy must qualify for his weight. He must stay in the weight class in which he wrestles his first match after December 15 or in the next weight bracket above this.

Score book: It was suggested that a book similar to Mr. Williams' book be used. The official is to sign this to make sure that there are no changes in weight (Everyone supplies his own book).

Registration: This was left to the Committee. It must follow the regulations of the Association in regard to eligibility lists, etc. Each team should be registered by February 1. One eligibility list should be sent to Mr. Sanford and one to Mr. Williams. Official weight classes are as follows: 95, 103, 112, 120, 127, 133, 138, 145, 154, 165, 180, heavyweight (235 lb. limit). Wrestler may be 2 lbs. over this weight in January. Wrestler may be 3 lbs. over this weight in February. Wrestler can be 3 lbs. over this weight in Tournament.

—Brother Leopold, C.F.X.

The Flying Dutchman

Colonel Paul E. Landis, Commissioner of the Ohio High School Athletic Association, and his assistant, Harold Meyer, rolled out the hospitality mat to the "Dutchman from Kentucky" at their November clinic for basketball officials. Personable Mack Schaffer added his friendly touch. Those Ohio officials are alert. It would be interesting sometime to bring the "Cream of the Crop" from Indiana, Ohio and Kentucky together for a study session. Officiating wisdom would surely be generated.

Attention basketball officials! Although a play situation permits A6 to substitute for A1 and then A1 to substitute for A6 during the same dead ball period, such substitution must not be permitted if there is an injury situation and a coach attempts to abuse the rule by making this substitution to save a time-out being charged. This is a November ruling released by Cliff Fagan to The Dutchman.

Attention again basketball officials! Let's count the signals you must give each time you blow your whistle for a violation! (1) Raise your hand as you blow your whistle to stop the clock. (2) The violation is indicated. (3) The out-of-bounds spot for the throw-in is given. (4) The direction of play is indicated. (5) Official must "Chop in" the time when the clock starts. Besides these signals, the Official must hand the ball to the player for the throw-in. Two officials, who have been struck in the face by balls being tossed them by players, contend they were too busy signalling to see the ball coming.

Because of the new rule which stops the clock on violations, it appears that games are running 10 or 11 minutes longer this year. Write The Dutchman, Colonial Manor, Jeffersontown, how much longer your games are lasting when you send your nomination for Game Guy of 1964.

Rex Alexander, whose service to boys is widely acclaimed, is sponsoring Mike Marshall in the Gam Guy Program. Rex wants a Lionheart trophy for this fighting athlete of St. Mary's of Paducah. Mike deserves Rex's interest. Polio crippled his arm when he was in grade school but he holds athletic letters and has the respect of his teammates and opponents. - - - Now the Dutchman is ready to register the "Game Guy Prospect" you are sponsoring.

Murray College High gets the second Abou Ben Adhem award of the year and again it is Rex Alexander sponsoring the

Ernie Chattin

school for the honor. To promote sportsmanship a bulletin is distributed to the fans at the games. This emphasizes: (1) visiting teams and officials are guests of Murray College High, (2) cheer good plays by opponents as well as the home team (3) no cheering when an opponent makes a foul, (4) no booing of officials.

Hardin McLane and his really lovely wife, Marilyn, have a brand new daughter. They also have a fine imagination evidenced by the birth announcement. Hardin and Marilyn worked out a scouting report on tiny Michelle Ann McLane which says: "She is an exceptional dribbler, wears a uniform of white diapers with contrasting plastic parts and has both Coach Hardin and Coach Marilyn taking orders." It's a cinch that Elizabethown's Catholic Boosters Club already has plans for this little girl.

Hazard points with pride to Willie Dawahare, Mayor of the town, because Willie has been proclaimed "Mr. Recreation of Kentucky for 1963". The Mayor succeeds Ted Sanford who won the honor in 1962.

Ernie Chattin's picture is carried in this column so that every Kentuckian may see what one of "Nature's Noblemen" looks like. Kids who have felt Ernie's influence are better kids and become outstanding gentlemen. There are two in Jefferson County, namely, Coach Earl Adkins of Fairdale and Coach Larry Castle of Thomas Jefferson High. Any parent would be proud to have his boy learn sports from Earl and

THE FLYING DUTCHMAN

(Continued from Page Six)

Larry—and both of them learned from Ernie.

Ernie, "Chef Par-Excellence," has developed one of the finest Y. M. C. A. programs in the nation at Ashland. While doing this he set the tempo for improved officiating in eastern Kentucky. He is truly a fine Kentuckian. A lot of Ernie's friends have adopted Ernie's hair-do. Reference here is to Turner Elrod, Elmo Head, Rex Alexander, Evan Settle and my old buddy, Aggie Sale. The Dutchman is fast becoming sold on this hair style himself.

Lyndon's Percy W. Bramlett, III, wins the Corn Cob Pipe of Honor for November. Percy has led his community well. His efforts and time given freely have caused Lyndon to have an outstanding program of recreation.

Cliff Fagan of the National Federation of State High School Athletic Associations has signed the Dutchman as a technician to help produce the film, "This Is Basketball." The film will be made in Tipton, Indiana, for showing next autumn.

Here is our closing thought:

FOUR THINGS

Four things a man must learn to do

If he would keep his record true
To think without confusion, clearly
To love his fellowman sincerely
To act from honest motives purely
To trust in God and Heaven securely.

Smoking and Sports

The ability to produce maximum effort and to build endurance for sports is related to the capacity of the athlete to take in and utilize oxygen. This raises a serious question as to the effects of tobacco smoking on pulmonary function and, consequently, on athletic performance.

Obviously, performance in any athletic event that demands a maximum effort, for even a brief period, would be adversely affected by impairment of ventilatory capacity. After reviewing clinical and experimental evidence on this question, the Committee on the Medical Aspects of Sports of the American Medical Association recommends that athletes should be strongly advised against smoking.

Ten inhalations of cigarette smoke have been shown to materially reduce airway conductance to the lungs. The decrease amounted to as much as 50 per cent and

lasted for as long as an hour. The reductions were attributed by the investigator to obstruction of the air ducts resulting from muscle contraction, edema, and nervous reflex. The changes occurred in smokers as well as non-smokers and were reproducible.

In another study of pulmonary function and capacity, it was shown that the expiratory capacity, total lung capacity, and maximum breathing capacity were all significantly decreased in heavy smokers. Conversely, the ratio of residual volume (unexpired air) to total lung volume was increased in smokers. Decrease in maximum breathing capacity and increase in residual volume are particularly important to athletes since both changes impair capacity to take in oxygen and make it readily available to the body.

Other studies indicated a lower vital capacity in smokers and less efficient pulmonary function in even moderate exercise. Although athletes generally were found to have an increased vital capacity as compared with non-athletes, this was not as pronounced among athletes who smoked as it was for non-smoking athletes. Another significant finding is that the pulmonary diffusing capacity (ability to interchange oxygen and carbon monoxide in the body) of smokers is markedly reduced.

In summary, acute impairment of pulmonary function in young smokers as compared to non-smokers has been demonstrated. Significant decreases in maximum

breathing capacity, which is most important to athletes, have also been disclosed probably due largely to obstruction of respiratory inflow. Efficient utilization of oxygen in the body is greatly hampered by decreases in its diffusibility in smokers. There is no longer any room for doubt that athletes should not smoke.

MEDIOCRITY

Someone has said "everything that was nailed down, has become loose." The breakdown in standards, both ethical and moral, is a fact that faces the education administrator on the secondary level. If one word dominates the problem, it is mediocrity. There are few principals, if any, who have not encountered the "good enough" statement in explaining an inferior job done by one who is not producing to his best ability.

Yet, how many times the adult comes forward in defense of the young student to explain or to argue with the educator as to an inferior job.

Worse than this is the tendency to chide or deride one who is doing more than the minimum demands. A teacher was seen picking up a piece of paper in the corridor of a High School. Another member of the faculty observed the act and remarked "now you look like an administrator". A girl, who was an excellent student, suddenly began to slip badly in the standard of her work. Guidance and teachers could not place their fingers on the cause of the sharp decline in the student's work. Finally, the problem was solved by the parent. The girl could not stand the slurring remarks and "riding" of some of her fellow students for being always at the top of the class. It became a matter of losing status with her class-mates and consequently she resorted to mediocrity.

A famous contemporary American, in discussing the subject of the Common Man, remarked that

what America needs is the Uncommon Man. Education needs the Uncommon teacher from the classroom to the front office. Mediocrity cannot meet the challenge of our times.

Most of those who see their school from the total picture, that is, the class-room with its daily problems of discipline, cheating, inattention; the extra curricula activities with the incidents of beating the rules, fair play, sportsmanship; along with the contacts with the home and the community when problems arise, are most cognizant of the importance of the highest ethical and moral codes. Indeed, there is no place for mediocrity. It must be the best that can be expected from each one with no exceptions or excuses.

Coach Versus Official?

Has basketball become a drama where players provide the backdrop for the main contest between coach and official?

Absurd? Perhaps, a little, but is this not happening in some places and are others not heading in this direction?

Observation of some basketball games, the remarks of some coaches, the antics of some officials, the reactions of some fans, and the reading of some newspaper accounts would indicate that the atmosphere of "coach versus official" does exist.

Coach versus official! No concept could

miss its proper target more completely!

Since when has the role of the official been anything other than to interpret the rules of the game in a manner that will make for fairness and for good game conditions for the player?

Since when has the role of the coach been anything other than to teach the game to young men and in the doing of it make better men of them?

With two such similar objectives the official and the coach, rather than pulling apart, should reinforce each other in a "team teaching" effort that will assure attainment of the true objectives of sports.

It is necessary that each coach and each official subjugate himself and any "feeling" that may exist between them.

This can be accomplished by thoroughly understanding the rules and through mutual respect for each other and for the difficult and important job that each must perform.

This will leave the drama with the game and the player. To do anything else is to fail in our responsibility to the youthful athlete.

Early Season Basketball Questions

EDITOR'S NOTE: These rulings do not set aside or modify any rule. They are interpretations for some of the early season situations which have been presented.

1. Play: A1 dribbles by B1 who, in attempting to maintain a position in front of A1, backs into screener A2, and B1: (a) stops immediately; or (b) attempts to drive through screener A2.

Ruling: In (a), even though the contact may be firm, it is considered incidental and there is no foul. In (b), it is a foul by B1.

2. Play: A1 scores a field goal and B1 takes the ball out of bounds. B then requests and is granted a time-out.

Ruling: After the time-out, team B may put the ball in play exactly as it would if there had been no time-out. That is, a player of team B may move along the end line before passing the ball inbound, or B1 may pass the ball to B2, who is also out of bounds behind the end line, and then B2 may throw the ball into the court.

3. Play: Immediately prior to the start of the game, the referee erroneously indicates each team's basket. Those indicated are opposite from those used for pre-game practice. The error is discovered after several minutes of the game have been played. At the time of discovery, team A has scored 10 points and team B has scored 4 points.

Ruling: In such situation, the teams should be directed to continue to use, or the remainder of the half, the baskets in which they have been scoring. The game should proceed with the score, team A 10 — team B 4. Case Book Play Situation 247B is not intended to apply to a situation such as the above. It is the purpose of Play 247B to cover in which the discovery is more prompt.

4. Play: A individual of the defensive team constantly screams directly into his opponent's face for the purpose of unnerving the opponent, thereby securing an advantage.

Ruling: Excessive screaming for the purpose of upsetting an opponent may be considered unsportsmanlike and unethical. It may be classified as baiting which, as provided by Rule 10-5-(c) is a foul. Such actions could tend to be unfair. It is understood, of course, that talking to an opponent, without baiting and yelling at him when he is about to pass, make a try or advance, is within the spirit of the rule. But the spirit of the rule does not permit excessive screaming or the constant use of a voice at a high pitch for the purpose of wearing down the opponent's tolerance.

5. Play: Dribbler A1 taps the ball to the floor and then permits it to bounce one, or several times, before he taps it a second time. Did the dribble end when the ball bounced several times between taps?

Ruling: Whether the dribble ended depended upon whether A1 lost control. Rule 4-5-(c) provides that the dribble ends when the dribbler loses control. The fact that the ball bounced two or more times between taps by the dribbler does not necessarily mean the dribbler has lost control. He has lost control if the ball unintentionally, or by chance,

bounces away. It is not too unusual for a dribbler when advancing the ball from the back court into the front court, and especially when the defense is retreating, to tap the ball to the floor and let it bounce a couple of times before he taps it again.

6. Play: A1 is dribbling toward his basket. B1, his guard, is advancing rapidly in the same direction as A1 but is off to the side of A1, not directly behind him and not in identically the same direction and path. A1, the dribbler, makes a quick sideward and backward movement, entering the path of B2. Contact ensues because B1 does not have an opportunity to stop or change his direction.

Ruling: Foul by A1. A1, even though he has the ball is not permitted to come into the path of B1 so quickly that B1 cannot stop or change his direction.

Comment: Except in an unusual situation, the infraction by A1 would not be judged intentional. Whether it is deemed intentional is dependent entirely upon the judgement of the official.

7. Play: With the score A 41 — B 40 and 8 seconds to play, A1 has the ball at the free throw line in readiness to attempt a free throw. In an attempt to create a false double foul situation, which would cause a center jump and prevent B from throwing in, A3 intentionally pushes B2 while A1 has control of the ball.

Ruling: If the foul by A3 appears in any way at all to be designed or premeditated, it must be awarded to B2. In this situation, the burden of interpreted as intentional and 2 throws are then proof must be on A3. The severity of the act does not determine whether it is an intentional foul. An intentional foul always carries a penalty of 2 free throws. If it is ruled intentional, B2 will be awarded 2 free throws after which play will be resumed by a jump ball at center.

8. Play: After the ball has been placed at the disposal of the free thrower and before the actual try begins, the foot of B1 is beyond the vertical plan of any edge designating a lane space or a neutral zone mark, or a foot of B1 is beyond the vertical plane of the outside edge of any lane boundary.

Ruling: Violation. The official will withhold the whistle until A1 completes his free throw attempt. If the attempt is successful, the violation is ignored. If the free throw is missed, the official will declare the ball dead and award a substitute throw.

9. Play: Official calls a foul on B1. B1 does not raise his hand at arm's length above his head.

Ruling: Technical foul. It is not necessary nor expected that the official will ask a player who has committed a foul to raise his hand. A player is expected to know the rules and comply with them. When he does not, he is penalized and, in this case, the penalty is a technical foul on B1. It is the official's responsibility, when calling the foul, to make certain that the offender realizes that he is

Approved and Certified Officials

A large number of K.H.S.A.A. registered officials qualified for the advanced rating of Approved and Certified as a result of the National Federation basketball examination which was given in Kentucky on December 2, 1963. The Approved rating does not carry forward from year to year, but must be earned each year. After an official has received the Certified rating, he keeps this rating by clinic attendance. Only officials receiving these higher ratings are eligible to work in the regional tournaments. Only Certified officials who are residents of Kentucky are eligible to work in the State Tournament.

Basketball officials who qualified for advanced ratings during the current season are as follows:

Heatstroke

Thirteen deaths in high school and college football since 1959 have been attributed to heatstroke and all of them could have been prevented, according to the November 25th issue of Sports Illustrated. The culprit, says the article, is the football uniform. Well-designed to protect the player from outside violence, it can be a disastrous heat accumulator.

The essential research into the subject has been conducted at Ohio State University. Dr. William F. Ashe, one of the world's foremost authorities on heat stress and a participating doctor in the study at OSU, is quoted as saying: "Under certain conditions, the uniform can be a death trap."

Heat exhaustion and heatstroke, to which football players are particularly susceptible and which have led to such fatal results in the sport, can be brought on when sweat is prevented from evaporating properly; instead of cooling as it should, the body temperature rises rapidly. When it reaches 106°, the central nervous system can not cope with the load. Death is very likely to occur when the internal temperature reaches 110°. Half the cases of heatstroke are fatal; even in cases where a life is saved by quick attention . . . brain damage may occur.

According to Sports Illustrated, which describes the techniques of the research, the OSU team found by comparing athletic activity in a scrub suit (a loose-fitting garment) and activity in a football uniform that both temperature and water loss increase markedly when the uniform is worn. More important, the article reports, "the temperature of the subject in a football uniform continued to rise after he stopped exercising and dropped to normal much more slowly." Pinpointed as the most culpable areas of the uniform are the padded sections and the helmet. Means of allowing greater air penetration are indicated.

The hazards of heat stress, Sports Illustrated reports, can be reduced in other ways. OSU experience has shown that:

Players should be "acclimatized" to the heat load to be borne; a 5-6 day program, for 90% protection, is outlined.

Players should remove their helmets in lulls during practice or timeouts.

Players should be allowed to drink water freely while working out and playing, provided they continue to take salt along with it.

Practice and game sessions should be adapted to weather conditions. There are various recommendations here, but "when the temperature turns between 90° and 100° and the humidity is at 70%, practice should be postponed or sharply curtailed."

A full acclimatization program is being conducted at the University of Oklahoma under Coach Bud Wilkinson and Trainer Ken Rawlinson. It is described in the article and is cited as a model of how much can be done under present conditions.

National Federation Bulletin

We call your attention to a change in the 1964 baseball rules which will require that EACH RUNNER, as well as each batter, WEAR A HEAD PROTECTOR.

In most instances, this change will not require the purchase of additional equipment. In some situations, it may and we, therefore, send you this bulletin now so that, if you believe it advisable, you can notify your member schools of the change well in advance of the beginning of the baseball season. We have generally found it to be advantageous to make such notification early, particularly when equipment is involved.

For your information, the change in Rule 1-1-5 in the entirety is as follows:

"It is MANDATORY that each batter and RUNNER wear a head protector. The catcher shall wear a face mask and body protector. Failure to comply with the umpire's order to secure such equipment results in a batter or runner being declared out, or a catcher being replaced.

Note: The head protector should be a type which has safety features equal to or greater than those provided by a full plastic cap with padding on the inside. Each state association, or any conference it designates, is authorized to experiment with declaring a player out without warning if he is not wearing a head protector when he is a batter or a runner."

MINUTES OF BOARD MEETING

The Board of Control of the Kentucky High School Athletic Association met at the Phoenix Hotel, Lexington, on Saturday morning, December 21, 1963. The meeting was called to order by President Cecil A. Thornton at 11:00, with all Board members, Commissioner Theo. A. Sanford and Assistant Commissioner J. B. Mansfield present.

Preston Holland moved, seconded by Oran C. Teater, that the reading of the minutes of the September 28th meeting be waived, since the members of the Board had received copies of these minutes. The motion was carried unanimously.

The Commissioner reported that the 1963 football championship playoffs had been very successful, although inclement weather had affected adversely ticket sales in some of the games. He stated that ticket sales for the Class A and Class AA games

The Flying Dutchman

Howard Gardner

Howard Gardner, one of the greatest of them all, has been forced by a health problem to hang up his whistle. The "Pride of Elizabethtown" has brought increased efficiency to officiating in his sixth region. Respected by everybody, this young leader is cancelling forty games and a district tournament—but he will continue to serve as sixth region representative for officials.

Apparently basketball games will not last much longer because of time-out for violations. Fort Knox and E'town started a varsity game at 8:05 P.M. and finished it at 9:10 P.M. Officials Ed Taylor and Norman Kercler kept the game moving and coaches Bob Burrow and Charlie Rawlings had their players so well prepared on time-outs and substitutions that little time was lost. Officials Kean Jenkins, Jerry Gilbert, Richard Morse and Irby Hummer of the South Central Officials Association like the change.

There has been real officiating progress in the sixth region. In 1955 this area had three basketball officials; today there are thirty-five. Sal Matarazzo of Fort Knox and Daymon Ray of East Hardin gave Howard Gardner a lot of help and contributed to this "Story of Progress."

The Dutchman salutes Kean Jenkins for his years of unselfish service to young people. Besides directing E'town park and recreation program, this winner of the first Corn Cob Pipe Award of 1964 gives the

rest of his time to the kids of Hardin County. Puff away on your "Cob", Kean. You've earned it.

Suppose you were a spectator at a softball game and suddenly uniformed police grabbed the base umpire, hustled him to a patrol car and drove away! What would you think if that umpire were Charlie Irwin, state tournament basketball official? The fact is that Charlie was being high-pressured to referee a football game between Christian County and Sturgis. The police were sent to insist that he substitute for an official who failed to show up.

Charlie Irwin

Hopkinsville is a town with fine imagination. It is also a city of firsts for the year of 1963. It was the first time police were used to procure a basketball official who was umpiring a softball game to referee a football game, and it was the first time that Kentucky sent Hop'town word that it wanted one of its boys in Frankfort to run the Commonwealth for the next four years. Good luck, Ned. If you need help, send the state patrol for Charlie Irwin.

Duke Burnett of Cadiz has nominated John Graham for the Game Guy Award. Johnny has already received his lionheart statuette. Here's what Dr. Thorton Bryan, Jr., has to say about Johnny: "When Dr. Benjamin Fowler and I operated on John's feet in 1959, we both predicted that his sports career was essentially ended." In 1963 Dr. Bryan says this: "I cannot possibly give John the amount of praise which he deserves for overcoming this disability." Johnny's courage is a fine inspiration for

Chester C. Redmon will be the delegate from District 7 to the forthcoming annual meeting of the K.H.S.A.A. Gerald Gamble will be the alternate, as previously announced. Harold Ross is the District 8 delegate, Tom Morgan the alternate.

us in this new year.

To Trigg County High goes the Abou Ben Adhem citation for January. Check Trigg's qualifications: (1) courtesy to visiting teams and officials, (2) interest in unfortunate kids temporarily floored by handicaps, (3) a student body which realizes that Trigg's reputation is what the students make it. May your tribe increase!

Danville's plumpy and popular Briscoe Inman has always been one of Kentucky's best college coaches and high school officials, and now he qualifies as a reporter. Take a gander at the news he has gathered for The Dutchman in the twelfth region:

First he tells us that the most glamorous of Ted's sixteen regional representatives was introduced to college officiating at Centre this month. Reference here is to northern Kentucky's answer to Errol Flynn (not Bobby), big George Maines. The Dutchman spent an evening with George, Ed McNabb and Tom "Big Daddy" Ellis at their Northern Kentucky Officials meeting at Covington this month. The steaks those chaps eat would challenge the prowess of Kentucky's champion steak-eater, Donnie Schmied, of Bowling Green. Ernie Chattin should charcoal a few for these guys.

The London Basketball Officials Association, which started from scratch last year, now has fifteen members. This association has Scotty McClure, Jack Bruner, Roy Moore, Gene Lowe, Roy Bowling and Earl Hill certified by the K.H.S.A.A. Coach Gil Samples of London gets the credit for organizing the London Officials Association.

The last news item Briscoe sends is confusing. Apparently he is attempting to tell us that his secretary is a bird hunter, because he says, "Excuse my typing. My secretary is away looking for the stork."

Here's a Happy New Year resolution for you: Send the history of the physically-handicapped kid you are helping to The Flying Dutchman, Colonial Manor, Jeffersonstown.

Swimming

BEGINNING SWIMMING, e-j-s-c-a, 1 reel, \$1.50

Through scenes photographed both above and beneath the surface of the water, basic techniques of swimming for beginners are demonstrated. Land and water drills involving kicking, breathing, floating, paddling and stroking and pulling with the arm are practiced separately, then coordinated as the swimmer learns the American crawl. The back float, back stroke, and breast stroke are also illustrated and explained.

BREAST STROKE, SIDE STROKE, AND UNDER-WATER SWIMMING, e-j-s-c-a, \$1.50

This film presents the conventional breast stroke timing the strokes, and the kick.

CRAWL STROKE, e-j-s-c-a, 1 reel, \$1.50

The basic principles of the stroke are presented in this film. The arm stroke, the kick, and the breathing are demonstrated. This film also includes slow motion shots under water.

DIVING FUNDAMENTALS, j-s-c-a, 1 reel, \$1.50

After a brief history of the sport of diving, the following points are explained and demonstrated: The hurdle jump, determining the correct distance, proper arm action, correct way of landing on the feet, proper takeoff and lift, correct entry into the water. The backward dive is also taught, including lift, arching the body, and entry into the water. The motion is stopped at various points to enable detailed study of form.

DOLPHIN KICK, e-j-s-c-a, 1 reel, \$1.50

An excellent swimmer, an underwater camera and carefully devised teaching demonstrations introduce the new swimming technique known as the dolphin or fish-tail kick. Analyzing the body movements used in the dolphin kick, the film stresses the importance of practice for mastery of this efficient speedy kick.

I'M NO FOOL IN WATER, p-e-j-a, 1 reel (8 min.) color, \$3.00

BASKETBALL QUESTIONS

(Continued from Page One)

being charged with the foul. The player, knowing he is charged with the foul, has the responsibility of raising his hand, without being asked to do so by the official.

10. Play: Dribbler A1 charges B1. After the infraction has been indicated, B2 commits a technical foul.

Ruling: False double foul. B1 is not given a free throw. Team A is awarded a free throw for the technical foul committed by B2. The ball is tossed at center after the attempt which results from the technical foul.

11. Play: Dribbler A1 in his (a) front court; or (b) back court charges B1.

Ruling: A1 is charged with a personal foul but no free throw is given B1. In both (a) and (b), the official must hand the ball to the player of the offended team who will make the throw-in from the out of bounds spot indicated by the official, which will be nearest to where the foul occurred.

12. Play: Player of team A enters the game wearing the same number as a teammate who is in the game.

Ruling: Technical foul is charged to team A. Two players of the same team may not wear identical numbers. The referee is authorized to order a number change for the incoming player.

13. Play: Is an official required to hand the ball to the player who will make a throw-in at mid-court following a technical foul?

Ruling: Yes.

14. Play: Substitute A6 reports to the scorer. Ball next becomes dead because of a: (a) held ball; or (b) foul; or (c) successful free throw; or (d) ball going out of bounds; or (e) double dribble; or (f) field goal. Should substitute be beckoned?

Ruling: Yes for (a), (b), (c), (d) and (e). In (f), A6 may not enter unless the clock has been stopped for a time-out or some other reason. If the clock has been stopped, A6 should be beckoned. If A6 should be erroneously beckoned in (f), he may participate.

15. Play: A1 holds the ball near the sideline. B1 is guarding him so that contact ensues and A1 loses his balance and steps on a boundary.

Ruling: The official must decide whether the action results in a foul or a violation. Under no circumstances will A1 be awarded the ball out of bounds for a throw-in.

16. Play: At approximately the same time as A1 passes to A2, A1 charges B1. The official is reasonably doubtful that A1 was in control at the time he fouled B1.

Ruling: Player control foul. The interpretation provides that if there is any doubt as to whether there is player control by a member of his team during the time he or a teammate commits a foul, it shall be ruled as a player control foul.

17. Play: It is discovered that A1 who is in the game: (a) changed his number without reporting the change to an official; or (b) is participating after having been disqualified.

Ruling: Technical foul for both (a) and (b) with two free throws awarded Team B. A2 is disqualified from further participation in both situations.

18. Play: A1 requests a time-out for the purpose of: (a) tying a shoelace; or (b) replacing a low-cut shoe; or (c) recovering or replacing eyeglasses; or (d) recovering or replacing contact lenses.

Ruling: The official should grant the request in (a), (b), (c) and (d). The time-out is charged in (a) and (b). In (c) and (d), the time-out is not charged, and in both (c) and (d), effort should be made to recover and replace the lens and/or glasses as soon as possible, and then resume play im-

MURRAY—CLASS A, REGION I, DISTRICT I, CHAMPION

(Left to Right) Front Row: Ronnie Danner, Don Lee, Bud Nall, Harry Weatherly, Ben Hogancamp, Jimmie Johnson, Craig Banks, Don Faughan. Second Row: Bernard Harvey, Johnny Rose, Steve Sexton, Danny Nix, Alan Valentine, Mike Manning, Bill Adams, Nick Terhune. Third Row: Vic Dunn, Larry Ryan, Steve Doran, Sammy Knight, Mike Kuykendal, Ray Parmelee, Johnny Nutter, Ralph Jackson. Fourth Row: Allen Cunningham, John Sammons, Steve Trevathan, John Bennett, Phil Barber, Eddie West, Jerome Brandon, David Manning. Fifth Row: Charlie Warren, Charley Perry, Jimmie Wilkins, Bobby Herndon, Otis Jones, Orlo Sprunger, Jimmy Musgrove, Don Black. Sixth Row: Tony Thomas, Steve West, Jerry Caldwell, Bobby Emerson, Dick Sims, Jerry Wahl. Seventh Row: Coach Preston Holland, Ass't Coach W. P. Russell, Ass't Coach Jerry Shelton, Ass't Coach Larry Henson, Ass't Coach Johnny Carlisle.

mediately. Team A, of course, has the privilege of taking the full time-out in (a) and (b) and whether they do or not has no bearing on the fact the time-out is charged.

19. Play: A1 is being closely guarded by B1 when: (a) A2 assumes and maintains a position between A1 and B1; or (b) A2 slides between A1 and B1 but does not stop or assume a position between them. Should a held ball be called after 5 seconds?

Ruling: Not in (a). When A2 takes a position between A1 and B1, A1 is no longer being closely guarded by B1. Therefore, the 5 seconds count will cease when A2 assumes this position. In (b), the count continues and a held ball shall be called after 5 seconds.

20. Play: During second free throw by A1, A2 tips the ball in the basket while it is on the ring.

Ruling: Violation. Basket interference. Violation causes ball to become dead and no point is scored. Ball is awarded to team B out of bounds on the side at either end of the free throw line extended.

21. Play: During the first attempt by A1 of a 2 free throw award, B2 does not occupy 3rd lane space. A3 takes it. Before the ball is handed to A1 for his second attempt, B2 requests permission to occupy 3rd space.

Ruling: Grant request of B2.

22. Play: Following a traveling violation by team A and while: (a) the ball is being given to the official; or (b) the official is handing the ball to B1; or (c) B1 is preparing to make the throw-in, team A requests a time-out.

Ruling: Time-out is granted in (a), (b), and (c), except that, in (c), the official will not grant the time-out if 4 seconds have already been consumed by B1 in attempting to make the throw-in. After

4 seconds of throw-in time have been consumed, a change of status of the ball is considered to be imminent and a time-out request is, therefore, denied.

23. Play: A1, in the front court, holds the ball and is surrounded by four teammates. No B player is within guarding distance. Should a held ball be called after 5 seconds?

Ruling: Yes, as provided by 4-101(c). The purpose of the maneuver by team A is obviously to prevent the opponents from getting at the ball without making contact.

24. Play: A1 is injured and referee stops the clock. At the end of one minute, A6 replaces A1 and, at the same time, A7 and A8 replace A2 and A3.

Ruling: No time-out is charged to team A because injured A1 was replaced before 1½ minutes expired. Since the clock was stopped and the ball was dead, it was permissible for A7 and A8 to replace A2 and A3, respectively.

25. Play: B1 commits a violation for basket interference at A's basket: (a) during a field goal try; or (b) during a free throw which has touched the basket ring.

Ruling: In (a), the violation stops the clock and team A is awarded two points. In (b), team A is awarded 1 point. In both (a) and (b), after awarding proper number of points, the official shall hand the ball, as is required after any violation, to a player of the scored upon team, who is behind the end line.

26. Play: A1 is dribbling near the end of the court, when B1 quickly takes a legal position in his path. A1, who is inbound, loses control of the ball in attempting to avoid B1. His momentum carries him out of bounds. In attempting to steal the ball, B1 also goes out of bounds. A1 regains his balance

and returns to the court before B1 recovers. A1 then continues his dribble.

Ruling: Violation. Double dribble. Dribble ended when A1 lost control. Since B1 did not touch the ball, A1 could not dribble again. A1 could have recovered the ball without violating. There is no penalty for A1 or B1 inadvertently leaving the court and then returning in a situation such as this.

27. Play: B1 holds A1, while A1 is attempting to throw the ball into A's basket. A1 continues his attempt and, before the ball is released, time for the period expires.

Ruling: Because time expired before the ball left the hands of A1, the goal would not count even though the ball enters the basket. 2 free throws are awarded A1 because he was fouled in the act of attempting a goal and because the attempt did not score. This ruling, is on the assumption that A1 was fouled before time expired.

28. Play: The ball is placed at the disposal of A1 who has been awarded a free throw. A1, who is at the free throw line, has the ball and is making preparations for a free throw attempt. A2 pushes B1 along the lane.

Ruling: Intentional foul by A2. B1 is awarded 2 free throws after which the ball will be put in play by center jump.

Comment: This situation is interpreted to be an intentional foul, in order to prevent team A from exploiting the rule. By committing a personal control foul, A2 causes it to be a false double foul resulting in a center jump, thereby depriving team B of the opportunity of a throw-in if the free throw by A1 were successful, or depriving team B of an opportunity to secure the ball if the free throw attempt by A1 were missed. But when the foul by A2 is intentional, team B is given 2 free throws, which makes the infraction by team A costly.

29. Play: Team B is three points behind late in the game. B1 misses a field goal try. A2 secures the rebound and is in his back court advancing the ball when B2 holds A2. The foul by B2 is not violent nor savage, but it is repeated several times during the last minutes of the game.

Ruling: On the basis of the description of the situation, these are intentional personal fouls which call for a penalty of 2 free throws for each foul.

30. Play: A1 is out of bounds to make a throw-in and B1 uses unsportsmanlike language and is assessed a technical foul. After a member of team A has attempted the free throw and just before ball has been handed to A2 for the throw-in from out of bounds at mid-court, B2 flagrantly pushes A2 to the floor and is assessed a flagrant technical foul.

Ruling: B2 is disqualified and team A is awarded 2 free throws. After any team A player (or players) has attempted the free throws, the ball is awarded to team A out of bounds at mid-court for throw-in.

Comment: After a double foul or after the last free throw following a false double foul, the ball is put in play in the center circle by a jump between any two opponents. This is not the procedure following the last free throw of a multiple foul or a false multiple foul. The above play situation is a false multiple foul. Most often, a false multiple foul consists of a personal foul and a technical foul, both of which are committed by one team against the other. However, a false multiple foul may consist of two technical fouls committed by one team against the other.

31. Play: A1, throwing in from out of bounds, throws the ball through his basket.

Ruling: Violation. Team B is awarded the ball for a throw-in from out of bounds at either end of that free throw line extended nearer the goal through which the ball was thrown.

32. Play: Ball, in front court, is being held by A1 when B1 bats it from his hand after which A2 touches the ball in the front court and the ball then crosses the division line into A's back court where A2 recovers.

Ruling: Violation. A2 was the last to touch the ball in his front court before it crossed the division line. Technically the ball was in possession of team A at the time A2 touched it.

33. Play: As A2 throws the ball at B's basket, B1 fouls him.

Ruling: This is not a field goal try. Therefore, the ball becomes dead when the foul is committed. If the foul is committed before the ball goes in the basket, the basket will not count. Regardless of whether the ball goes in the basket, A2 is awarded 1 free throw or a 1 plus 1, as the case may be. A2 has not been fouled during a try.

34. Play: While the two teams are warming up 5 minutes before game time, A1 and B1 trade punches at mid-court.

Ruling: Officials' jurisdiction in such a situation does not begin until the ball is tossed at center to start the game. This is a matter for the school authorities to adjudicate. Acceptable procedure would be to bar both players from participating in the game, but such, or any other decision, is not within the jurisdiction of the game officials.

35. Play: A1 has the ball out of bounds for a throw-in. A2, A3 and A4 immediately set up a screen by moving close together and parallel to the boundary line where the throw-in is to be made. The screen is set up at a distance of: (a) 3 feet or more from the boundary, which is being used for the throw-in; or (b) less than 3 feet from this boundary.

Ruling: The screen is legal in (a). In (b) any opponent of the screener may request and take a position between two of the A players. The screening players are obliged to permit the B player to take this position.

36. Play: Score at conclusion of regulation playing time is, team A 50—team B 49. Clearly after the 4th quarter has ended, but before the referee has approved score to terminate officials' jurisdiction. A1 commits a flagrant technical foul.

Ruling: Team B is immediately given 2 free throws. If both are successful, score is team A 50—team B 51, and game is over. If only one is successful, score is tied and game is continued with one or more extra periods after a one-minute intermission. Extra period is started with a center jump.

37. Play: A1 is apparently injured and clock is stopped. His coach examines him. A6 reports for A1 and replaces A1, who leaves the court. A1 then immediately reports to scorer and re-enters game before the ball becomes alive.

Ruling: As this was not a charged time-out, play should be resumed as soon as the injured player is removed from the game. However, if A1 return before play is resumed, team A is charged with a time-out.

38. Play: Jump ball is called. Designated jumper A1 stops to tie a shoelace before assuming his position.

Ruling: Since clock is already stopped, the matter of stopping the clock is not involved. Official should ask A1 if he desires a time-out. If he does not, official should order A1 to enter jump circle immediately. If delay results in giving team A an advantage, or in placing opponents at a disadvantage,

age, official may call a technical foul for delay.

39. Play: Official discovers disqualified A1 has returned to the line-up, or A1 has changed his playing number without reporting to scorer and an official. Discovery is: (a) during time-out charged to either team; or (b) immediately after end of 4th period and score is A 5 — B 40; or (c) after 4th period has ended in a tied score.

Ruling: In (b), there is no technical foul. In (a), A1 is considered to be "participating" even though time is out at the time. In (c), since an extra period is to follow, A1 is considered as "participating". Technical foul in (a) and (c). Since foul is flagrant, two free throws are awarded.

40. Play: While ball is in flight on a field goal try by A1: (a) A2 excessively swings his arms and elbows without making contact; or (b) A2 swings elbows and contacts B1. Ball goes through A's basket.

Ruling: (a) Violation by A2 causes ball to become dead immediately. Field goal is not scored. (b) Foul by A2 does not immediately kill the ball. Goal is counted.

MINUTES OF BOARD MEETING

(Continued from Page Nine)

played in Lexington on November 28 amounted to \$7,665.50, and that Association profits realized from the Class AAA final game in Louisville, played on December 5, were \$2,865.53. The Commissioner recommended that each of the four teams participating in the playoffs in Lexington be allowed an additional amount of \$200.00 for incidental expenses. Preston Holland moved, seconded by Ralph C. Dorsey, that the appropriations recommended by the Commissioner be allowed. The motion was carried unanimously.

Foster J. Sanders, chairman of the Trophy Committee, reported that his committee had met at the K.H.S.A.A. office on November 16, 1963, at which time sealed bids for the 1964 district and regional basketball tournament trophies were opened. He stated that samples submitted by five bidders were examined, and that the Trophy Committee had accepted the bids of the Sport Shop, Glasgow, Kentucky, and the Give Sporting Goods Company, Owensboro, Kentucky, for district and regional trophies respectively. The price per set of district trophies was \$41.65, and \$60.00 per set of regional trophies.

School officials of the Bath County High School appeared before the Board of Control to discuss the eligibility of Bath County High School boys attending schools in Montgomery County. President Cecil A. Thornton advised Prin. Edsel L. Karrick that interpretations of Association eligibility rules are made by the Commissioner, not by the Board of Control, and that any charges concerning the possible violations of K.H.S.A.A. By-Law 10, Undue Influence, should be filed with the Commissioner.

The Commissioner recommended that the State Swimming Committee be given permanent authority to make any necessary adjustments and changes in the classes, events, and regulations in swimming. Don Davis moved, seconded by Sherman Gish, that the recommendation by the Commissioner be accepted and adopted. The motion was carried unanimously.

The Commissioner recommended that for the school year 1963-64 the Christian County High School be moved from Basketball District 7 to District 8 in order that each of the districts involved shall have not less than four schools in it. Foster J. Sanders moved, seconded by Ralph C. Dorsey, that the redistricting recommend-

ed by the Commissioner be done. The motion was carried unanimously.

There was a discussion of a possible Board of Control proposal concerning out-of-season and pre-season football and basketball scrimmages and games, to be presented to the forthcoming 1964 Delegate Assembly of the K.H.S.A.A. Action on the proposal was deferred to the January meeting of the Board.

Preston Holland discussed the possibility of certain changes in football playoff regulations, to be put into effect for the 1965 and 1966 football seasons. J. B. Mansfield stated that changes in the regulations for the two seasons mentioned should be made and announced as soon as possible, since such changes might effect schedule making. Members of the Board agreed to go into the matter of football playoff regulations changes at the next meeting of the Board, and invite interested groups to file with the Commissioner written suggestions for such changes prior to the January meeting of the Board.

The Commissioner reported that, on December 18, 1963, he placed the Mullins High School on probation for the remainder of the basketball season, and directed Prin. Landon Hunt to relieve Assistant Coach Morris Justice of his coaching duties for a period of thirty days. The Commissioner stated that Mr. Justice, a second-team basketball coach, had removed his team from the floor shortly before half time in a game played between the Dorton and Mullins second teams on December 7, 1963, at Dorton. The Commissioner said that he considered the action of Coach Justice a violation of K.H.S.A.A. By-Law 17, Practice of Sportsmanship.

Oran C. Teater moved, seconded by Don R. Rawlings, that the next meeting of the Board of Control be held in Louisville on January 25, 1964. The motion was carried unanimously.

Sherman Gish moved, seconded by Ralph C. Dorsey, that all bills of the Association for the period beginning September 28, 1963, and ending December 20, 1963, be allowed. The motion was carried unanimously.

There being no further business, the meeting adjourned.

Letter from the Commissioner

Lexington, Ky.

January 27, 1964

To The District Tournament Manager:

Will you please refer to your K.H.S.A.A. booklet which gives rules and regulations governing basketball tournaments. You should familiarize yourself with these rules, found on pages 27-35. Your special attention is called to the second paragraph of Tournament Rule VI-A-3, relative to the enrollment of your district coaches in the Kentucky High School Coaches Association.

The forms for your various reports are self-explanatory. The report of games should be mailed to the manager of the regional tournament not later than Monday, March 9. Send your financial report, your checked eligibility lists, and the second copy of the report of games to the Commissioner as soon after the tournament as possible. For your convenience, the following check list is given;

1. Invite member schools to your tournament AT ONCE, reminding each school to send each other member school in the district a COMPLETE preliminary list of players before February 1, and to send you THREE copies of a final list one week prior to the district Tournament. See Rule VIII.

2. Announce the time of drawings in your letter. See Rule IX.

3. At your meeting, conduct the drawings and select the officials. The state plan for division of tournament receipts is recommended. If any other plan is used, a majority vote of the participating schools must be obtained.

4. Your attention is called to the last paragraph of Tournament Rule V-A, which says: "An official shall not work a district or regional tournament in the district or region in which he resides." The following procedure has been established by the Board of Control in the selection of tournament officials under authority given in Tournament Rule V-A: (a) Each school represented at the meeting may submit the names of one or more officials. There shall be a minimum of eight names on the list of officials to be voted on. NO NAME SHALL BE MARKED OFF THE LIST. (b) Each school representative shall rank eight officials in the order of his preference, the first choice being assigned eight points, the second seven points, etc. (c) The tournament manager shall communicate at once with the highest ranking official or officials in the order of their rank. If the official who is selected can not be reached during the day of the meeting, or if he is not available, the tournament manager shall attempt to employ the next official or officials on the list in the order of their selection. (d) If two officials are tied on points, the highest ranking official shall be determined by flipping a coin. (e) If none of the officials on the list is available the tournament manager shall have the sole responsibility of securing an official or officials for the tournament.

5. Tournament Rule XV now says: "The Board of Control is authorized to select, standardize, and purchase trophies for all district and regional tournaments and the cost of these trophies shall be borne by the respective districts and regions." The Board has contracted with the Sport Shop of Glasgow, Kentucky, to supply all of the official K.H.S.A.A. district first place and second place basketball trophies for the 1964 tournaments, each trophy complete with the Association seal and engraving. Your trophies will be shipped to you prior to March 1.

6. It is the responsibility of the tournament manager to secure adequate police protection.

7. THE BOARD OF CONTROL HAS RULED THAT NOT MORE THAN TWELVE PLAYERS

Pat Ehrler

In the 1963 K.H.S.A.A. Cross Country Run, held in Lexington on November 16, Pat Ehrler of Louisville Atherton set a new individual record of 9:15. The distance was 1-8 miles which was short of the usual distance.

MAY BE IN UNIFORM FOR ANY ONE TOURNAMENT GAME, AND THAT OTHER SQUAD MEMBERS SHALL NOT BE ALLOWED TO PARTICIPATE IN WARM-UP EXERCISES, THIS BEING IMPLIED IN TOURNAMENT RULE XI.

8. Please ask your officials to designate the goals prior to the warm-up time for each game.

9. You will receive three copies of a final eligibility list from each school. Have one of these checked by the coach of each competing team, before his team plays, for the twelve players he will use in each game. Use only one list for checking players on each team since the other two copies may be needed by the regional and state tournament managers. Send the Commissioner all of these checked copies with your other reports. Send the two unchecked copies of eligibility lists of the winner and runner-up to the manager of your regional tournament, along with one copy of your report of games, not later than March 2.

10. It has been ruled that the 2:00 o'clock mentioned in Tournament Rule IV-B may be considered Eastern Standard time or 1:00 P.M. CENTRAL STANDARD TIME. This information concerning the starting time of the regional meeting should be given to your winner and runner-up.

11. Send Secretary Ohr of the Kentucky Coaches Association the list of district coaches to be enrolled in his organization and remittance for these, and send the Commissioner the various reports mentioned above as soon as possible.

12. Tournament Rule VI-A-3 provides that the district representative to the annual meeting may be allowed for expenses an amount not to exceed \$50.00. Since this is a maximum and not necessarily a fixed amount, the delegate should be asked to submit an estimate of the cost of his lodging, transportation, and meals because of his representing the district at the annual meeting.

Sincerely yours,
Ted Sanford

EARLY SEASON WRESTLING QUESTIONS

EDITOR'S NOTE: These rulings do not set aside or modify any rule. They are interpretations on some of the early season situations which have been presented.

1. Situation: A "pancake" or circular mat is painted on a 38' x 38' square mat. In such an arrangement legal?

Ruling: Yes, because the size of the square mat allows a circular area with a 28 foot diameter, and also makes it possible to have the required 5 foot mat area around it.

2. Situation: In a neighboring town, there is a question about the accuracy of the scale used to weigh the wrestlers. What can be done to correct the situation?

Ruling: The rules book provides, "It is recommended that the accuracy of all scales be certified by a qualified scale authority." Therefore, it is a reasonable request to have the school authorities arrange to have the scale inspected.

3. Situation: Sleeveless shirts are mandatory for interscholastic wrestlers. What is the procedure if a wrestler appears wearing a "T" shirt?

Ruling: It depends on the circumstances. If his school is just starting a wrestling program, it may be the school does not have the means of providing sleeveless shirts, or it could be the wrestler is allergic to a woolen shirt and needs to wear a cotton shirt. Each situation should be met in the spirit of good sportsmanship, but the violators should be asked to follow the rules as soon as it is possible for them to do so.

4. Situation: May the physician attending a tournament weigh-in disqualify one of the wrestlers because his skin condition might impair the health of other wrestlers?

Ruling: Yes, the rule states that such "be considered full and sufficient reason for disqualification." It is also recommended that an adequate medical examination of all contestants be made at the time of weighing-in for all meets.

5. Situation: What should the referee do in situations in which a hold, usually considered legitimate, is forced to the extent it endangers life or limb, or to the point where the hold becomes purely punishing?

Ruling: The referee should require the hold to be broken, with a time-out. The contestant who had the advantage should be put in the position of advantage in the Referee's Position on the mat.

6. Situation: Offensive wrestler has committed and been called for three previous infractions and further warned that one more infraction would result in disqualification. He then proceeds to interlock hands around the opponent's waist to prevent a reversal. What is the responsibility of the referee?

Ruling: The fourth penalty for a technical violation or infraction requires automatic disqualification as provided by the penalty chart. The referee has no alternative.

7. Situation: In a pinning situation, "B's" legs are entirely off the mat, and he is having difficulty bridging because his feet slip on the surface outside

the mat. Should near-pin be called and wrestlers be brought back to the center?

Ruling: Any time the defensive wrestler is having difficulty bridging because of mats sliding or the bare floor being exposed, the referee shall stop the match and bring the wrestlers back to the center of the mat. It is possible he will award near-pin points in such a situation, and, in nearly all situations, predicament points would be awarded.

8. Situation: Wrestlers are wrestling near the edge of the mat and "A" puts a half nelson on "B" and turns him into a near-pin. However, "B's" head is touching outside the boundary line of the wrestling area as he is turned into the near-pin situation. Is "A" awarded near-pin points?

Ruling: This could not constitute a predicament or near-pin inasmuch as the head of the defensive wrestler was outside the wrestling area when the predicament or near-pin situation actually occurred. No points would be awarded.

9. Situation: "A" applies a figure four scissors to "B" and flattens "B" on the mat. "A" attempts to secure a half nelson, but is unable to get the hold because "B" covers up. Neither wrestler is able to improve his situation, and the wrestlers remain in this position.

Ruling: After approximately fifteen seconds have elapsed the referee shall stop the match and declare a stalemate. The wrestlers are then restarted from the Referee's Position on the mat with "A" on top.

10. Situation: In a dual meet "A" needs to win by fall if his team is to win the meet. "A" goes behind "B" and brings him to the mat. "B" flattens himself out on the mat to prevent "A" from pinning him and "B" makes no attempt to escape.

Ruling: "B" is stalling and should be penalized.

11. Situation: During a match "A" loses one of his low-cut shoes. Coach of "B" claims that the low-cut shoes are illegal and that the match should be defaulted.

Ruling: Coach of "B" was correct in stating that the low-cut shoes are illegal. Shoes must reach above the ankle. The referee should check on the legality of the equipment before the match starts. In the interest of good sportsmanship, a wrestler wearing low-cuts should be asked to exchange shoes with a teammate wearing regulation shoes, or the low-cut shoes should be taped on and the wrestlers permitted to complete the catch. It is illegal to wrestle without shoes.

12. Situation: "A" has "B" in a pinning situation and as he attempts to press "B" to the mat, "B" pushes fist into face of "A" in an attempt to escape. What should referee do?

Ruling: The referee should not necessarily stop the match, but he should pull the hand away and tell the defensive wrestler he has committed an infraction. In the event "A" does not pin "B", he may have earned near-pin points as well as an unnecessary roughness point.

News About Swimming

The 1964 Class A State High School Swimming Meet will be held in Louisville on Friday evening and Saturday, February 21-22, at the Plantation Swim Club pool, 8609 Westport Road. There will be a division for boys and one for girls. There will also be two divisions for the smaller schools in the Class B State Swimming Meet scheduled to be held at the University of Kentucky pool, Lexington, on April 3-4.

Class A will include those high schools with an enrollment of 750 or more (grades 9-12), and Class B will include those schools with an enrollment of less than 750. Any school may enter a class above its classification.

All divisions will have eleven events this year. Individual contestants may enter only two events, including fancy diving. The events are: 200 Yard Medley Relay, 200 Yard Freestyle, 50 Yard Freestyle, 200 Yard Individual Medley, Fancy Diving, 100 Yard Butterfly, 100 Yard Freestyle, 100 Yard Backstroke, 400 Yard Freestyle, 100 Yard Breaststroke, and 200 Yard Freestyle Relay.

All diving will be in accordance with regulations given in the 1964 N. C. A. A. Swimming Guide.

Teams are limited to four entries in each event except the relays. A school may be represented by only one relay team. Girls may enter the meet only as members of girls' teams.

The Friday evening session in each meet will include all of the diving events for both boys and girls. Each finalist will give a demonstration dive during the final Saturday afternoon session.

The method of entering teams in the meet will be the same as in past years, with the State Office supplying entry blanks to the schools whose principals have indicated that they will enter teams in the meet. The Association will refund one-half for transportation, lodging and meals expenses, based on the State Track Meet allowance of these items. One-half of the expenses of the swimming coach will be paid if the school

has as many as four entries in the State Meet.

MINUTES OF BOARD MEETING

The Board of Control of the Kentucky High School Athletic Association met at the Kentucky Hotel, Louisville, on Saturday afternoon, January 25, 1964. The meeting was called to order by President Cecil A. Thornton at 2:30, with all Board members, Commissioner Theo. A. Sanford and Assistant Commissioner J. B. Mansfield present.

Ralph C. Dorsey moved, second by Don Davis, that the reading of the minutes of the December 21st meeting be waived, since the members of the Board had received copies of these minutes. The motion was carried unanimously.

Ralph C. Dorsey moved, seconded by Oran C. Teater, that the following regulations concerning fees for the regional basketball tournament officials be adopted: The official shall receive a fee of \$25.00 per game and a transportation allowance of 8 cents per mile for all necessary travel. In the event that it is necessary for the official to remain overnight at the tournament site, he shall be paid an additional \$10.00 per day for lodging and meals. The motion was carried unanimously.

Foster J. Sanders moved, seconded by Don Davis, that the Board of Control recommend to representatives of teams entering regional tournaments that regional tournament plans provide that no official shall work more than one game in one session. The motion was carried unanimously.

Sherman Gish moved, seconded by Don R. Rawlings, that the Commissioner be authorized to set the dates and determine the sites of spring meets and tournaments. The motion was carried unanimously.

The Commissioner reported that there

In Memoriam

Lloyd McDermott

Death came on January 16, 1964, to Coach Lloyd "Big Mac" McDermott, member of the Holmes High School faculty. Mr. McDermott, who was thirty-seven years of age, died after two weeks' illness.

"Big Mac" had been one of Northern Kentucky's top gridiron stars. After achieving all-state honors as a lineman for Covington Holmes in the early forties, he starred at the University of Kentucky where he was an all-conference tackle under Coach Paul Bryant. Following his collegiate career, he turned pro and played defensive guard for the Chicago Cardinals, Philadelphia Eagles and Detroit Lions. He played his final year in professional football with the Ottawa Rough Riders in the Canadian League. He served thirty months in the Marine Corp during World War II.

Coach McDermott graduated from the University of Kentucky in 1950 with a B.A. degree in Education. He had taught health and coached athletic teams at Holmes since 1957. He was varsity line coach for the school's football team, and he also served as freshman basketball coach.

Surviving Mr. McDermott are his wife, Jinny, and five children, Kathleen, Maureen, Timothy, Phillip and Rodney. Other survivors are two brothers, Raymond and Russell McDermott, both of Dayton, Ohio. Mr. McDermott was a member of St. Mark United Church of Christ, Covington.

The Flying Dutchman

Claude Ricketts just called to say that the Louisville-Falls Cities Basketball Officials' Association has voted unanimously to recommend that Dave Longenecker be given an honorary Lionheart Award for his tremendous courage. Dave refereed the Sun Bowl football game a few years ago, has contributed greatly to the improvement of basketball officiating, and all the while he was fighting off one heart attack after another. After an attack last year, Dave's doctor ordered him to hang up his whistle.

It makes us all a little sad when we hear that another champion has "thrown the torch" to the youngsters following in the footprints he left in the sands of time—and Dave left some big ones. Kids will never have a finer example of courageous, wholesome manhood to pattern from than Dave. Gentle, kind and determined, Dave Longenecker has been sent the first honorary Lionheart Award ever presented by the Dutchman. He is a real big brother to every kid who will ever be eligible for a Game Guy Award.

Roy Settle, Owensboro's golf-playing banker and the only parbuster who could match the Longenecker golf shots, has a recommendation of his own for the Game Guy Award of 1964. Because of the interest Roy has taken in physically handicapped athletes, Jerry Elliott, who was an outstanding tackle on the Owensboro Senior High team, has been added to the list of young fighters who will be considered for this year's Game Guy trophy. At the age of seven this courageous youngster developed a cataract when hit in the eye by a baseball. The next time you are in Owensboro drop in at Barney's Peppermint Grill. Jerry's Lionheart statuette will be there for you to see.

There's another award going to Owensboro Senior High. My Old buddy, Lawrence McGinnis, and his up-and-coming protegee, Coach Bobby Watson, get the salute for this one. These chaps have not only been cooperating with Roy Settle to improve basketball officiating in their region, but they have won one Abou Ben Adhem citation for January because of their promotion of friendly relation in the field of athletics. Daviess County High and Henderson Holy Family claimed two more Abou Ben Adhem awards when basketball officials praised them for their warm hospitality to the "men with the whistles."

In case you didn't know it, Roy Settle

Roy Settle

is starting his third decade of basketball officiating. It's doubtful if he or anybody else will ever catch up with Kentucky's Methuselahs, "Jolly John" Heldman and "Black Jack" Thompson, who are finishing their fourth decades. "Black Jack" worked a state tournament with the Dutchman away back in 1946, and he can still run the length of the hardwood without stopping.

Ludlow boasts of a bachelor doctor who is loved as a father by the city's population of kids. Dan Sullivan who coaches football and Carl Wenderoth who does the same chore in basketball say he is the chap who should be honored with the Corn Cob Pipe for January for his unselfish service. The Dutchman agrees, and Doctor James F. Siles has his Kentucky thoroughbred with the Kentucky cob adorning its neck on his desk right now. "Doc" never misses a Ludlow game because he wants to be near whenever any of his beloved young athletes need him. "Doc" was presented his award by the northern Kentucky Adonis, George "The Whistler" Maines.

Here's something for you baseball coaches. At the World Series Party in Derbytown last night Jack McGrath announced that Hillerich and Bradsby would make their sixteen millimeter World Series Film available to baseball coaches who request it. Write Jack at his bat office in Louisville. This is an exceptional color film—and Jack McGrath is an exceptionally personable and public-spirited gentleman.

THE FLYING DUTCHMAN

(Continued from Page Four)

In March, when we passed the new rule which stops the clock on all violations, the Dutchman had reservations—but no more. Dean Eagle, sports editor of the Louisville Times, cooperated with the Rules Committee to get the facts about the time consumed under this rule. He wrote in his "Press Box" that he personally timed the Louisville-St. Louis game and found that the

clock was stopped for only three minutes and 2 seconds on violations. Dean's timing supports the time study reports coming in from many sections of the country.

Send your reactions to the rules to the Flying Dutchman, Colonial Manor, Jeffersontown. The National Basketball Rules Committee meets next month.

Here's a January thought: He who prays for himself alone impoverishes his own petition.

Schools' Ratings On Football Officials

Seneca's Defensive Play

By Bob Mulcahy

Editor's Note: Given below is an outline of the material used in one of the talks presented at the first annual basketball clinic of the K.H.S.C.A., held in Louisville on April 18, 1964.

I. CHANGING MAN-TO-MAN ZONE DEFENSE A. Types of defense: (1) 2-3 zone, (2) man-to-man line-up as close as possible to that of 2-3 zone

B. Signals used for changing defenses: (1) odd and even signals, (2) odd or even home or visitors' score, (3) odd or even time on clock, minute digit only

II IMPORTANCE OF BIG MAN IN CHANGING DEFENSE

A. He must be able to cover middle zone on both man-to-man zone defense.

B. Always drive man with ball toward the inside.

C. Drop weak side men off to cover and protect the pivot man when he leaves his man for other man.

III. STANCE AND POSITION USED TO COVER MAN ON DEFENSE

A. Use one-foot-forward stance instead of lining up straight away. (1) This enables defensive man to chase offensive man when he wants him to go. (2) Play forward without ball tight to prevent pass from guard. When forward cuts to basket, keep eyes on passer not cutter.

IV. 1-2-2 POSITION ZONE

A. This defense enables you to spot the critical positions, like man-to-man. (1) One of two under basket men will cover middle when necessary to make same as 1-3-1. (2) Two side men can move out front to resemble 3-2 set up.

High School Bowling

In September, 1963, some four-hundred seventy-five students in Grades 10-12 moved into the new Hopkinsville Senior High School. The present \$700,000 structure does not include a gymnasium or auditorium which is the background for this article.

Chet Redmon

Without a gym the students of Hopkinsville High School are faced with little opportunity for activity unless they are members of a school athletic team. Although about one in every three participates in athletics of some type, this does not begin to provide opportunities inclusive for all students.

An activity that has come to be very popular is bowling. A local bowling establishment provided for a five-week instruction period during which time they sent a bus each Monday and Friday to pick up the interested students from the study halls. Following the instructional period which was free for all who took part, the director of the lanes organized a student league which continues each Monday and Friday. Standings of the league are posted in a prominent place at the school for participants and others to see.

The transportation responsibility is borne by the bowling establishment which has a bus insured to carry the student bowlers. The program is carried on with the approval and consent of the superintendent and Board of Education. Approximately 125 students are taking part, many of whom have engaged in no other athletic or recreational activities. Preliminary study has also shown that there has been no loss to any students academically. On the contrary, some have actually improved which gives some reason to believe that this opportunity has provided an incentive to do better. Students who have unsatisfactory academic standing are not permitted to participate, because of the fact that they would lose valuable study time.

Pending state legislation will, if passed, provide the city of Hopkinsville the opportunity to add some valuable physical education facilities, but it seems very like-

ly now that the bowling league will continue as long as there is (mutual interest) between lanes operator and school officials and enough students who desire to participate.

State Wrestling Tournament

The first K.H.S.A.A. State Wrestling Tournament will be held at the Seneca High School gymnasium, Louisville, on February 14-15, 1964. The Friday evening session will be held at 7:30, and the Saturday sessions will be held at 1:00 p.m. and 8:00 p.m. State Wrestling Committee Chairman Orville Williams, wrestling coach at Seneca, will manage the tournament. Other members of the committee are Coach Will D. Evans of the Kentucky School for the Blind, and Brother Leopold, wrestling coach at the St. Joseph Prep School.

Tournament Manager Williams, in a letter to principals and coaches who have indicated that they will send wrestling teams to the tournament, gives the following information and requirements:

1. Weigh in will be at 6:00 p.m. Friday evening the 14th. There will be only one weigh-in. If a participant should be a fraction of a pound over his weight at weigh-in time, he will be allowed a reasonable amount of time (15 to 20 minutes) to get down to his weight. The participant must meet his weight requirement or forfeit his place in the tournament.

2. There will be NO entrance fee this year!

3. Seeding of brackets will be held immediately following weigh-in Friday. All coaches must attend this meeting.

4. All teams must send to me by February 3rd a K.H.S.A.A. eligibility sheet, in duplicate, containing the participants and any alternates that will be in the tournament.

5. The K.H.S.A.A. will reimburse the participating teams $\frac{1}{2}$ of their cost of travel expenses, lodging, and meals. Please keep receipts of your expenses.

6. First, Second, and Third place medals will be presented to the winners in each weight class. Trophies will be awarded to the Championship team, the runner up and the outstanding tournament wrestler.

7. Meals will not be served at Seneca. It will be the responsibility of each coach to provide for his team in this matter. Seneca is located close to several eating establishments.

8. Admission to each session will be 50c to the public. A \$1.00 tournament ticket will be on sale which will admit the purchaser to all three sessions at a savings of 50c. The three sessions will be Friday Feb. 14, at 7:30 p.m., Saturday, Feb. 15th at 1:00, and 8:00 p.m. These tickets will be on sale at the door.

9. I wish that you would please acknowledge immediately, the receiving of this letter, and let me know if you intend to participate in the tournament. Along with this acknowledgment, would you please send the following:

- a. Your school colors
- b. Your team nickname
- c. A copy in any form of your school emblem

10. Any complaints or disagreements will be taken to the tournament manager, and after conference, his decision will be final.

11. If you have any questions, feel free to get in touch with me at any time, here at Seneca, Gl-1-4330 or my home WO-9-0196. Please send all correspondence to Orville Williams, Seneca High School, 3510 Goldsmith Lane, Louisville 20, Kentucky. We hope you will be able to participate and are looking forward to seeing you and your team here on the 14th and 15th.

MINUTES OF BOARD MEETING

(Continued from Page Three)

world possibly be two or three ties in the district basketball tournament balloting which was to end at midnight, January 25. Oran C. Teater moved, seconded by Foster J. Sanders, that the Commissioner be given authority to break any ties in the district tournament balloting. The motion was carried unanimously.

The Commissioner read letters of appreciation from Mrs. Stella S. Gilb, Executive Secretary-Treasurer of the Kentucky Association of Pep Organization Sponsors and from Secretary-Treasurer Joe Ohr of the Kentucky High School Coaches Association for the grants made to these organizations by the Board of Control in its 1963-64 budget.

The Commissioner reported that he had suspended the Douglass High School of Henderson from the K.H.S.A.A. for a period of two weeks, beginning January 5, 1964, after he had been notified by Prin. H. B. Kirkwood of Douglass that a basketball player Tyrone Chapman, had been allowed to represent the Douglass High School in three basketball games during the current season when the boy was not eligible under

the provisions of the Association's Residence Rule. The Commissioner stated that the suspension was mandatory under K. H. S.A.A. regulations. Two of the three games mentioned were won by Douglass. These games, played with teams representing St. Vincent Academy and Paducah Lincoln High School, were declared forfeited.

There was a discussion of possible new football playoff regulations for the seasons of 1965 and 1966. President Richard I. Greenwell of the Kentucky High School Football Coaches Association appeared before the Board at this time upon invitation by the Commissioner and members of the Board of Control to explain the position of his group with respect to current football regulations. Some of the problems involved in any possible drastic change in the present football regulations were discussed at length. No action on proposed changes in the regulations had been contemplated for this meeting. Members of the group agreed to continue their deliberations at a later date in an effort to improve K.H.S.A.A. football playoff regulations.

Preston Holland moved, seconded by Don R. Rawlings, that all bills of the Association for the period beginning December 21, 1963, and ending January 24, 1964, be allowed. The motion was carried unanimously.

There being no further business, the meeting adjourned.

WRESTLING QUESTIONS

(Continued from Page One)

13. Situation: When the West Point ride is being used, what determining factors or time limit does the official use in calling this locked hands or a pinning hold?

Ruling: The offensive wrestler is allowed reaction time when attempting to use the West Point ride as a pinning situation. Once he attempts to break the defensive wrestler down and turn his shoulders toward the mat, and is unable to do so immediately, he would be called for locked hands around the body. Normally the officials will give reaction time, but in no case should this ride be used as a controlling ride with the hands locked.

14. Situation: "B" stands up and attempts to escape by pulling hands of "A" apart, and both contestants stumble off the mat. When should "B" get credit for an escape?

Ruling: "B" should receive credit for an escape if the supporting points of either wrestler are on the mat when "A" loses control and "B" is in a neutral position.

15. Situation: "B" applies the Granby roll to "A". When will the advantage change, and will the situation allow for a predicament or near-fall situation?

Ruling: The Granby roll is used extensively in the eastern states. When "B" has the hold locked tightly, and to the extent that "A" is concerned about being pinned, the advantage changes and then

near-falls or predicament points can be scored or the underneath wrestler may get pinned.

16. Situation: "A" grasps both legs of "B" while "A" is in the advantage position on the mat. Should the referee blow the whistle and stop the match and award points for a technical violation, or should he give a warning for stalling?

Ruling: This is considered stalling, and, if "A" has not previously been warned for stalling during the match, he should be warned on his first violation.

17. Situation: "A" deliberately releases "B", but the referee does not award points for an escape until "A" has walked in front of and faced "B" at arm's length distance. Is this the correct procedure for the official?

Ruling: Yes, if the referee did not wait until the above maneuvers were completed, "A" might score 2 points for a takedown before "B" had been given reaction time for a definite escape.

18. Situation: "A" uses legal double arm bar to take opponent down. After takedown, "A" locks hands in the double arm bar and earns near-pin points. "B" bridges and almost ends situation, but "A" releases locked hands and brings "B" back to the mat and locks double arm bar in an attempt to pin. May "A" earn near-pin points both times?

Ruling: No. If "A" uses a legal double arm bar for a takedown, and after the official has awarded takedown points, "A" locks his hands in the double arm bar which is permissible, "A" may earn near-pin points. Even though "A" releases the locked hands and brings "B" down again and locks his hands in a double arm bar in a pin, he cannot earn additional near-pin points.

19. Situation: "A" has "B" in near-fall situation for fifteen seconds. During the attempt to escape, "B" twists reverse half nelson into choke hold. What should the referee do?

Ruling: If "A" had "B" in near-fall for fifteen seconds prior to the reverse half nelson developing into a choke hold, the referee should have awarded "A" three pin points as well as one point to "B" for an illegal hold. If the choke hold actually were the responsibility of the wrestler "B", "B" would not be awarded a point for an illegal hold.

20. Situation: If the defensive wrestler has one knee on the mat and the offensive wrestler interlocks his hands around the waist, is this considered to be a technical violation?

Ruling: Yes, because the rules state you may lock your hands around the defensive man only when the defensive wrestler has gained his feet. A defensive wrestler with one knee on the mat is not considered to be on his feet. Note: Locked hands are permitted in a pinning situation.

DEFINITIONS

21. Overlapping of hands: Overlapping shall be considered to be interlocking for all interscholastic rules interpretations.

22. Full nelson: If both hands are on the head, even though not interlocked or overlapped, it shall be considered a full nelson and is illegal. The referee is urged to prevent an illegal hold rather than call it.

23. Default: A contestant who is injured in a match and does not appear for his following match because he apparently feels he will lose, will not be permitted to wrestle for third place. If a contestant does not dress and appear on the mat for a match it is considered a forfeit, and, therefore, he is not eligible for third place competition. A default may be awarded when a wrestler has actually participated and is unable to complete the match.

Weight Lifting and Wrestling

The purpose of this article is twofold: first, to help develop weight lifting and wrestling as competitive sports in our secondary schools and colleges; and second, to develop better football players by urging them to participate in these two sports competitively during the off season.

Football is one of the two top sports played in Kentucky's High Schools and Colleges. Nevertheless, it has far to go to catch up with the winning brand of football played in other states. This is proven by the recruiting program carried on by our colleges in going to other states, particularly Ohio and Pennsylvania, for football material.

Ohio and Pennsylvania would, of course, have more football players than Kentucky because of a much greater population, but Kentucky has long been a top producer of basketball material, and we thus often ask ourselves the question, "Why do we not produce adequate football players to supply our own colleges?"

The fault does not lie within the Kentucky player nor are the genes for passing on hereditary traits in football players better found in such geographical areas as the two states of Ohio and Pennsylvania. The fault must be located in the leadership of our athletic program in the schools and colleges of Kentucky.

Plato once said, "The glory of man is his strength." What sports display the glory of man more accurately than the two competitive sports of weight lifting and wrestling; and furthermore, what two sports could better condition a football player in off season or develop his strength, power, and even size to near maximum potentials than these two sports.

No sports will develop the strength, the power, or the body of an athlete like weight lifting, and for complete physical fitness, wrestling has been proven to be one of the best activities.

Kentucky has few schools which boast wrestling teams, and weight lifting contests are practically unheard of outside of Louisville. Few physical educators even know official A.A.U. rules for conducting such events.

In lifting weights the athlete should strive for the development of superior strength for his bodyweight. An example would be to press his bodyweight, a feat which only one in 170,000 has been estimated as being capable of doing. This can be achieved by every football player through

hard training. Other goals in various lifts would be to bench press fifty pounds above bodyweight, curl fifty pounds under bodyweight, squat with fifty pounds over body weight, and deadlift two hundred pounds over bodyweight.

Imagine fielding a team that could do this. The psychological effect alone would be enough to win. This is entirely within the reach of every coach if he works with his team. Remember, few of your players will have superior strength, and many times the coach is disillusioned to believe a player is strong when the player's own great size gives that false impression. Work for superior strength, and the teaching of the three Olympic lifts can follow for later competition.

Wrestling, one of the oldest sports, provides a fine mental tonic towards development of an aggressive attitude. This type of attitude is greatly needed by the football player on the field of action. Wrestling will build tremendous physical efficiency, co-

ordination, poise and effective use of the body. The development of the winning spirit in wrestling invades the mind and the wrestler realizes that he can "take care of himself" in any sort of physical encounter, especially on the football field.

Japanese Sumo Wrestling Rules could be of special use in developing linemen. This is when you have a fifteen foot ring and the winner is declared when he either throws the opponent or pushes him out of the ring.

Football is only played approximately four months out of the year, including spring practice, and thus much time could be devoted to these individual sports. Team sports are so greatly emphasized that there has been a neglecting of individual sports in this state.

If Kentucky is to develop top athletes, it must give its athletes a more diversified program in athletics. These programs must be started in at least secondary school level, and extend on through college in order to succeed.

KENTUCKY HIGH SCHOOL STATE BASKETBALL TOURNAMENT

March 18 thru March 21, 1964

While in Lexington for the State Basketball Tournament, make our room at the Phoenix Hotel your headquarters, for it is the meeting place for players, coaches and basketball fans. Our factory representatives, together with our school representatives, Roy J. Boyd, Jim Mitchell, Ed Hendley, and C. A. Byrn, Jr. will be on hand to make your visit in our room a pleasant one.

We will have on display our new 1964 Spring and Summer samples, as well as an advance showing on football and basketball supplies for the coming 1964-65 season. We would recommend that you be ready to place your order so that there will be no delay from the standpoint of delivery.

Our Spring and Summer catalog was mailed a few weeks ago. If you failed to receive your copy, write us and we will gladly send you another.

Remember—two of the basketballs to be used in the State Tournament can be secured from us; namely the Coach Adolph Rupp No. AFR official ball and the No. ARX official LastBilt basketball. Both of these balls carry the signature of Coach Adolph Rupp and are used by the University of Kentucky Wildcats. Let us ship you these basketballs, so that you will have the feel of the ball to be used in the State Tournament.

For those last minute needs for tournament and for the last few games before tournament time, please let us assist you.

Modern Ides of March

The gym lights gleam like a beacon beam
And a million motors hum
In a good will flight on a Friday night;
For basketball beckons, "Come!"

A sharp-shooting mite is king tonight.
The Madness of March is running.
The winged feet fly, the ball sails high
And field goal hunters are gunning.

The colors clash as silk suits flash
And race on a shimmering floor.
Repressions die, and partisans vie
In a goal acclaiming roar.

On Championship Trail toward a holy grail,
All fans are birds of a feather.
It's fiesta night and cares lie light
When the air is full of leather.

Since time began, the instincts of man
Prove cave and current men kin.
On tournament night the sage and the wight
Are relatives under the skin.

It's festival time,—sans reason or rhyme
But with nation-wide appeal.
In a world of hate, our ship of state
Rides high on an even keel.

With war nerves tense, the final defense
Is the courage, strength and will
In a million lives where freedom thrives
And liberty lingers still.

Let commies clash and empires crash
'Neath the wreck of a victory arch!
Let our boys tread where hate is dead,—
In this happy Madness of March!

THREE PHILOSOPHIES

Editor's Note: The following address, given by the Reverend Doctor R. Jack Robinson at an Annual Basketball Coaches Clinic in Ohio, appeared in a recent issue of "The Ohio High School Athlete." Its message is timely.

My subject is, "Three Philosophies—Take Your Pick!"

In a subject like this, of course, the limiting word is "philosophy." The English word "philosophy" comes from two Greek words: "philo," which means to love, and "sophia," which means wisdom. So a basic definition of "philosophy" would be "the love of wisdom."

Webster speaks of philosophy as the science which investigates the facts of reality. Plato called philosophy "that dear delight," and Leonardo da Vinci referred to it as "the noblest of all pleasures."

You are aware that the field of philosophy is divided into five parts: logic, aesthetics, ethics, politics, and metaphysics. Then the philosopher breaks these divisions down. For example, the study of metaphysics is divided like this: first, the real and final nature of matter which is called ontology; second, the real and final nature of the mind which is called philosophical psychology; and, third, the interrelation of mind and matter in the process of perception and knowledge which is known as epistemology.

Now, whether all of this is meaningful to us may be debatable, but that every person in this room and on this earth is constantly being molded by some philosophy or system of thought is not debatable. And nowhere is this more evident than in the lives of the philosophers themselves.

Take the first great occidental philosopher, Socrates. He was far from handsome. Socrates had a bald head, a great round face, deepset staring eyes, and a broad nose. His disciples liked him because of the modesty of his wisdom. He did not claim to have all wisdom, only to seek it lovingly. He was wisdom's amateur, not her professional.

Socrates held that philosophy begins when one learns to doubt and question. His motto was, "Know Thyself."

But woe be to the teacher who tries to

teach men or their sons faster than they can learn.

You remember that the city elders of Athens could not stand the incisive gaze of Socrates upon them. They decreed that Socrates must drink the hemlock. His friends came to Socrates while he was in prison. They stated that they had bribed the prison officials and that they stood by with a boat and would take him out to one of the islands in the Aegean Sea. There he could live out the course of his life normally.

Boldly Socrates refused, declaring, "Be of good cheer and say that you are burying my body only. I believe in one God and hope in my modest way that death will not destroy me."

Now contrast such a man as that with another philosopher, the German philosopher Friedrich Nietzsche. Born into a minister's family, at eighteen Nietzsche lost faith in the God of his fathers and spent the remainder of his life looking for a new deity.

At the age of twenty-three Friedrich Nietzsche was conscripted into military service. At Frankfurt, on his way to the front, he saw a troop of cavalry pass with magnificent clatter and display through the town. Then and there, Nietzsche later said, the perception came out of which was to grow his entire system of thought.

Listen: "I felt for the first time that the strongest and highest will to live does not find expression in the miserable struggle for existence, but in a will to war, a will to power, a will to overpower."

At twenty-five Nietzsche was appointed to the Chair of Classical Philology at the University of Basel. There he taught a way of life that said, "Just as morality lies not in kindness but in strength, so the goal of human effort should be not the elevation of all but the development of finer and stronger individuals; not mankind, but superman is the goal."

And what end came of a man like that? Nietzsche filled his last book, "Ecce Homo" with self praise. He turned on the friends of his earlier years. He bitterly attacked

BOARD ELECTION

At the copy deadline for this issue of the **ATHLETE**, principals in Sections 7 and 8 were still balloting for Board of Control membership. There were four candidates in Section 7. They were: Prin. Morton Combs, Carr Creek High School; Prin. Clinton B. Hammons, Knox Central High School; Supt. Sam Potter, Lynch City Schools; and Prin. James A. Pursifull, Bell County High School. Supt. Oran C. Teater, Paintsville City Schools, was unopposed for re-election in Section 8.

SPRING MEETS

Tentative dates have been set for the various spring meets and tournaments in rifle marksmanship, baseball, golf, track and tennis. They are as follows:

April 25, State Rifle Championship, Lexington
May 11-14, district baseball tournaments (listing given below)

May 15-16, regional track meets (Murray, Henderson County, Bowling Green, Fort Knox, Jefferson County, Louisville, Bellevue, Lexington, Richmond, Barbourville, Prestonsburg, Ashland)

May 22-23, regional tennis tournaments for girls (Murray, Bowling Green, Louisville, Jefferson County, Bellevue, Lexington)

May 22-23, State Track Meet, Lexington

May 23, regional golf tournaments (Princeton, Bowling Green, Jefferson County, Louisville, Covington, Lexington, London, Paintsville)

May 29-30, regional baseball tournaments (Murray, Owensboro, Brownsville, Louisville, Newport, Lexington, Harlan, Ashland)

May 29-30, regional tennis tournaments for boys (Bowling Green, Fort Knox, West Jefferson County, East Jefferson County, Louisville, Bellevue, Lexington, Richmond)

June 2-3, State Golf Tournament, Fort Knox

June 5-6, State Tennis Tournament for Girls, Louisville

June 10-11, State Baseball Tournament, Lexington
June 12-13, State Tennis Tournament for Boys, Louisville

In assigning schools to districts and regions for spring meets, the source of information is the blue statement form filed by the school principal when he enrolls his school in the Association. If a coach is listed for a sport, it is assumed that the school sponsors a team in that sport. In some instances the coach of a particular sport may not have been assigned at the time the statement form was filed, and in other instances the principal may have decided that a sport for which a coach was named will not be sponsored by the school this year.

Principals should study the assignment of schools by districts and regions which appears below to determine whether or not the listings for their schools are correct. The State Office should be notified only if the name of the school should be added to or omitted from any of the lists given.

KAPOS News

Ten years ago this spring a group of dedicated and intrested sponsors met at the invitation of Mrs. Elmer T. Gilb for the purposes of discussing ways and means to further the cause of cheerleading in the state of Kentucky. At this meeting a name was selected and a constitution was proposed. These sponsors and many more have remained steadfast to the purposes and have spent ten years in dedicated effort to carry out the purposes. They are to:

A. Foster a concern for progress in cheerleading, pep clubs, and baton twirling.

B. Improve the standards of selection of members of the three groups.

C. Lead pupils to a knowledge and appreciation of the social and educational advantages that participation in these activities will bring them.

D. Promote good relationships between the sponsors and the school administrators.

E. Improve guidance techniques of sponsors.

SCHOLARSHIP TO BE AWARDED

KAPOS is happy to announce the availability of a \$500 per year scholarship to be awarded to a deserving and needy cheerleader. Each applicant must show evidence of outstanding academic ability and indicated need for financial assistance. In order to qualify for the scholarship, the applicant must have been a cheerleader for at least two years and the school must be a member in good standing in the Kentucky Association of Pep Organization Sponsors.

Scholarship applications may be obtained from: Mrs. Stella S. Gilb, College of Education, Lexington, Kentucky; Mrs. Herbert Weddington, Franklin County High School, Frankfort, Kentucky. You will also be able to obtain them at the KAPOs Booth during the state tournament. Deadline for the application is May 1.

Governor Breathitt To Declare Sportsmanship Week

Last year KAPOs inaugurated SPORTSMANSHIP WEEK and it was such a success we have decided to make this a yearly event. Your local papers will be carrying the proclamation proclaiming March 1st, the week of the District Basketball Tournaments, as Sportsmanship Week. Schools are urged to implement the idea of good sportsmanship by having convocation programs at assembly, making talks at civic clubs, submitting articles to the press and radio, making slogans, posters and decorating school bulletin boards.

KAPOS Poster Contest

Any school with KAPOs membership can enter the poster-making activity. Make an attractive poster on any phase of sportsmanship, using any medium desired. Select the best poster from your school, place the name of your school and the sponsor's name and address on the lower right-hand corner of the BACK of the poster. Mail the entry to KAPOs, in care of Phoenix Hotel, Lexington, Kentucky. Use regular white construction paper 18" by 24". The posters will be on display during the state tournament in the Coliseum and the Phoenix Hotel. Four prizes will be given: First prize, \$25.00; Second prize, \$15.00; Third prize, \$10.00; and Four prize, \$5.00. Win a prize for your Pep Club.

State Tournament Plans

There will be two KAPOs booths this year. One will be in the lobby of the Phoenix Hotel, and the other will be located in the Coliseum, somewhere near the main entrance. These are for the sole purpose of registering and greeting you. Please stop by and pick up your name tag and handbook.

Radio Personalities Needed

Perhaps you would like to have a part in making known to the public just what is involved in being a cheerleader sponsor. If so, we can use you for radio and possibly television interviews. We are especially anxious to use you sponsors whose teams are participating in the tournament. It would expedite scheduling if you would let us know when you check into the hotel whether you will be available for an interview.

Trophies To Be Awarded

KAPOS is pleased to announce that both a winner's and a runner-up cup will be given to the outstanding cheerleading groups at the 1964 State Tournament. Third place in the judging will be given honorable mention recognition.

All cheerleaders are asked to wear their cheerleader uniform for the final Saturday night game. Photographers will be present to take pictures of the winners so be prepared to represent your school in a fashion to make them proud of you.

The sponsors of the winner and runner-up schools are asked to come to the floor with their cheerleading squads. Besides getting the recognition you so well deserve, it is another way of letting the public know that cheerleading is important enough in the school curriculum to merit a "sponsor-coach."

The Flying Dutchman

The Greyhound Booster Club of Paris gets the Abou Ben Adhem Award and Lexington's John "Scoop" Brown wins the Corn Cob Pipe of Honor for March. Ashland's Courtney Clark qualified the Greyhounds for their promotion of clean and wholesome policies of leadership in all of the athletic endeavors of Paris High School while a half dozen recommendations makes "Scoop" a pipe smoker. "Scoop's" service to the "small fry" in Lexington's recreation program admitted him to the growing fraternity of Kentuckians who do things unselfishly for others.

A letter has just come from Joe Yanity. Everybody remembers when "Little Joe" roamed the campus at Eastern State College during the tenure of Rome Rankin. Ernie Chattin taught Joe the gentle art of officiating in those days. Now Joe is part of the firm of Lavelle and Yanity, attorneys at law in Athens, Ohio, as well as an official in the Mid-American Conference. It's good to hear from Joe. A lot of Kentuckians wondered where he had wandered.

One of the finest gentlemen Kentucky has ever produced in Jim Baker of Monticello. Besides serving as the superintendent of schools, Jim is one of the best officials ever to blow a whistle in Kentucky's state basketball tournaments. The following story doesn't involve James E. Baker but it does come to the Dutchman from "Gentleman Jim."

Coach "Jumpin Joe" Harper's Monticello team entertained Coach Dave Cottrell's Danville Admirals. The officials went to the center of the floor for the opening jump when it was discovered that Kenny Cash, official scorekeeper, was nowhere to be found. A thorough search of the building revealed that the scorekeeper had been padlocked in "Jumpin Joe's" office . . . "by mistake," Jim Baker says, "by Coach Joe, himself." Brethren, anything can happen in

high school basketball in Kentucky, and it generally does!

Here are three rulings you asked for: (1) If you have a clock which shows no time left to play and it's horn ending time goes off a split second later, the termination of time is governed by the horn. (2) If, in getting adjusted to make a free throw, the free thrower inadvertently steps on the free throw line and withdraws his foot to a legal position before attempting the free throw, it is the intent of the rules that the official issue a warning that a repetition will be called a violation. (3) Call a technical foul immediately if a coach abuses the side-line coaching rule.

Bennie Edelen, the reformed federal internal revenue agent who now makes his living as a tax consultant and by playing golf with The Flying Dutchman, asks, "What is the complete story of the Game Guy Program?" Here it is, Ben.

The Flying Dutchman and Commissioner Sanford started the Game Guy Program in 1949. Noticing many handicapped youngsters who wanted to take part in sports programs like other boys and girls, Ted and The Dutchman tried to think of something to help them. Suddenly, the Game Guy program took shape when Bobby Kirchdorfer, paralyzed from his hips down by polio since the age of three, ran on his hands in a wheelbarrow race in a playground track meet and won over other youngsters in spite of his handicap. This event spawned Kentucky's program for the handicapped. It caused many to feel that Bobby's example of courage and determination should be an example for other handicapped boys and girls if his achievement were publicized—so Bobby Kirchdorfer became the first Game Guy and his story was widely publicized.

Other physically - handicapped young people did take notice. Their reaction was, "If one boy can do it, so can another." Through the Flying Dutchman column in the Kentucky High School Athlete, principals, coaches, school leaders, and citizens were urged to work with these handicapped boys and girls. The idea caught fire.

The procedure now is for anybody in Kentucky working with these youngsters to inform the Flying Dutchman so that the courageous boy or girl can immediately be a winner. The boy or girl is sent a small statuette emblematic of a winner of the Lionheart Award and indicative of tremendous courage. His or her local paper, radio, and television station publicizes the achievement to encourage more young people to

participate. In April of each year the young man or woman who has overcome the greater handicaps to achieve the most in sports is presented the Game Guy Award for that year at the annual dinner of the coaches, principals, and officials of the Kentucky High School Athletic Association. When the Game Guy is presented his trophy, everyone stands in tribute and applauds.

So it is that the "Parade of Game Guys" is unending and the inspiration they provide is amazing. What has happened to some of the Game Guy after graduation? They are "carrying on." We know where some are but others we have lost track of.

Bobby Kirchdorfer, the first winner in 1949, is manager of a large country club at Brandenburg, Oral Miller, who was Game Guy in 1950 is now an attorney in Washington, D. C. in spite of his blindness; Dan Bosler, whose handicap was one arm off just above the elbow is in business. Others are in college, business or professional pursuits. They are still setting examples and still passing the Game Guy's Test . . .

"The test of a man is the fight he makes; the grit that he daily shows; the way he stands on his feet and takes Fate's numerous bumps and blows. A coward can smile when there is naught to fear, when nothing his progress bars; but it takes a man to stand up and cheer when some other fellow stars.

"It's the knocks that you take and the jolts you get, the shock that your courage stands; the hour of sorrow and vain regret, the prize that escaped your hands—these test your mettle and prove your worth. It isn't the blows that you deal, but the blows you take on his good old earth, that show if your stuff is real."

Important Letter to Principals

Each principal whose school is participating as one of the sixteen teams in the state tournament will receive a letter from the Kentucky Association of Cheerleader Sponsors. The letter will contain the information concerning the basis of selecting outstanding cheerleader squads, and will request that the principal send, either by wire or special delivery, confirmation that the cheerleaders of his school are being chaperoned by a well qualified, school-approved adult. The name of the sponsor should be included in this confirmation letter. Send confirmation to: Mrs. Herbert Weddington (KAPOS President), Phoenix

Hotel, Lexington, Kentucky.

Dates to Remember

March 21—Saturday Morning Coffee. KAPOS extends a cordial invitation for ALL sponsors and cheerleaders to join them for coffee and sweet rolls on Saturday morning from 9:30 until 11:00 at the Phoenix Hotel. Look for the room number on the day's bulletin board in the lobby of the hotel.

August 5-9—Summer Cheerleader Clinic. The Kentucky Cheerleader Association announces the Fourth Annual Summer Cheerleader Clinic. The clinic will be held the week of the All-Star Games, August 5-9, University of Kentucky Campus. Brochures can be obtained at the KAPOS booth or by contacting: Mrs. Grace Fragstein, Mrs. Milly V. Rodes, or Mrs. Stella S. Gibb.

1964 TRACK AND FIELD RULES

The principal rules revisions authorized by the Track and Field Committee, effective for the 1964 season, are included in the new National Federation edition of the Track and Field Rules and Records Book. They are as follows:

RULE 2-3: In running events, only the winner will be credited with a new record, even though both the 1st and 2nd place finishers are recorded with identical time. In field events (jumping and throwing) a new record will be recognized for each boy when two or more boys tie at a record height or distance, even though points in the event are determined by the Olympic method for breaking ties.

RULE 4-1: All competitors are required to report promptly when called. The previous coverage has been revised so that the former requirement that a contestant report at the starting mark of a running event

five (5) minutes before the scheduled time for a race, and for a field event fifteen (15) minutes before the time scheduled for the event has been eliminated.

RULE 5-2: A note will refer to an appropriate situation ruling, which will include a chart to explain the "OLYMPIC METHOD" for breaking ties in jumping or vaulting for height.

RULE 9-1: The editorial content has been revised for clarification purposes and will provide that, at no time during the competition, shall the bar be lowered except in resolving ties for 1st place (as stated in Rule 5-2 (d), Group I, Field Events (pole vault and high jump)).

RULE 9-2 and 3: The specifications and requirements for the high jump and pole vault now, in general, conform to the International rule, except that the use of the rectangular crossbar will be permitted. The length of the crossbar shall be not less than 11 feet 11¼ inches, nor more than 13 feet 1½ inches. The distance between the upright standards which support the crossbar shall be not less than 12 feet nor more than 13 feet 2¼ inches. A competitor may have the standards or uprights moved in either direction, but they may not be moved more than two (2) feet from the prolongation of the inside edge of the top of the stop-board.

RULE 9-4 and 10-1: Specifications for the triple jump (hop, step and jump) are included.

RULE 9-6: The specifications for the discus have been amended so that the body of the discus must be made of wood, plastic or composition material, and the rim either of metal or plastic. A discus constructed entirely of rubber or metal is also legal if it conforms to the specifications for weight, size and shape.

RULE 9-5, 6 and 7: A recommendation is included to the effect that, for safety purposes, areas for the shot-put, discus and javelin should be roped off.

RULE 10-1: A recommended order of events for the decathlon and the pentathlon competition has been included.

MECHANICS AND TECHNIQUES OF STARTING: The procedure for the starter has been revised to indicate that it is permissible for either the starter or the clerk of the course to give instructions to the contestants. The starting instructions include the procedure for races in which there is a standing start.

THE 1964 STATE WRESTLING TOURNAMENT

The 1964 State Wrestling Tournament was held at Seneca High School, Louisville, on February 14-15. This was the fourth tournament to be held in Kentucky, the first one sponsored by the K.H.S.A.A. Ten teams participated in the tournament. They finished in this order: Ahrens Trade, St. Joseph Prep, Millersburg Military Institute, North Hardin County, Kentucky School for the Blind, Seneca, Aquinas Prep., Westport. Fern Creek and Hopkinsville tied for ninth place.

Trophies were awarded to the state championship team from Ahrens and to the runner up, St. Joseph Prep. The tournament's outstanding wrestler was also awarded a trophy. This award went to Joe Howard from St. Joseph, who was the state champion in his weight class, 145 lb. This award was decided by the vote of the coaches and referees. The referees were Larry Quinn of New Albany, Indiana, and Harry Black from Indianapolis, Indiana.

Gold, silver and bronze medals were awarded to the winners of the first three places in each class. These winners were as follows:

95 lb.—Jones, Ahrens; McKay, St. Joseph; Uhde, Aquinas

103 lb.—Shaffer, Millersburg; Crowe, Ky. School for Blind; Cowden, Seneca

112 lb.—Blankenship, North Hardin; Veeneman, Aquinas; Gabhart, Seneca

clinics will be held at the Seneca High School on Saturday morning from 9:00 till 12:00. State Wrestling Committee Chairman Orville Williams states that interested persons are invited to attend these clinics.

LOUISVILLE FOOTBALL CLINIC

The second annual Louisville Championship Football Clinic for High School Coaches by High School Coaches will be sponsored by the Louisville High School Football Coaches Association.

The Clinic is to be held on April 10 and 11. The clinic will commence with a buffet supper at 6:30 p.m. in the cafeteria of Trinity High School, located at 4011 Shelbyville Road. The guests speakers will be John Crow of Vanderbilt, who will discuss the "Arkansas Monster Defense" and Guy Penny, Morehead State College, who will lecture on "Letter Defenses."

On Saturday, April 11, the clinic will move to DeSales High School, located at 425 Kenwood Drive, where there will be a full day of football with eight fifty minute sessions in all.

Featured speakers are Tony Mason of Miles, Ohio, who is one of the outstanding high school coaches in the country. This

past season Tony kept his winning streak going to forty-seven games and an over all record of 87-9-7. Coach Mason will lecture on "Defensive Secondary" and "Defensive Forcing Unit."

Louis Catignani of Father Ryan, Nashville, Tennessee, was the "Big Eight Coach of the Year," and has made five bowl appearances in eleven years of coaching. Louis will speak on "Pass Offense and Pass Defense."

John Pickens of Bowling Green High has been in the coaching profession for twelve years and has been a Kentucky High School Coach of the Year. He will discuss the "Slot T Offense."

Speakers from the Louisville Football Coaches Association are Jack Kleier of Atherton High School, speaking on "Defensive Techniques;" Gil Sturtzel of DeSales High School, covering the "4-3 Defense;" and Paul Young of St. Xavier High, who will give pointers on "Offensive Center Play." Master of Ceremony is John Meihaus of St. Xavier High School.

Tuition—\$3.00 per coach. Mail your check or money order to: Coach Ted Boehm, Atherton High School, 3000 Dundee Road, Louisville 5, Kentucky.

SPORTSMANSHIP

A Message to High School Fans

The following article has been adapted by the National Federation. It is appropriate for inclusion in game programs.

These are high school athletes who are performing here tonight. They are friendly rivals as members of opposing teams. They are not enemies.

This, basically, is the theme of interscholastic athletics . . . the idea of friendly competition. The visiting team tonight, and in every interscholastic game, is a guest of the home team. They are expected to be so regarded and so treated.

The officials are men who, by agreement between the competing teams, are assigned to administer the rules of the game. Their experience and their integrity qualify them for their part in this friendly interscholastic contest. This attitude of sportsmanship should be reflected by all spectators, too, no matter what their personal feelings of loyalty may be to one or the other of the teams in tonight's contest.

INTERSCHOLASTIC ATHLETICS ARE FOR SPORTSMEN. BOTH ON THE COURT AND IN THE STANDS.

1964 BASEBALL RULES REVISIONS

Below is a synopsis of the 1964 Baseball Rules changes as authorized by the National Alliance Baseball Rules Committee representing the National Federation, National Association of Intercollegiate Athletics and the National Junior College Athletic Association.

1. Each base runner, as well as the batter, shall be required to wear a head protector and he shall be declared out if he fails to wear it after being warned by the umpire.

2. The strike zone is defined as the space over home base which is between the batter's shoulders and his knees when he assumes his natural batting stance.

3. Whenever a pitch or any other thrown ball lodges in an umpire's equipment, the ball becomes dead immediately.

4. When the pitcher commits any act in violation of pitching regulations (Rule 6-1-1, 2 and 3) and there are no runners on base, a ball is called on the batter whether the ball is pitched or not, unless the batter at least reaches 1st base safely, in which case the penalty is ignored.

5. 8-2-3-Penalty Exceptions (penalty ignored) is expanded to provide that the appeal for an infraction is ignored unless the appeal is made prior to the succeeding pitch or before the infielders leave the diamond when a half-inning is ending.

THREE PHILOSOPHIES

(Continued from Page One)

Jesus Christ, and died a raving maniac at the age of fifty-six.

I repeat, whether knowingly or not, directly or indirectly, you and I are the product of some philosophy of life.

I do not thank you find this any more clearly defined than in a familiar parable that our Lord Himself related. We call it the parable of the Good Samaritan. Here you have present the three philosophies that are prevalent in today's world.

The first philosophy is seen in the attitude of the thieves. It says, "What is yours is mine. If I can get it, I will take it."

Three years ago I traveled the road from Jerusalem down to Jericho. I looked up at those bleak hills above the winding road. As I squinted my eyes like you do in a museum looking at great art, I could see caves up in the hills that looked like eye-sockets in a skull. And I thought about the robbers that still infest that road.

"What is yours is mine, and I will take it if I can." That is what the thief always says. And there are those around us today

who are still saying that.

That was the philosophy of Adolph Hitler. Hitler simply lifted Nietzsche's ideas about superman from theoretical pages to transform them into a frenzy of action. If right makes might, then Germany had to be the mightiest war-making machine on earth. If mankind is of no importance, then the Jews and others could be destroyed to build up the super-race. Germany-powered Fuhrer-these alone were important. So Hitler's army chewed up Austria, Czechoslovakia, Poland, Norway, Denmark, Belgium, Holland, and France.

The second philosophy seen here is in the parable as observed in the action of the priest and the Levite. It says, "What is mine, is mine, and I am going to keep it if I can."

I hate to admit it, but this college professor and this minister in the parable simply walked on the other side of the road. One was hurrying to a faculty meeting. The other, a church service to attend. They both saw this poor individual lying by the side of the road with his hurt and with his need. But they pulled their robes around them and walked on, thinking, "I am very busy. You have a problem but I am not concerned with it."

Have you heard the record or read the book by this fabulous young man who came out of World War II saying that he was going to make one million dollars by the time he was forty and then sit down and invest it wisely? That is draw \$50,000, \$60,000, or \$70,000 a year and just live off it and do nothing. Have you heard about it?

Well, he made his million dollars by the time he was thirty-five. Today he goes all over the country telling his own success story.

Every time I hear someone bring it up I say to myself, "If that is life, I haven't learned much about it in my thirty-six years. If all there is to life is makin' a million dollars and then sitting back after you have invested it wisely and saying to yourself and to others, 'What's mine is mine, and I'm going to keep it,' then I don't know much about life."

No, this cannot be. It does not make sense. It is not the way Almighty God expects us to live in the world. The young people of tomorrow will not be what they ought to be as long as our arms are folded and we declare emphatically, "What is mine is mine, and I am going to keep it."

The last of these philosophies as seen in this parable is of course portrayed by the Good Samaritan. It says, "What is mine is

yours, and if you need it, really need it, I will share it with you."

You say that will not work! Think of trying to win a ball game with that philosophy! Imagine existing in competitive America or continuing in the coaching profession with that kind of philosophy! It won't work?

They came out a few years ago in LIFE magazine to say that they were going to put on the cover of the next issue of the magazine the picture of the world's greatest living man. Some of us got together to express our ideas on the matter. I do not know whom you would have selected, but I knew I had a winner—Winston Churchill, of course. There was not any doubt about it. The world's greatest living man!

The next week LIFE came out on its cover with a close-up of a bushy-haired man with a big shaggy mustache. The man had a little fawn in his arms, and a milk bottle with a nipple on it in his hand, feeding that little animal down in Africa. The caption read: "The World's Greatest Living Man—Albert Schweitzer."

You say it will not work. I say it will work! I say it is the only system of thought and philosophy that will work. And will continue to work year after year in my life and in yours and among the young men you coach.

I am here this minute because of a group of men like you. You are not coaching for the money; you are certainly underpaid. No! Men such as you worked with a boy whose father died when the lad was two. The father died from an infected blister on his foot from playing basketball. He had blood poisoning. A shot of penicillin would have cured him, but they did not have it then. That boy grew up without a father and looked to some coaches for help. They did not fail me. They shared knowledge, time, and interest.

I repeat, I am here now and anything I have done or ever will do is tribute to men like you who have said with your lives, whether you have ever stopped to analyze it or not, "What's mine is yours. If you need it, I have time and patience and love and know-how to teach and train you."

Well, there they are — three philosophies: that as seen in the thief, "What's yours is mine. If I can take it, I will;" as seen in the professor and the minister, "What is mine is mine, and I'll keep it if I can;" and finally as seen in the Good Samaritan who said quite emphatically with his lips and then with his deeds, "What is mine is yours, and if you need it I'll share it with you."

Three philosophies — take your pick!
I believe I know your choice. Because of
your choice the future is bright for our
children. Our universities will prosper, and
the glory of this will increase. Three phil-
osophies — take your pick!

Why Wrestle?

1. Wrestling is the most developmental
of all interscholastic sports.

2. The individual character of wrestling
makes victory or defeat a personal res-
ponsibility.

3. Wrestling is a contact sport that
tests strength and endurance, condition and
headwork, developing self-reliance, per-
severance and mental alertness.

4. Wrestling is a safe sport. The inter-
scholastic rules provide that every hold or
move which might endanger the life or
injure a participant is absolutely prohibited
and penalized.

5. Contestants are matched according to
weight, enabling boys of a size to compete
in their own class.

6. Wrestling is a natural test of
strength, endurance and skill. It is consid-
ered, with the possible exception of track, the

most natural activity in the sports program.

7. Wrestling has special appeal because
there is continual movement, constant
change of positions and new combinations
of holds in every move.

8. The activity conditions the body for
a variety of other sports. It helps develop
coordination, speed, accuracy, balance, keep-
ing muscles trim and pliable.

9. It is a sport which provides the phys-
ical exercise growing boys need.

The Human Touch

May every soul that touches mine—

Be it the slightest contact,

Get therefrom some good,

Some little grace, one kindly thought,

One aspiration yet unfelt,

One bit of courage for the darkening sky,

One gleam of faith

To brave the thickening ills of life,

One glimpse of brighter skies beyond the

gathering mist,

To make this life worthwhile,

And Heaven a surer heritage.

NEWLY ELECTED BOARD MEMBERS

Morton Combs

Oran C. Teater

Prin. Morton Combs of the Carr Creek High School and Supt. Oran C. Teater of the Paintsville City Schools will represent Sections 7 and 8 respectively on the Board of Control for a four year period, beginning July 1, 1964. Mr. Teater will begin his second term as a Board member, and Mr. Combs will be serving on the Board for the first time.

Morton Combs, a graduate of the Hazard High School, received his A.B. from Kentucky Wesleyan College and his M.A. from the University of Kentucky. He started his teaching career at the Carr Creek High School in 1938, and, except for the 1942-46 period when he was in the Army, he has been at this one school as coach and later as principal since that time.

Mr. Combs married Dale Smith, a native of Knott County. Mrs. Combs with degrees from Berea and the University of Kentucky, teaches English at Carr Creek. The Combs have two children. Glen, a high school senior, is a member of the Carr Creek basketball team. Linda Susan is in the seventh grade.

The new Board member is active in the work of his local Lions Club. He is a member of the Baptist Church. In 1963 he was named Basketball Coach of the Year by his fellow coaches of the Kentucky High School Coaches Association. He has been selected to coach the East All-Stars in the 1964 K.H.S.C.A. basketball game.

Mr. Teater, who was unopposed for election in Section 8, is currently Vice-President

of the Board of Control. He is a graduate of Centre College, and he has an M.A. degree from Morehead State College. He competed in all major sports at Centre. In the years that followed his college graduation, Mr. Teater returned to Paintsville High School, his alma mater, to coach the Tigers to three Big Sandy Conference football titles in five years. His basketball teams had a 64-13 record. His baseball team won three district titles.

In 1950 Mr. Teater was elevated to the principalship of the Paintsville High School. He became superintendent at Paintsville in 1959. He is active in local affairs and state organizations. He is a member of the Masons, Christian Church, Shrine, and the Paintsville Kiwanis Club (past president). He is a member of the K.E.A. Planning Board. His wife is the former Mary Evelyn VanHoose of Paintsville. They have one daughter, Dianna Louise, who is in college.

1964 Annual Meeting

This issue of the *ATHLETE* went to press just prior to the time of the annual meeting of the Association. The business meeting of the K. H. S. A. A. was scheduled to be held on Thursday, April 9, at 3:00 P. M., in the Terrace Room of the Kentucky Hotel, Louisville. The dinner meeting was to follow at 6:00 P. M., and was to be held in the Crystal Ballroom of the Brown Hotel.

As provided in Article IX, Section 1, of the K. H. S. A. A. Constitution, the following changes in the Constitution, By-Laws, and Tournament Rules were to be acted upon by the Delegate Assembly:

PROPOSAL I

The Board of Control proposes that "nineteenth" be substituted for "twentieth" in By-Law 4, this change to become effective on July 1, 1967.

PROPOSAL II

The Board of Control proposes that the following be added as Article VIII, Section 3-d, of the Constitution: "If the contract for a football game includes the expression 'corresponding date,' Thanksgiving Day

MINUTES OF THE BOARD MEETING

The Board of Control of the Kentucky High School Athletic Association met at the K.H.S.A.A. office, Lexington, on Friday morning, March 20, 1964. The meeting was called to order by President Cecil A. Thornton at 9:00, with all Board members and Commissioner Theo. A. Sanford present.

Sherman Gish moved, seconded by Preston Holland, that the reading of the January 25th meeting be waived since the members of the Board had received copies of these minutes. The motion was carried unanimously.

The Commissioner reported the results of the recent balloting for Board membership in Section 7 and Section 8 as follows: Section 7—Morton Combs 28, Clinton B. Hammons 12, James A. Pursifull 6, Sam Potter 2; Section 8—Oran C. Teater 53.

There was a discussion of the plan currently used in the selection of State Basketball Tournament officials. The Commissioner stated that he as State Tournament manager had full authority under tournament regulations to set up any plan which he believed desirable in the selection of State Tournament officials, and that, if the Board had any suggestions for a change in the plan of selecting officials for the tournament, he would be very glad to put them into effect. Foster J. Sanders moved, seconded by Don Davis, that the President be authorized to appoint a committee to study a possible change in the plan of selecting State Tournament officials. The motion was carried unanimously. President Thornton appointed Directors Davis, Dorsey, Holland, and Sanders as members of the committee.

There was a discussion of new proposals to be presented by the Board of Control to the forthcoming Delegate Assembly. Don Davis moved, seconded by Don R. Rawlings, that the following proposals be presented by the Board of Control to the Delegate Assembly:

PROPOSAL I — The Board of Control proposes that "nineteenth" be substituted for "twentieth" in By-Law 4, this change to become effective on July 1, 1967.

PROPOSAL II — The Board of Control proposes that the following be added as Article VIII, Section 3-d, of the Constitution: "If the contract for a football game

includes the expression 'corresponding date,' Thanksgiving Day shall be the date from which the corresponding date shall be determined. This interpretation shall take effect in 1966."

PROPOSAL III—The Board of Control proposes the following changes in the regulations concerning football practice:

A—Amend the second paragraph of By-Law 27, to read as follows: "Any player, to be eligible for the first game, shall have taken part in a minimum of ten practice periods extending over a period of ten days during the three weeks preceding the first game."

B—Add a section to By-Law 28 to read as follows: "Prior to the football season a team may have only one scrimmage, or practice game, or gridiron game with players other than members of the squad."

By unanimous vote the Board agreed to submit the three proposals.

The Commissioner reported that he had suspended three member schools from the K.H.S.A.A. for short periods of time since the January meeting of the Board.

The Paul G. Blazer High School of Ashland was suspended for a period of three weeks, beginning February 9, 1964, and placed on probation for a period of one year because of violation of the Association's Sportsmanship Rule by certain school representatives during the Ashland-Russell basketball game played at Ashland on January 28, 1964. The Commissioner stated that he had also placed on probation all students of both the Paul G. Blazer High School and the Russell High School who had taken part in the fighting during the game, with the provision that, if the boys are seniors, their probation runs to the end of the current school year; and that, if the boys are under-graduates, their probation is for a period of one year.

The Trinity High School of Louisville was suspended for a period of one week, beginning February 19, 1964, because a Trinity student, Joe Guest, was allowed to represent Trinity in four basketball games at a time when he was ineligible under Association regulations. The Commissioner stated that he believed that the use of an ineligible player by Trinity school officials was due to a mis-interpretation of Association regulations, and that he considered the suspension of the school mandatory.

The Grant County High School was suspended from February 19, 1964, until the end of the regular basketball season because Bobby Kells, a second team basketball player, had been allowed to represent

NATIONAL FEDERATION HONOR

Edgar McNabb

Assistant Principal Edgar McNabb of the Beechwood High School, veteran football rules interpreter and K.H.S.A.A. representative on the National Alliance Football Committee, was honored during the committee meeting held in New Orleans, Louisiana, early in January.

On the plaque which Mr. McNabb received, the following appeared:

'The National Federation of State High School Athletic Associations Award—Edgar McNabb—in recognition of noteworthy contributions as a member of the Game Administration sub-Committee, particularly in the field of officiating mechanics, To The National Alliance Football Committee—Presented in New Orleans, Louisiana, this 7th day of January, 1964—S. F. Burke, Chairman, National Alliance Football Committee—Clifford Fagan, Secretary, National Alliance Football Committee.'

his school when he was ineligible under the provisions of the Association's Residence Rule.

Poster J. Sanders read a letter from Executive Director James W. Browitt of the Kentucky Fair and Exposition Center, Louisville, stating that the 1965 date for the State Basketball Tournament was being held. Mr. Browitt stated that the 1966 date is open, and that there would possibly be a conflict between the State Tournament and the N.C.A.A. finals if the Board of Control decided to return the 1966 tournament to Louisville. Mr. Browitt further stated that the 1966 date for the State Tournament at Louisville would be available to the Board of Control if the

Board decided to locate the 1966 tournament in Louisville, and that, if no specific arrangements concerning the possible site of the 1966 tournament at Louisville are made prior to the N.C.A.A. Summer Meeting held in July, he will invite the N.C.A.A. to hold its basketball finals in Louisville in 1966. After a short discussion of certain State Tournament problems, Foster J. Sanders moved, seconded by Sherman Gish, that the 1966 State High School Basketball Tournament be held in Freedom Hall, Louisville; that Louisville continue to be the tournament site until Lexington facilities are adequate; and that the vote on the site be taken by secret ballot. Don Davis moved, seconded by Don R. Rawlins, that the motion be tabled, and that a discussion of future State Tournament sites be placed on the agenda of the Board of Control April meeting. The motion was carried.

Ralph C. Dorsey moved, seconded by Oran C. Teater, that all bills of the Association for the period beginning January 25, 1964, and ending March 6, 1964, be approved. The motion was carried unanimously.

There being no further business, the meeting adjourned.

shall be the date from which the corresponding date shall be determined. This interpretation shall take effect in 1966."

PROPOSAL III

The Board of Control proposes the following changes in the regulations concerning football practice:

A - Amend the second paragraph of By-Law 27, to read as follows: "Any player, to be eligible for the first game, shall have taken part in a minimum of ten practice periods extending over a period of ten days during the three weeks preceding the first game."

B-Add a section to By-Law 28 to read as follows: "Prior to the football season a team may have only one scrimmage, or practice game, or gridiron game with players other than members of the squad."

PROPOSAL IV

The principals and coaches of the 44th District proposes that "nineteenth" be substituted for "twentieth" in By-Law 4, this change to become effective on August 1, 1968.

PROPOSAL V

The Secondary School Principals Association of the Upper Cumberland Education

Association proposes that Article IV, Section 2-b, of the Constitution be amended to provide that only a principal, an assistant principal, or a superintendent shall be allowed to represent a district in the Delegate Assembly.

PROPOSAL VI

Prin. Raymond H. Herndon (Bowling Green) proposes that the following shall be added to the first paragraph of By-Law 27, to become effective for the 1966 football season: "No regular practice may be held prior to August 15, after the regular spring practice is completed."

PROPOSAL VII

Prin. Letcher W. Norton (Clark County) and Prin. James McAfee (Mt. Sterling) propose that the following be substituted for Tournament Rule III-D: "The State Basketball Tournament shall be held in Louisville in 1965, and in Lexington in 1966. Thereafter the tournament shall be alternated annually between Louisville and Lexington."

PROPOSAL VIII

The First District Secondary Principals Association proposes to amend Article IV, Section 2-b, of the Constitution to provide that, if the duly elected district delegate or alternate delegate does not answer the roll call at the annual meeting of the Delegate Assembly, the district shall remain not represented.

The Official Is In Authority

The attitude shown toward officials is sometimes appalling. Fans show a disrespect when calls go against their teams. Players sometimes question the decision of officials. Coaches occasionally want an immediate explanation of a call. In football, TV coverage showed instances the past year of officials running to the sidelines to explain a call to a coach. Statements are made by coaches occasionally to the effect that an official thinks he is the final authority at an athletic contest. One sometimes hears a statement to the effect that he is a "tin-god."

What do these statements and attitudes reflect? Does it reflect that the official thinks that he can make no mistake? No official with any experience will contend that he never makes a mistake. Are officials eager to exert authority? The truth of the matter is that they do not in many instances amply exert the authority given them under the game rules.

It is time for all of us to recognize that the game rules provide that the official is

the final authority at an athletic contest. This is provided in the game rules. Contrary to many statements made in regard to the official exerting too much authority, more serious may be the problem that we do not want to allow him to exercise the authority granted in the rules for the best interest of players. Coaches have developed the habit of wanting to come on the floor or field to question a call, which is in reality questioning the authority of the official. The team captain is the person designated in the rules to ask for any explanations of calls not understood by the team. Fans often consider the official who is doing no more than applying the game rules as a "robber" if the game is lost regardless of whether the reason was an error made by the official or dozens of errors made by the players and possibly some coaching errors made on the part of the coach. There has been evident during the past several years too much disrespect shown toward officials by remarks made by fans, coaches, and players. It is very probable that the remarks of the adults are influencing the remarks of players.

What is the chief basis for this type of attitude toward persons delegated authority to administer a contest by a national rules committee? One might readily say that a part of it is due to an extreme desire, and possibly over-emphasis, on winning. The accompanying emotions take precedence over the good common sense of individuals in such situations.

More serious, however, is the fact that this attitude at athletic contests seems to indicate what is being increasingly pointed out as one of the weaknesses in our present concept of the democratic way of life. This weakness is really the result of a lack of a thorough understanding of the meaning of our representative democratic society and form of government. For such a society to function best, it is basic that representative officials be selected that meet high standards who will be entrusted with the authority to make decisions for those for whom they represent. If these persons prove incompetent to make such decisions, it reveals that those who elect them were not careful enough in making certain that they met the necessary standards. However, the public has the recourse of removing them from office when this becomes known. No public official can properly serve unless we are willing to delegate to him both the authority and responsibility entailed in his position. There are far too many instances today of public officials not

being permitted to exercise judgment, authority, or responsibility without a great deal of harrassment and disrespect from individuals in our society. These are not always the opposition. Quite often those who elect the officials seem to think that they then have the authority to see that the official makes only the decision that they themselves would make, regardless of whether or not it were for the benefit of the great majority of individuals.

What we see in the questioning of the authority of athletic game officials and the disrespect shown toward them may be a reflection of this weakness in our society. Whether or not it is would be a debatable point that perhaps could not be proved either way. However, it would seem that schools can do a better job of educating youth if they are taught to respect those persons who are delegated authority when they are attempting to exercise that authority and the responsibility that goes with it. Game officials should be carefully selected to make certain that they meet the standards expected by the school. They should then be permitted to exercise the authority and responsibility granted in the game rules and given full support by the administration, the coach, and the players for the contest engaged. If an official does not prove competent, the By-Laws provide that he need not be approved for any future contests for which he is not already under contract. Following this procedure will help to educate boys and girls to a better understanding of our democratic way of life. Permitting disrespect to be shown toward persons delegated authority would be contrary to the best interest of a democratic society. Coaches, players, and fans must realize that the official is in authority at an athletic contest.

Story Of A Boy

I am a coach in a junior high school. I work with 500 boys each day. This has been my occupation for over 20 years. I enjoy it.

Today was test day in climbing a rope. We climb from a standing start to a point 15 feet high. The school record is 2.1 seconds. It has stood for three years. Today this record was broken. But this is not my story. How this record was broken is the important thing here, as it is in many an endeavor in life.

For three years Bobby Polacio, a 14½-year-old ninth grade Mexican boy, has trained and pointed, and, I suspect, dreamed

Jack Wise

Leaman Pipes

Kentucky's Game Guy of 1964 is Leaman Pipes of Bourbon County High. Jack Wise, prominent basketball official, nominated this fighting youngster, pointing out that cerebral palsy didn't stop "Lee" Pipes from swimming, golfing and bowling, besides being active as manager for his "cracker-jack" Bourbon County High basketball team. Nine judges were unanimous in their selection of him.

The reception the K.H.S.A.A. principals, coaches and officials give the Game Guys at their annual dinner during K.E.A. is an inspiration. One of the following young men, whose nominations arrived too late for consideration this year, may be the honored dinner guest next year:

Coach Herky Rupp of Atherton High is enthusiastic in his support of John Stewart, and a lionheart statuette award is on it's way to a young man whom Herky calls outstanding. Born with no arms and only one leg, John Stewart was Herky's statistician, refereed practice sessions, and was team manager. Claude Ricketts, widely-known sports official, seconded this nomination, saying this lad has conquered — instead of being conquered.

From E. B. May, Jr., of Prestonsburg, comes notification that Ronnie Paul Williamson of Pikeville High School qualified for the lionheart award because of his participation in football, basketball and baseball, in spite of crippled legs and feet since birth. A letter from Paintsville's singing superintendent, Oran Teater, pronounces this scrappy youngster courteous, friendly and a real prospect for 1965.

Middlesboro's Walt Green, an official in this year's state tournament, wants a lionheart award for Birchy Page of Middlesboro High because of his success in football and basketball, while overcoming a club foot. The award is being sent to you, Walt, for presentation to Birchy.

Remember Elvis Hall of McHenry! Elvis

is one of the best sports officials to come down the pike in many years. Next year Elvis will likely be an official in the professional National Basketball Association.

"Corky" Withrow, the Central City Flash, turned in some outstanding officiating performances on the hardwood this season while waiting for Spring and the training camp of the St. Louis Cardinals. "Corky", who will replace Stan "The Man" Musial in the outfield, is presently doctoring his feet after an operation for ingrown toenails.

"Scoop" Brown and Irv Spencer send compliments for Edd Kellow and Roy Winchester for outstanding courtesies shown officials at the Trinity and Henry County Invitational Tournaments respectively. Charlie Irwin, the Hopkinsville arbiter, says that Rex Alexander deserves the title of "Mr. Regional Tournament Manager" for injecting his magnetic personality into brand new services designed to make coaches, officials and fans happy to be a part of Kentucky's first region.

A letter from Hudson C. Morris, president of the Paris Greyhound Booster Club, says that the Abou Ben Adhem award recently won by the Club is treasured. Hudson believes the recognition for fine sports practices will be a stimulus for the advancement of sports in his town.

Ralph Dorsey is known wherever basketball is better because Ralph helps make it that way. When Ralph was starring at Horse Cave High in the early thirties, he commanded respect as a youngster. That respect has increased with his later successes as coach, principal, and now Superintendent of Caverna. Ralph has named Dr. Gilman P. Peterson as the gentleman who deserves this month's corn cob pipe of honor for unselfish service. The Dutchman agrees heartily, and the pipe is on it's way now to you, Ralph, for presentation to Dr. Peterson, for fourteen years of service to

After The Season—What?

At the end of the season, many trim well-conditioned young athletes will be released from their rigorous training schedules. Will they end their training with the season? Or will they make their training regimen a pattern for daily living?

Whether they remain in condition, whether they continue to reap the values of athletic training, depends upon the extent to which they continue to exercise, and to follow principles of healthful living. The physiological law of atrophy from disuse pertains to athletes as well as non-athletes.

A year-round program of physical conditioning should be advocated for all those interested in athletics. Maintaining strength, endurance, and agility makes possible high performance levels and protection against injury unattainable by any other means. It eliminates the necessity of the frustrating and trying early season period of crash-conditioning when techniques and skills are foremost in everyone's mind.

To assure a carry-over of training practices the athlete needs to be oriented as to the principles involved rather than the specific practices to follow. The more he

can translate these principles to everyday living, the more he will be inclined to continue to train. The training schedule, broadened in perspective, is actually a comprehensive health education program, dealing with desirable attitudes and behavior.

The training "curriculum" covers principles involved in personal hygiene, first aid, medical and dental care, rest and exercise, communicable disease control, environmental hazards and preventive procedures. The coach as an educator should be concerned with the carry over of these principles as a way of life as well as for "next season".

Athletics because of their tremendous appeal for youth can exercise a profound impact on the later life of participants. This is not automatic, however, and will occur only when:

—The potent motivation of sports is utilized for self-discipline;

—satisfying experiences result from having attained a high level of fitness;

—the training program is regarded as an educational process for effective living;

—the adults associated with the program provide an example with which the athletes can desirably identify.

Where Are We Headed?

Editor's Note: The following comments were made by Editor Herman Masin of the Scholastic Coach at the 1963 Annual Meeting of the National Federation.

After scouting the ethereal sports philosophies being promulgated by too many of our wishful-thinking double-domes, I will lay out sound, practical criteria for the high school administrator. I will then review the accomplishments of the National Federation in stimulating the enormous growth of interscholastic sports, and recommend future goals.

As I see it, the four major sports are dominating the school program, and will probably always continue to do so. Certainly these sports generate the most interest and are excellent from the school, community, and participants' viewpoints.

Unfortunately, they DON'T prepare the average boy and girl for the future; that is, equip them with the activities they'll need in their adult years, like golf, tennis, bowling, swimming, etc. Only a relative handful of schools offer these sports either on a varsity, intramural, or physical education basis.

It will behoove the National Federation to direct more attention to this area. That's the most salubrious sort of cooperation it can extend to the National Fitness Program.

I realize that a broadening of the varsity programs would entail enormous additional funds for facilities and teaching personnel, which the average school won't be able to obtain from normal sources. That's why I'd like to see the National Federation spearhead a drive for federal aid, aimed specifically at acquiring some of the where-

withal to implement the broadened program. This will enable our schools to enlarge their plants and staffs so that every boy and girl could be exposed to a program that will have definite carry-over to later life.

The National Federation should also encourage greater interest in junior high school athletics and girls' intramural and interscholastic programs. When conducted on a sensible, organized level, such programs can produce many wholesome benefits.

At the same time, the National Federation must wield a stronger whip over the so-called major sports. Instead of contenting itself with resolutions and recommendations, the National Federation should take DECISIVE ACTION against the abuses of All-Star Games. While the Federation has been framing its resolutions, these pestilences have been taking firm root. The longer the Federation waits, the harder it will be to extirpate them. IT'S LATER THAN THE FEDERATION THINKS!

Strong action is also called for against the invidious college recruiting programs, the growing practice of using junior high school athletics as "farm" systems for the senior high schools, and the distinctly alarming trend in OVER-COACHING (inherited from college and professional sports). The latter, I believe, is rapidly developing into a problem that augurs big trouble for the Federation.

The National Federation must realize that the ever-widening explosion in school construction and school population will have a marked effect on athletic administration. Every administrator will be called upon to work longer, harder, and BETTER

Everyone involved is concerned about the high cost of claims and insurance involving football injuries and coverage. Here are some suggestions which you might like to consider and which we believe would help reduce the number and seriousness of football injuries:

1. Require each prospective player to have a thorough check-up before he starts practice. Consider any history which might indicate any future trouble.
2. Plan a conditioning program which will get the player ready for contact work. In this connection conditioning of the knees is very important. If you have not already studied the booklet, *THE KNEE IN ATHLETICS*, we believe you would find it enlightening.
3. Set up a system of requiring your players to have your authorization to see the team physician or family physician so that you can have control over this feature.

These are merely suggestions, and while they are not a magic formula we believe they will help solve this problem.

than ever before. And the National Federation, like our federal government, will be called upon for greater leadership and a greater exercise of its powers.

In the final analysis, the MORAL responsibility of every thinking administrator lies not in the caliber of his administration but in the boy himself. He should try to get as many boys (and girls) as is humanly possible into a wholesome, healthful athletic program that can be fruitfully carried over into their post-school adult years.

STORY OF A BOY

(Continued from Page Five)

ed of breaking this record. In his first of three attempts Bobby climbed the rope in 2.1 seconds, tying the record. On his second try the watch stopped at 2.0 seconds flat, a record!

But as he descended the rope and the entire class gathered around to check the watch, I knew I must ask Bobby a question. There was a slight doubt in my mind whether or not the board at the 15 foot height had been touched. If he had missed it, it had been very, very close—not more than a fraction of an inch—and only Bobby knew the answer.

As he walked toward me, expressionless,

I said, "Bobby did you touch?" If he had said "yes" the record he had dreamed of since he was a skinny seventh grader and had worked for almost daily would be his, and he knew I would trust his word. With the class already cheering him for his performance, the slim boy shook his head negatively. And in this simple gesture, I witnessed a moment of greatness.

I said, "Bobby I'm proud of you. You've just set a record many athletes never attain. Now, in your last try, I want you to jump a few inches higher on the take-off. You're going to break this record."

As Bobby came up to the rope for his last try, a strange stillness came over the gym. Fifty boys and one coach were breathlessly set to help boost Bobby Polacio to a new record. He climbed the rope in 1.9 seconds! A school record, a city record, and perhaps close to a national record for a junior high school boy!

When the bell rang and I walked away, now misty-eyed I was thinking: "Bobby, with your clear, bright, dark eyes and your straight trim body—Bobby, at 14 you are a better man than I. Thank you for climbing so very, very high today."

MINUTES OF THE ANNUAL MEETING

The forty-seventh annual meeting of the Kentucky High School Athletic Association was held at the Kentucky Hotel, Louisville, on Thursday afternoon, April 9, 1964.

President Cecil A. Thornton called the meeting to order at 3:00. He introduced to the Delegate Assembly Morton Combs and Oran C. Teater, recently elected to the Board of Control for a period of four years, beginning July 1, 1964, and representing Sections 7 and 8 respectively.

Prior to the roll call of delegates, President Thornton asked the Commissioner to interpret K.H.S.A.A. regulations with respect to the seating of delegates and alternates. Commissioner Sanford stated that, in his opinion, the intent of Article IV, Section 2-b of the K.H.S.A.A. Constitution was very clear, namely, that only delegates and alternates elected by the principals of each basketball district on ballots distributed by the Commissioner and returned on or before November 15 are eligible to represent their respective districts in the Delegate Assembly. He then proceeded with the roll call as directed by President Thornton. Sixty-one regularly elected delegates or alternates answered the roll call.

Eli Alexander moved, seconded by William Bell, that the minutes of the 1963 meeting of the Association, which had been sent previously to all member schools, be approved without being read. The motion was carried unanimously.

Commissioner Sanford then gave a report on the activities of the Association during the 1963-64 school year (The report of the Commissioner appears elsewhere in this issue of the magazine).

President Thornton stated that consideration of proposals was the next order of business.

Paul E. Kerrick moved, seconded by John W. Trapp, that Proposal I, providing that "nineteenth" be substituted for "twentieth" in By-Law 4, this change to become effective on July 1, 1967, be adopted. The vote was 31-28 in favor of the proposal, but this was not the necessary two-thirds vote

required for amending the By-Law, and the motion was declared lost.

W. P. Wheeler moved, seconded by Roy N. Davis, that Proposal II, defining the expression "corresponding date" on contracts, this interpretation to take effect in 1966, be adopted. The motion was carried unanimously.

James McAfee moved, seconded by William Spicer, that Paragraph B of Proposal III be amended to read as follows: "Prior to the football season a team may have only two scrimmages, or two practice games, or two gridiron games, or any combination of these not to exceed two, with players other than members of the squad." The motion was carried. Joe Ohr moved, seconded by Roy G. Eversole, that Proposal III as amended be adopted. President Thornton declared the motion carried by the necessary majority.

John W. Trapp moved, seconded by Pete Grigsby, Jr., that Proposal IV, providing that "nineteenth" be substituted for "twentieth" in By-Law 4, this change to become effective on August 1, 1968, be adopted. President Thornton declared the motion carried by the necessary majority.

John Heber moved, seconded by Paul Coop, that Proposal V, providing that only a principal, an assistant principal, or a superintendent be allowed to represent a district in the Delegate Assembly, be tabled. The motion failed to carry by a vote of 22-28. Clinton B. Hammons moved, seconded by John E. Floyd, that Proposal V be adopted. The vote was 33-25 in favor of the Proposal, but this was not the necessary two-thirds vote required for amending the Constitution, and the motion was declared lost.

John W. Trapp moved, seconded by Roy T. Reazor, that Proposal VI, providing that no regular football practice may be held prior to August 15, after the regular spring practice is completed, this change in By-Law 27 to become effective for the 1966 football season, be tabled. The motion carried.

State Track Committee

The State High School Track Meet, scheduled to be held in Lexington on May 22-23, will be managed by Coach Bob Johnson, University of Kentucky. Other members of the committee are: James Major, Paducah; James Hollowell, Henderson; Elvis Donaldson, Bowling Green; Paul Jones, Fort Knox; Emmett Goranflo, Middletown; Wayne Cooper, Louisville; Roy McKenney, Bellevue; John Gettler, Lexington; Russell Roberts, Richmond; Charles Black, Barbourville; Arthur Mullins, Elkhorn City; and Ernie Chatten, Ashland. These regional managers will assist Mr. Johnson in conducting the State Meet.

Golf Tournaments

Sites of the eight regional golf tournaments were announced in the March issue of the ATHLETE. These tournaments will be managed by the following men: Fred Clayton, Princeton; Elvis Donaldson, Bowling Green; Oz Johnson, Valley Station; Wid Ellison, Louisville; John Lykins, Frankfort; Walter Baulch, Covington; Richard Morgan, London; and Paul Trimble, Paintsville. The State Golf Tournament will be held at Louisville on June 2-3, and will be managed by Ath. Dir. John Hackett of the Fort Knox High School. Principals who have not received their entry blanks should write to their respective managers for these forms.

Tennis Tournaments

Three of the eight regional tennis tournaments for boys are in the Louisville and Jefferson County area, and will be managed by Ath. Dir. Emmett Goranflo of the Eastern High School. The other managers are: Ted Hornback, Bowling Green; Bob Burrow, Fort Knox; Roger Klein, Bellevue; Eugene Huff, Lexington; and Glenn Presnell, Richmond. The State Tournament will be held in Louisville on June 12-13, and will be managed by Mr. Goranflo.

Managers of the regional tennis tournaments for girls are: Mrs. Tom Rowlett, Murray; Miss Betty Langley, Bowling Green; Miss Margaret Sheegog, Louisville; Mrs. Ann Sandusky, Middletown; Roger

Klein, Bellevue; and Eugene Huff, Lexington. The State Tennis Tournament for Girls will be held in Louisville on June 4-5. This tournament will be managed by Miss Sheegog.

Attention, Principals!

More than 200 principals of K.H.S.A.A. member schools have not as yet filed requests this school year for their insurance subsidies. If the school is underwriting all or part of insurance protection for its athletes, the Board of Control will allow a maximum credit or refund of \$40.00 to each school for "all sports except football," and an additional credit or refund of \$60.00 to each school maintaining a football team. Principals of schools which qualify for the credit or refund should write for reimbursement forms at once.

Fines for Late Reports

Principals of more than 160 schools had not filed their reports on basketball officials and their basketball participation (eligibility) lists for the 1963-64 season when this issue of the ATHLETE went to press. Some 500 basketball officials have not filed their reports on member schools. The Board of Control has established a fine of \$5.00 for both schools and officials delinquent with their reports. A deadline of June 15 has been set for the filing of all reports required under association rules. Officials who have not worked any games should notify the K.H.S.A.A. office accordingly. Such notification is considered a report.

Vettiner Honored

Charlie Vettiner, veteran rules interpreter for the Kentucky High School Athletic Association and member of the National Basketball Rules Committee of the United States and Canada, was honored during the annual meeting of the committee, which was held in March at Kansas City, by being elected Vice-Chairman. Bud Foster, of the University of Wisconsin, is Chairman.

1963-64 ANNUAL REPORT

(Presented to Delegate Assembly)

Three hundred ninety-eight schools joined the Association during 1963-64. This is twenty-seven less than the number of schools enrolled in 1962-63. One hundred sixty-five schools had eleven-man football teams, and five played eight-man football. This is an increase of four eleven-man teams over 1962-63.

Financial reports filed by the sixteen regional basketball tournament managers show total receipts of \$154,731.27. Receipts from the sixty-four district basketball tournaments amounted to \$232,282.01. Receipts from ticket sales at the State Basketball Tournament, including state tax, will approximate \$146,000.00. Profit to the Association on the tournament will be close to \$112,000.00. A complete record of all receipts and disbursements will appear in a subsequent issue of the Association magazine.

Thirteen hundred twenty-seven basketball officials and 486 football officials registered with the Association in 1963-64. Nine football rules clinics were held under the direction of Edgar McNabb, and eighty-one football officials took the National Federation examination for the higher ratings. Of this number, seventeen were added to the Certified list, and there were forty-six officials on the Approved list. Charlie Vettiner, veteran trainer of officials, conducted fifteen basketball clinics, and held the School for Basketball Officials. Additional meetings and clinics were held by the regional rep-

representatives who continue to render a fine service to the officials and schools in their respective areas. Sixty-eight officials took the National Federation basketball examination with nineteen being added to the Certified list and thirty-seven receiving the Approved rating.

Six members schools were suspended from the Association and two were placed on probation during the current school year. One of the suspended schools and both of the schools placed on probation were considered guilty of violating K.H.S.A.A. By-

Law 17, the Association's Sportsmanship Rule.

The football playoffs, started in 1959, continue to create interest in the sport. Eight of the ten regions in the three classes now have districts, and this plan will be continued in 1964.

Nine regional cross country runs were held on November 2 for the purpose of qualifying teams and individuals for the state event, which was held in Lexington on November 16. Ninety schools were represented by cross country teams in the fall of 1963.

The Class A section of the State Swimming Meet was held in Louisville on February 21-22,

Eleven schools sent boys' teams to the meet, and six schools entered girls' teams. The Class B Meet was held in Lexington on April 3-4. Ten boys' teams and nine girls' teams were entered in this meet. The increase and interest in girls' swimming caused the State Swimming Committee to set up the A and B classifications for both boys and girls this year.

One hundred ninety-five schools will send teams to the twelve regional track meets this spring.

Fifty-one district tournaments have been set up for baseball, to accommodate the 300 teams which will enter the tournaments. There will be 105 schools with golf teams, fifty-nine with boys' tennis teams, and thirty-four with girls' tennis teams.

Principals of thirteen schools have indicated their interest in the Rifle Marksmanship Championship, scheduled to be held at the University of Kentucky on April 25. The slow increase in the number of schools sponsoring riflery has been some-

what disappointing.

The 1964 State Wrestling Tournament, held at the Seneca High School on February 14-15, was the fourth tournament to be held in Kentucky, the first one sponsored by the K.H.S.A.A. Ten teams participated in the tournament. It is thought that interest in this sport will increase rapidly. A Wrestling Clinic, sponsored jointly by the University of Kentucky Department of Physical Education and the K.H.S.A.A., will be held in Lexington on May 23. High school administrators and coaches who have wrestling teams in their schools or who contemplate inaugurating a wrestling program for 1964-65 are urged to attend the clinic. Football coaches are especially invited.

Local medical societies, the Kentucky State Medical Association, and the K.H.S.A.A. combined their efforts to conduct four athletic injury prevention conferences within the past year. The State Medical Association will continue this service to Association member schools during 1964-65. Administrators and coaches are asked to give their assistance to this very important project.

A report such as this would never be complete without a statement to the effect that the Board of Control, the Commissioner, and the Assistant Commissioner appreciate very much the excellent cooperation of numerous school administrators, coaches, and officials in making possible the expanding program of the Kentucky High School Athletic Association.

The Flying Dutchman

If you doubt that Kentuckians have hearts as big as watermelons, read this story of a Hazard mountaineer who will become only the second to be named one of "Nature's Noblemen" by The Flying Dutchman. Herb Ockerman of Florence is the first on this list.

Arnett Strong, the happy mountaineer, nominated Mosco Blackburn, and Mosco will receive the "Nature's Nobleman Plaque" from Hazard's Mayor Willie Dawahare while the May flowers are in full bloom in those majestic mountains. Mosco is more than a foreman for the Kentucky Power Company; he's a foreman for every kid who needs something. When Dilce Combs, M. C. Napier and Leslie County High Schools needed lights for their football fields, they were stymied because of installation costs. Mosco fixed this in a hurry by spending his weekends doing the job. It was Mosco Blackburn again whose leadership was so important in making Little League Baseball and kid's football programs so successful in Hazard. This forty-six year old citizen is a legend in his own time. Coach Roscoe Shackelford says that the things he has done for sports in that area would be like listing Sam Snead's achievements in golf. The Dutchman doffs his hat to Mosco who goes on his record as one of "Nature's Noblemen."

A new film, "This Is Basketball," was made in Tipton, Indiana, in April. If you've just taken these instructional films for granted, you should have been with the Dutchman during the five days of meetings and picture shooting. To make one of these films a combination of unselfish effort by many people and a willingness to work twelve hours a day is essential. "Doc" Runyon, director of the Official Sports Film Service, did a masterful job and was as cool as a cucumber after the film was finished. Doc's a great little guy.

Commissioner Ted and Mrs. Sanford

joined Commissioners Lyle Quinn of Iowa, Al Willis of Illinois, Charlie Forsythe of Michigan, Colonel Paul Landis of Ohio and the host Commissioner from Indiana, Colonel Phil Eskew, to chaperone the working technicians. These included John Bunn and Ed Steitz, Editor and Assistant Editor of the Rule Book; Cliff Fagan, Chief of the National Federation of High School Athletic Associations; debonair Milt Sprunger, assistant to Al Willis; Les Anson of Wisconsin, and the Dutchman. Colonel Eskew was the perfect host performing double duty while his assistant commissioner, Colonel Herman Keller, recovered from an operation in Indianapolis.

Jerry Kimmel

To make one of these films it's imperative to have an excellently disciplined team. Coach Dick Barr of Tipton provided the best shooting and best behaved group of basketballers this Dutchman has ever seen. Incidentally, Tipton High School is one of the best administered schools these eyes have witnessed, and incidentally again you western Kentuckians will remember Dick Barr when he coached in Henderson. Dick handles boys with enviable ease.

All Kentuckians are accustomed to my worn-out 1957 Pontiac, but this "Tiger of the Highway" was a conversation piece with those film makers. Neither of the two officials, Virgil Emswiler, Ohio, and Ken Schuman, Michigan, would risk their striped shirts by riding in "The Tiger" from Kokomo, where we stayed, to Tipton. The Dutchman drove Cliff Fagan and Milt Sprunger to Indianapolis one night, and Mrs. Sprunger sat up until midnight worrying about Milt. She said that she wasn't sure my four-door car (with the electric cigar lighter) would make it all the way back. Colonel Harold A. Meyer, Assistant Commissioner of Ohio, had his charming wife with him, and she ruled "no" on his riding with the Dutchman on the basis that Harold was too good a husband to replace. "Doc" Runyon's wife furnished a piece of rope to tie the four doors shut. This writer will always hold a warm and appreciative feeling for Nelle Sanford who watched out for his health and welfare during the time she and Ted were there. That

National Federation crew are great to be with.

Normally only one Corn Cob Pipe of Honor is awarded each month, but because this is our last column before September we are sending two. Jerry Kimmel of Beechmont, Kentucky, wins one because of the countless hours he has devoted toward working for improvement of officiating in his region. Dick Barr, Coach of Tipton High School, receives the other for his unselfish service to basketball throughout the nation in the making of the basketball film in the Indiana city. The Abou Ben Adhem Citation will be sent to Colonel Phil Eskew's Indiana High School Athletic Association for promoting good fellowship during the week of film making.

The Dutchman signs off for the summer, thanking you brave Kentuckians for all of those invitations to speak at your commencements, but we are limited to only two. Right now Principal Eddie Steen and his graduates of Gamaliel High School are getting a Kentucky Country ham dinner set up for the Dutchman in May. Nobody has more fun than your Dutch Flyer. See you at our Basketball School For Officials at Lexington in August.

MINUTES OF BOARD MEETING

The Board of Control of the Kentucky High School Athletic Association met at the Kentucky Hotel, Louisville, on Friday morning, April 10, 1964. The meeting was called to order by President Cecil A. Thornton, with all Board members, Commissioner Theo. A. Sanford, and Assistant Commissioner J. B. Mansfield present. The invocation was given by Don R. Rawlings.

Sherman Gish moved, seconded by Don Davis, that the reading of the minutes of the March 20th meeting be waived since members of the Board had received copies of these minutes. The motion was carried unanimously.

The Commissioner gave a brief report on the state basketball tournament receipts and expenses. He stated that total receipts, including ticket sales, program profits, and television fee would exceed \$150,000.00, and he estimated that profits to the Association would be a figure close to \$112,000.00.

The Commissioner read a letter addressed to the Board of Control and written by Mr. T. H. Hardwick, a representative of the Lexington Chamber of Commerce, suggesting the possibility of television rights for the 1966 State Basketball Tournament, if the tournament should be held in Lexington that year, being sold for the amount of \$10,000.00 to a group headed by a Lexington television station, this amount to minimize the loss, if any, to the K.H.S.A.A. in receipts from ticket sales by comparison with sales when the tournament is held in Louisville. Mr. Hardwick gave other reasons in his letter for his opinion that the 1966 tournament should be held in Lexington. The Commissioner stated that Mr. Hardwick had asked to appear before the Board to discuss the location of the 1966 State Basketball Tournament, and that he had invited Mr. Hardwick to meet with the Board. At this time Mr. Hardwick appeared before the Board, discussed the statements made in his letter, and repeated his invitation for the Board to locate the 1966 State Basketball Tournament in Lexington. After Mr. Hardwick had retired, Foster J. Sanders moved, seconded by Sherman Gish, that the State Basketball Tournament be held annually in Louisville until such time when hotel facilities, gymnasium facilities, and possible patronage improve in another location. President Thornton asked the Commissioner to poll the Board on the motion. The motion carried by a vote of 6-2. Voting "Aye" were Directors Davis, Dorsey, Gish, Holland, Sanders and Teater. President Thornton and Director Rawlings voted "No."

The Commissioner read a letter from Dr. R. E. Davis of Central City, Chairman of the School Health Committee of the Kentucky State Medical Association, offering the services of his organization in continuing to conduct Athletic Injury

Prevention Conferences. It was the unanimous opinion of the Board members that the conferences mentioned should be continued, and the Commissioner was directed to write Dr. Davis concerning the possibility of his organization conducting an Athletic Injury Prevention Conference at each of the 1964 K.H.S.A.A. football clinics.

The Commissioner asked Assistant Commissioner Mansfield to present his recommendation to the Board for possible 1965 and 1966 football re-districting. Mr. Mansfield complied with this request. Oran C. Teater moved, seconded by Don Rawlings, that the re-districting recommended by Mr. Mansfield be approved by the Board, and that the Commissioner make available to the principals of schools maintaining football, after the correct 1963-64 school enrollments have been determined, information concerning the football districts and regions for the 1965-66 and 1966-67 school years. The motion was carried unanimously.

Upon recommendation of the Commissioner, Sherman Gish moved, seconded by Don Davis, that the insurance subsidy for each Association member school for 1964-65 be a basic amount of \$40.00, with an additional subsidy of \$60.00 for each school maintaining football. The motion was carried unanimously.

The Commissioner read a letter from Mr. W. T. Isaac, Executive Director for the Kentucky Society of Crippled Children, asking that he meet with a joint committee composed of representatives of the Louisville Junior Chamber of Commerce and the Kentucky Society for Crippled Children, to discuss the possibility of the Board of Control giving its sanction to an All-Star football game to be held in Louisville late in August, the profits from which would go to the Kentucky Society. The Commissioner stated that he had met with the committee earlier in the week, and had explained that the Board had adopted a policy of giving its sanction only to the football and basketball games sponsored by the Kentucky Coaches Association. The Commissioner stated that he had further told the Committee that the Board had not given its sanction to the annual All-Star Kentucky-Indiana basketball games, but that the Board had no objection to these games being played, and that the games were sanctioned annually by the National Collegiate Athletic Association. Don R. Rawlings moved, seconded by Foster J. Sanders, that the Board of Control take the same position concerning the proposed Louisville Chamber of Commerce City-County All-Star football game as it does toward the annual Kentucky-Indiana basketball games. The motion was carried unanimously.

Ralph C. Dorsey moved, seconded by Oran C. Teater, that the summer meeting of the Board of Control be held at Kenlake Hotel, Harbin, Kentucky, on August 1. The motion was carried unanimously.

Ralph C. Dorsey moved, seconded by Foster J. Sanders, that Don Davis and Preston Holland be named delegate and alternate respectively to the forthcoming summer meeting of the National Federation of State High School Athletic Associations. The motion was carried unanimously.

There was a discussion of possible basketball re-districting for 1964-65. Foster J. Sanders moved, seconded by Sherman Gish, that the following re-districting be made for 1964-65: Christian County High School to be moved from District 8 to District 7, Durrett High School to be moved from District 28 to District 27, Stanford High School to be moved from District 46 to District 45, and Greenup High School to be moved from District 64 to District 63. The motion was carried unanimously.

Preston Holland moved, seconded by Don Davis, that all bills of the Association for the period beginning March 17, 1964, and ending April 9, 1964, be approved. The motion was carried unanimously.

There being no further business, the meeting adjourned.

ANNUAL MEETING MINUTES

(Continued from Page One)

James L. Cobb moved, seconded by John W. Trapp, that Proposal VII, changing Tournament Rule III-D to provide that the site of the State Basketball Tournament be alternated annually between Louisville and Lexington, be tabled. The motion carried by a vote of 29-22.

Roy T. Reaser moved, seconded by Tom Johnson, that Proposal VIII, providing that in the Delegate Assembly at the annual meeting a district shall remain not represented if the duly elected delegate or alternate does not answer the roll call, be adopted. The motion was carried.

Pete Gribsby, Jr., moved, seconded by Edward Madden, that certain State Basket-

ball Tournament recommendations and regional baseball tournament travel expense recommendations, made respectively by Prin. James V. Bolen of the Wayland High School and Prin. George L. Moore of the McDowell High School, be considered by the Delegate Assembly. The vote to consider the recommendations was 22-0. Commissioner Sanford pointed out that the recommendations presented by Mr. Grigsby did not fall in the category of proposals for changes in the Association's Constitution, By-Laws or Tournament rules. John Heber moved, seconded by F. P. Newberry, that the Board of Control be authorized to study the recommendations presented by Mr. Grigsby, and to adopt any of them which appeared necessary or advisable. The motion was carried.

Joe Ohr moved, seconded by James A. Pickard, that the Delegate Assembly consider a proposal to allow, during the season, two basketball scrimmages between squads

representing different K.H.S.A.A. member schools, these scrimmages not to count against the game limit mentioned in By-Law 21. The vote to consider this proposal was 26-23, but this was not the necessary two-thirds vote required for considering a proposal from the floor.

There being no further business, President Thornton declared the meeting adjourned.

The Dinner meeting of the Association was held in the Crystal Ballroom of the Brown Hotel at 6:00 P.M. with 648 delegates and other school officials present. Recipient of the Game-Guy Award was Leaman Pipes of the Bourbon County High School. The presentation of the award was made by K.H.S.A.A. Director Don Davis.

The address of the evening was given by Dr. William W. "Bill" Slider, Minister of Christ Methodist Church, Louisville. Dr. Slider's interesting and humorous address gave ample proof of the fact that he has at-

tained national recognition as an accomplished speaker. He issued a challenge to administrators and coaches present to take pride in the profession which they had chosen for their life's work, and he gave testimony on what athletics had done for him personally. He had the finest collection of humorous stories, all driving home points which he was making, that many members of his audience had heard. Prolonged applause at the end of Dr. Slider's talk indicated that his efforts were well received.

Executive Board Meeting Minutes

The Executive Board of the Kentucky High School Coaches Association met at the Blue Boar Restaurant in Louisville at 4 o'clock, Wednesday April 8, 1964 with the following members present: Richard Greenwell, Past President; Bob Wright, President; Charles Kuhn, Vice-President; James Bazzell, Sgt.-at-arms; Joe Ohr, Sec.-Treas.; Estill Branham, All-Star Manager.

The Executive Board approved the reservation of seats for its members at the All-Star football and basketball games played each August.

The Executive Board approved the paying of travel expenses of its members to the All-Star games and to meetings called by the president. The mileage allowed is seven cents a mile.

The Executive Meeting approved a dinner meeting on Saturday of its members at 1:30 at the Kentucky Hotel in Lexington during All-Star week.

The Executive Board approved and recommended the insurance policy issued to coaches by the Continental Casualty Company.

The Executive Board, in a delayed meeting after the annual meeting, appointed Estill Branham All-Star games manager for 1965.

There being no further business, the meeting was adjourned at 5:50.

Respectfully submitted,
Joe Ohr, Sec.-Treas

Annual Business Meeting

The Kentucky High School Coaches Association met in annual session April 8, 1964, in Room 110 of the Convention Center in Louisville with Pres. Robert Wright (Ashland) presiding. Members of the executive board present were Richard Greenwell (Shelbyville), retiring president; Charles Kuhn (Male), vice-president; Joe Ohr (Irvine), sec.-treas.; and James Bazzell (Allen County), Sgt.-at-Arms. Approximately 100 members were present.

Alvin Almond (College High) opened the meeting with the invocation.

President Wright recognized members of the board of the Kentucky High School Athletic Association who were present, they being Ty Holland, Ralph Dorsey and Morton Combs.

The minutes of the Executive Board were dispensed with by motion of Estill Branham and seconded by Richard Greenwell. These minutes had been published in the ATHLETE.

On a motion by Ralph Dorsey and seconded by Corky Cox the reading of the minutes were dispensed with as they were published in the ATHLETE.

Sec.-Treas. Joe Ohr gave a report of the financial standing of the Kentucky High School Coaches Association and the All-Star funds. These reports were

accepted by motion of Corky Cox and seconded by Gil Sturtzel.

Mr. Ty Holland, Murray High School and a member of the Kentucky High School Athletic Association Board of Control, introduced to the coaches, Mr. Cal Luther, basketball coach of Murray State College. Luther was the Ohio Valley Conference "Coach of the Year" in 1934. Luther chose the topic, "Why Are You In the Coaching Profession?", for his talk, which was well received by the group. Briefly Luther stated: "You have to say to yourself that you have an opportunity to be creative. You must be able to pass something on to someone else. We have a tremendous challenge in coaching. We have the opportunity to mold individuals into good citizens. We, as coaches, get the student in a meaningful experience. We should set our standards high, motivate each student to the limit. The world is crying for the kind of person we can turn out. We can make a man out of a boy, temper his spirit, teach him cooperation. We do not have prejudices and intolerance in athletics. We accept a player as he is, not his color, his religion or how he spells his name. Sometimes in our greatest success, we are the greatest failure. Defeat does not mean dishonor. Losses should spur man on. We should strive for perfection. Athletics is a means of teaching a boy what he has to contribute. If you want to find out about an individual, you can find out about him more quickly in competition." Luther concluded his remarks by stating that every coach should take a few minutes to give a prayer giving thanks for the opportunity to work with young men in competitive athletics.

Edd Kellow (Trinity) reported on the basketball clinic, sponsored by the Kentucky High School Coaches Association, which is to be held in Louisville June 18, 19, and 20. This clinic is being held at the time of the Kentucky-Indiana basketball game. Member coaches of the K.H.S.C.A. must pay a \$5.00 fee for the clinic, while non-members are required to pay a \$10.00 fee. The fee includes a ticket to the Kentucky-Indiana game on Saturday night June 20. The Clinic will be held at the Kentucky Hotel.

Charlie Kuhn (Male), president of the Louisville Coaches Association, announced the second annual clinic sponsored by the L. C. A. was to be held Friday night and Saturday with a dinner at \$6.30 at Trinity High School on the first night and other sessions to be held at DeSales High School.

Two of Kentucky's outstanding coaches were recognized and presented trophies on being elected "Coach of the Year" by their fellow coaches in the Kentucky High School Coaches Association. Fred Clayton, Caldwell County, was chosen the football "Coach of the Year." His Caldwell County team won the AA Championship of 1963. Clayton was presented to his fellow coaches by Charlie Kuhn, who acted in behalf of Ray Callahan who received this honor for 1962. Callahan, an assistant coach of the University of Kentucky, was unable to attend. Kuhn's Male High team won AAA honors for 1963.

Gene Rhodes (Male High) was recognized as the "Coach of the Year" in basketball for 1963-1964. Rhodes was presented by Morton Combs of Carr Creek who received this honor last year.

In a rather heated and hotly contested election for sergeant-at-arms Fred Clayton was elected over George Sauer.

As a result of this election a motion was made by Estill Branham and seconded by Paul Young that membership cards be presented at the door for next year's meeting. Motion passed.

On motion by John Meihaus and seconded by

Richard Greenwell as the secretary-treasurer's position was given Joe Ohr (Irvine) for 1965-1966.

Some discussion arose relative to changing the expiration date of membership cards. However, the motion to change the date from March 1 to May 1 was defeated. Sec. Joe Ohr was instructed to notify every principal concerning the listing of coaches on the list submitted to District Tourney Managers by Commissioner Sanford.

Richard Greenwell, retiring president, was presented a plaque for his past leadership. Ralph Dorsey, former president of the Association made the presentation.

Meeting adjourned at 9:40.

Reports of Audit

Irvine, Kentucky
March 25, 1964

Executive Committee
Kentucky High School Coaches Association
Louisville, Kentucky
Gentlemen:

I have examined the records of the Kentucky High School Coaches Association for the period March 13, 1963 thru February 29, 1964, as furnished to me by your secretary, Mr. Joe Ohr, Irvine, Kentucky.

All transactions during the stated period are shown on the attached schedule of receipts and disbursements. Receipts have been traced into the bank and all disbursements have been substantiated by canceled checks.

The balance of \$8,071.69 has been confirmed as being on deposit in the Union Bank & Trust Company, Irvine, Kentucky, on February 29, 1964.

This schedule, in my opinion, properly reflects all receipts and disbursements for the period shown.

Yours very truly,

William Sexton, Jr., Auditor

Executive Committee
East-West All-Star Football & Basketball Games of
Kentucky High School Coaches Association
Louisville, Kentucky
Gentlemen:

Upon instructions from Mr. Joe Ohr, Irvine, Kentucky, I have made an examination of the records of the All-Star account furnished to me by Mr. Ohr, and covering the period March 14, 1963, to February 24, 1964.

All transactions for the stated period are shown on the attached schedule of receipts and disbursements. The bank balance of \$28,887.58 has been confirmed as being on deposit in the First Security National Bank & Trust Company, Lexington, Kentucky.

K.M.I. WINS RIFLE CHAMPIONSHIP

(Left to Right) Front Row: Dan Breene of M.M.I., individual champion; James Brice and Arthur Chapman of K.M.I.; Second Row: Scott Berdine, James Frederick, and John Ott, of K.M.I.

Kentucky Military Institute took a narrow victory on April 25 in the Third Annual K.H.S.A.A. State Rifle Marksmanship Tournament, held at the University of Kentucky's Barker Hall firing range. The K.M.I. team score was 1,362 points to 1,358 for M.M.I. Louisville Male, winner the past two years, was third with 1,352. Team and individual scores will be given in a subsequent issue of the ATHLETE.

The cash receipts of \$10,804.75 have been traced into the bank and the total disbursements of \$8,131.50 have been properly substantiated by canceled checks.

There is on deposit in the Columbia Federal Savings & Loan Association, Covington, Kentucky, in your account No. 9315 the sum of \$4,372.30 as of March 12, 1964. This is verified by a letter under date of March 12, 1964, from Columbia Federal to Mr. Ohr.

The receipts and disbursements shown in the attached schedule appear to be correct and, in my opinion, clearly reflect all the transactions for the period covered.

Mr. Ohr maintains his records in excellent order.

Respectfully submitted,

William Sexton, Jr., Auditor

1964 Track Questions

Editor's Note: These interpretations of the National Alliance Track and Field Rules do not set aside nor modify any rule. The rulings are made by the National Federation of State High School Athletic Associations in response to situations presented.

1. Situation: When applying the "Olympic method" of breaking ties in field events (Rule 5, Section 2, pages 14-15, 1964 Track and Field Rules and Record Book) are the points equally divided or distributed on the basis of placing after the ties are broken?

Ruling: Application of the "Olympic method" eliminates the tie even though two or more boys cleared the same final height. There is a winner, a second-place winner, etc. Points are awarded on the basis of placing, that is for the winner, for second-place, etc.

2. Situation: Runner A1 is leading the race, but loses his balance as he nears the finish line and rolls under the finish line yarn without breaking it. He goes across the finish line first.

Ruling: A1 is declared the winner provided his torso crossed the finish line first. Any competitor who crawls or rolls across the finish line, however, is not considered to have completed the race until his entire body has crossed the finish line.

3. Situation: A1 places his pole in the planting pit, but he does not leave the ground and no part of his body passes under the crossbar or beyond the stop-board.

Ruling: There has been no trial.

4. Situation: A1, B1, C1 and D1 are the only entries in the pole vault in a meet in which four places are to be counted. A1 fails to clear the first height in three legal attempts. The other three are successful at the first height. Is A1 credited with fourth place?

Ruling: A1 is not given a place.

5. Situation: In the low hurdle race, competitor A1 is in lane 1, B1 is in lane 2 and A2 is in lane 3. A1 strikes the eighth hurdle, loses his balance and stumbles across lane 2 and into lane 3. He does not interfere with B1 and continues in lane 3, clearing the ninth and tenth hurdles in that lane and finishing first.

Ruling: A1 is disqualified. He is expected to clear (or attempt to clear) all of the hurdles in his own lane.

6. Situation: Is there a penalty for knocking over a hurdle? Will a record be accepted if one or more of the hurdles is knocked over?

Ruling: There is no penalty, assuming the hurler makes an honest attempt to go over the hurdle and does not drag one leg outside it. There is no advantage gained from knocking down a hurdle. A record may be accepted and approved even though some of the hurdles have been knocked down during the race, it being understood the hurdles meet the track rules overturning specifications. If they do not, the record will be denied even though the performance does count in the meet points.

7. Situation: Because of competing in other events, or for some other reason, A1 passes all his turns at a given height. After all other contestants have failed to clear the height, A1 requests permission to attempt it.

Ruling: His request should be denied. The bar should be raised, after which A1 is entitled to any remaining turns due him.

8. Situation: Should the timer use his thumb or index finger in operating a stop watch for the timing of track events?

Ruling: The use of the index finger is recommended. The index finger is generally conceded to respond more quickly than any other part when voluntary muscles are involved.

9. Situation: Does an inspector or a judge have the authority to disqualify a runner?

Ruling: No inspectors and judges shall report directly to the referee any infraction or irregularity during a race. When an inspector observes an infraction or irregularity such as crowding or running on or over the left line of an adjacent runner's lane, or the committing of an infraction during the hurdle or relay race, he shall signal by waving a red flag over his head. At the completion of the race, the inspector must immediately report the infraction to the referee who will make the necessary decision.

10. Situation: What is the length of the baton-passing zone?

Ruling: It is 22 yards.

11. Situation: Runner A1 is in the pole lane and runner is in lane 2. Spectators in the field crowd into the pole lane. To avoid being tripped by spectators, A1 moves over the lane line and there is contact with runner B1. B1 wins the race and A1 places second. Inspector rules conditions permitted A1 no choice but to move into lane 2 to avoid spectators. The decision is protested.

Ruling: In circumstances where conditions are not in accordance with the rules, i.e., where spectators are allowed to enter the field and encroach on the track area, the inspector must use his best judgment in making a recommendation to the referee relative to whether a competitor should be disqualified. The referee must weigh all the factors when considering the recommendation. If the referee, after due consideration, decides the act of A1 did not warrant disqualification, he will not disqualify A1.

12. Situation: A1 puts the shot which falls on or outside of one of the lines which marks the throwing sector.

Ruling: This is an illegal put and it counts as a trial.
